RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8827

Dear Claimants:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed on the basis of a previously issued water right license. When filing a water right claim based on a previously issued license, all aspects of the originally licensed water right must be carried over to the new claim, with exception to a reduction of use or changes accomplished through a water right transfer (Idaho Code § 42-222). In your Notice of Error Reply, you requested to add fire protection storage to the recommendation of your claim. The Notice of Claim to a Water Right form you submitted for this license on February 25, 2009 did not include a fire protection storage component, nor any evidence of an accomplished transfer changing the licensed purpose of use. If you would like to add additional water uses beyond what is allowed under Water Right License 95-8827, an application for a new water use permit must be filed. For your convenience, I have enclosed an Application for Permit form with instructions.

If you have any questions or concerns, feel free to contact our adjudication staff at the Northern Regional Office during business hours at 208-762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read 'Evan W. Roda'.

Evan W. Roda
Water Rights Supervisor
Northern Region

Enclosure: Copy of Water Right License 95-8827, Application for Permit with instructions
