Subject: Notice of Claim to a Water Right Lewellen Creek and Well
Attachments: DOC009.pdf

Hi Lynn,

In regard to water right claims 95-10012 and 95-10013, we have reviewed the information you sent us and have recommended the claims as follows.

Claim number 95-10012, Lewellen Creek, has been recommended with the priority date of 9/30/1941.

95-10013, the well, has been recommended with a priority date of January 18, 1979.

I've enclosed copies of those reports for your review. This information will go the Court in a "Director's Report" and in about one year you will be receiving copies of the decreed water rights.

Please feel free to contact me if you have any questions.
