REMARKS:

This irrigation system has two wells and pumps connected to a single mainline. Verified by field investigation 11/7/91 and 11/26/91. Claimant indicated to me during a telephone conversation on 11/8/91 that recommending two wells and a permissible place of use is okay. (SW Keen 1/8/92)

Examination of the license file and conversation with Ray Commons (Well driller) indicate that this right and 36-07063 were always ~~separate wells~~ intended to be on separate wells. The well in Lot 1 was for 36-07063, and the well in the SE SW was for 36-07227. In Gary Funderburg's exam dated 7-1-73 he appears to have measured a different well than was measured for 36-07063. The ~~same~~ diversion capacities and serial numbers are different.

REMARKS:

This right should be recommended with a permissible place of use: 5 acres out of the 9. Ray Bailey indicated to me that perm. p.o.u. is okay - See memo of 11/8/91. There is no evidence to indicate a change in place of use. Instead I believe the original license incorrectly identified 5 acres in lot 1, when two of those acres were actually in SESW. Only 3 acres of this cemetery lie in Lot 1.

This large cfs rate seems to have been licensed in order to allow the irrigation system to work as it was designed. The limitation expressed by the diversion volume is correct.

In the license file, please see the letter by Bobby Fleenor dated Jan. 27, 1972. Also pertinent are the remarks on the application for permit.

RE: Snake River Basin Adjudication (SRBA)
Minidoka County - #A36-07227 and #A36-07063

Dear Claimants:

The February deadline for completing our review of SRBA water right claims in your area is drawing near. Consequently, we are trying to address any unresolved discrepancies before we prepare our recommendations for water right Notices of Claim filed for water uses in your area. We have received your Change of Ownership form, and we thank you for your timely response. There are, however, two matters which we would like to clear up before preparing our recommendations for your water rights.

First, we have changed the address on your Notices of Claim, but we were previously unaware that your ownership name had changed from Heyburn Cemetery to Riverside Cemetery. In general, because a Notice of Claim is a formal legal document, making an ownership change requires the new owner to complete all parts of a Change of Ownership form and to submit proof of ownership. Usually a copy of a warranty deed is acceptable.

If you wish us to officially change the Notice of Claim to a Water Right ownership from Heyburn Cemetery to Riverside Cemetery, please complete the blank portions of the ownership change form I am returning to you. If Riverside Cemetery is a new owner, please submit a copy of your warranty deed or some other evidence of the ownership change. If the change is merely a name change, please sign as a former owner and state your capacity as an official of the cemetery organization at the bottom of the form. If you do not complete this form, we will recommend these water rights to the court under the name Heyburn Cemetery.

Second, our review of your recorded rights indicates that you have two licenses which together allow you to irrigate up to five acres. You have filed your Notices of Claim so that they match your licenses. It appears, however, that you have expanded your water use and are actually irrigating ten acres. This may mean that you are in violation of the statutes, which require

groundwater users who develop after March 25, 1963, to obtain a permit from the Department of Water Resources.

On December 9, 1991, I spoke via telephone with Mr. Ray Bailey to discuss this discrepancy and to explain how to obtain a water right for the additional five acres of irrigation. Mr. Bailey firmly declined to discuss this issue on the phone. Therefore, I will explain some of your options in this letter.

You may pursue a water right for the additional acres in one or both of two ways. Pursuing both of them may be the best way to protect your water use.

One way is to file an Application for Permit to Appropriate the Public Waters of the State of Idaho, as described in Idaho Code §42-202 and §42-203. An Application and instructions are enclosed. The other way is to file an expansion claim in the SRBA based upon Idaho Code §42-1416(2). A Notice of Claim form and instructions for it are also enclosed.

Please note that there are differences between the right you can establish with a permit and the one you may pursue through an expansion claim. With a permit your priority date will be the date that you file, but you may claim an additional diversion rate. With an expansion claim, you may not claim an additional rate of diversion, but you may claim a priority date as of the date your expansion was completed.

As I have said before, it is important that you act soon. If you wish to file an expansion claim, please do so by January 10, 1992. If you do not file a Notice of Claim, we will not be able to recommend for court decree your water use on this additional acreage.

The information related in this letter is based upon Idaho Department of Water Resources's interpretation of your water rights and its interpretation of the statutes mentioned. If you have any questions, please contact me at 327-7934 or contact our Twin Falls office at 736-3033. In addition to contacting IDWR for further explanations or assistance, you may also wish to seek legal counsel.

Yesterday I called Mr. Ray Bailey, cemetery committee chairperson, to discuss the cemetery's need for a second presumption expansion claim or an Application for Permit. (These two licensed rights cover a combined total of 5 acres with 20 AFA, but the cemetery irrigates 10 acres.)

Mr. Bailey was uncooperative, and he suggested that I make the paperwork right instead of bothering him.

Because this phone call accomplished little, I will prepare a letter and try again.

S.W. Keen Dec. 10, 1991

12/19/91 Mr. S. Heiner called me in response to My letter of Dec. 10, 1991. I explained to him how his licenses together are limited to 20 AFA or $4.0 \text{ AF/ACRE} \approx 5 \text{ acres}$. He asked me to explain the difference between a permit + an expansion claim, and I did so. He told me that the well at the center of the cemetery has gone dry, and therefore they are negotiating with the city to get water. Mr. Heiner indicated that if the negotiations with the city are successful, the cemetery may not need to file an additional claim or App. for permit. Mr. Heiner told me all would be resolved by Jan. 10.

Dear Mr. Heiner:

In our recent mailing to you, we apparently failed to enclose a Change in Address Form with the Change of Ownership Form. Consequently, you completed the incorrect form for executing a change of address for your Notices of Claim.

In order to correct this problem, please complete the enclosed Change in Address Form, sign it, and return it to this office. The numbers assigned to your two claims are listed at the top of the form.

Two reports which profile your Notices of Claim are enclosed for your use.

If you have any questions, please contact me at 327-7934 in Boise.

Mr. Commons remembers drilling two similar wells only a few years apart at the cemetery. He also remembers that one well is in a line due east of the other.

11/15/91 9:00 AM Mr. Commons called again to say that he has notes about drilling a well for Heyburn Cemetery in October, 1956.

Dear Claimant(s):

We are currently preparing the Notice(s) of Claim referenced above for the Director's Report in the Snake River Basin Adjudication. Our research indicates there may have been a change in either the ownership or address for the above claim(s). IDWR records currently show the following name and address for the owner of the claim(s) listed above:

- Heyburn Cemetery
- C/O Garland Christiansen
- 200 W 4th N
Burley, ID 83318

If our current records, as listed above, are not correct please complete the enclosed Change in Ownership or Change of Address form, as appropriate, to correct our records.

Your response must be received in this office by the Response Date indicated above. If no response is received from you, all further legal notices concerning the claim(s) will be sent to the name and address shown above. If you have claims other than those referenced here, please contact the Department so we may assist you in updating the information for all your claims. Should you have any questions, or feel that you need assistance, please contact IDWR at 1-800-451-4129.

On 11/8/91 I spoke by telephone to Mr. Ray Bailey, Chairman of the Board for Heyburn Cemetery. His number is 678-8224. Mr. Bailey told me that there are two wells used at the cemetery. One well is located at the center of the cemetery, the other is located at the west end. The current irrigation system connects the two wells, commingling the water from the two.

The north end of the cemetery - between the rows of trees - was developed first. The south end of the cemetery was put under irrigation later.

After I explained the concept of permissible place of use, Mr. Bailey said that it would be okay to recommend a permissible place of use for these rights.

11/13/91 I spoke with Stevens Heiner, Secretary/Treasurer of the (678-7920) Cemetery Board, and he confirmed that there are two wells in use at the cemetery. He also indicated that the well in the center of the cemetery had been pumping sand this year.
