RE: Ownership of Notice of Claim to a Water Right 95-8116

To Whom It May Concern:

Enclosed is a change of ownership form we received from Daniel Schoenberg in August of 2015. This was to be used to begin the ownership change process for a portion of the above water right thought to be appurtenant to the property you purchased from the Schoenberg estate in August of 2015.

Since that time, I have reviewed the water right file relative to that claim and have determined that, in fact, the water usage does **not** appear to be appurtenant to the portion of the property you purchased from the Schoenberg estate. As a result, I am sending the change of ownership form back to you, and advising you that there is nothing more that needs to be done with this claim or the ownership change.

If you would like to review the file relating to the above claim, it can be accessed at www.idwr.idaho.gov. I've enclosed an instruction sheet on using the website. If you have questions regarding this matter, please feel free to contact me at (208) 762-2802.

Sincerely,

Linda A. Werner

Tips on Successful Water Right Searches

- In general, text searches respond more quickly than map searches.
- Define your search for water rights by at least two (2) search items, such as Last Name and Source.
- Spelling can be an issue. The more you enter, the less chance of an exact match. Enter a portion of a Last Name or Organization for a broader "wild card" search. For example, "Joh" may return Johns, Johansen, Johnson, etc.
- The application defaults to "All" six types, with a maximum of 1,000 records per type. The search will stop at 1,000 records per type even when more records may fit the search criteria. To avoid missing records, choose more search items to refine your search, and/or choose to search one type of water right at a time.
