Section 42-225a, Idaho Code

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

The extent and nature of said claim is as follows:

- | | | | | | | | | |
|--------|----------------------|-----|-------------------------------|----------------|------|---------------|----|------------------------|
| Amount | <u>2.00</u> | Use | <u>Irrigation</u> | Period of Use: | From | <u>Apr. 1</u> | To | <u>Nov. 1</u> |

or a/f) | | (dom., irri.,
stock, etc.) | | | | | (both dates inclusive) |

- (4) Priority claimed: (the date water was first applied to beneficial use) June, 1919
A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

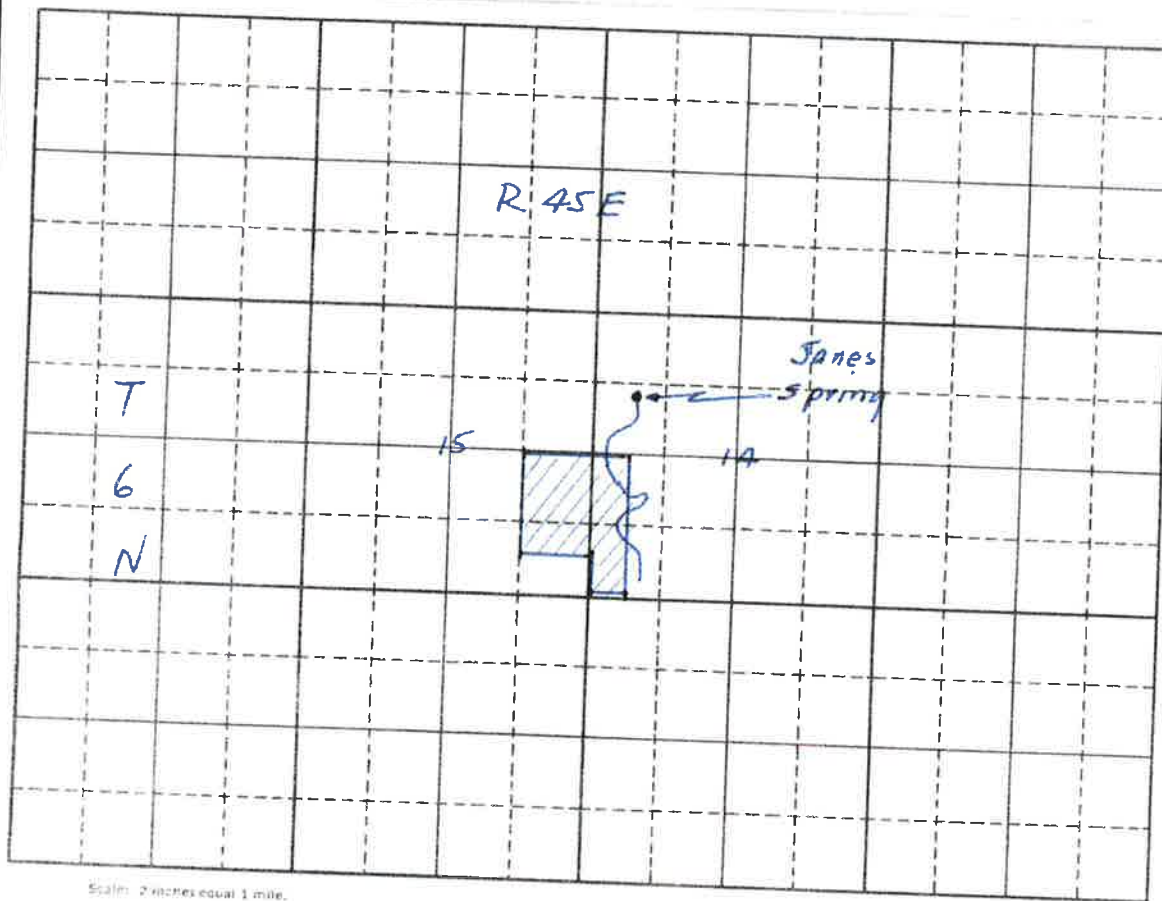

- B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Small dam (earth) 6' high by 25' crest length with ditch leading away from dam

APPROVAL OF APPLICATION FOR) PROTEST
WATER RIGHT NO. 22-4008.)

-----)
Comes now AMY BEARD, by and through her attorney, W. Brent Eames of the firm of Jolley, Eames & Fielding of Rexburg, files a written protest to the above application for Water Right No. 22-4008 filed by Royce Riley.

That this Protest is filed on behalf of Amy Beard of Tetonia, Idaho.

That applicant's claim for water right to the Jaynes Spring Tributary is protested for the following reasons:

1. That the said spring is located wholly upon the lands of protestant Amy Beard; that the spring waters do not flow upon applicant's land, and that therefore the Department of Water Resources is prohibited under 42-212 Idaho Code from issuing a permit or right to divert or appropriate this water of said spring.
2. That the subject spring does not produce 2cfs as claimed by applicant.
3. That the subject spring does not produce water between April and November as claimed by applicant.
4. That the subject spring does not produce sufficient water to irrigate one hundred (100) acres as claimed by applicant.
5. That applicant has not established or legally received any 1919 appropriation rights.

MICROFILMED

6. That applicant has no right of entry or easement upon the land of protestant for the purpose of diverting water or constructing works.

7. That protestant sold to applicant the following described property: The $W\frac{1}{2}$ of the $SW\frac{1}{4}$, Sec. 14, and the $E\frac{1}{2}$ of the $SE\frac{1}{4}$ of Sec. 15, Twp 6 N., R. 45 EBM. That protestant did not convey to applicant any rights whatsoever to the use of water flowing from the subject spring.

That protestant Amy Beard has established rights to all of the waters flowing from the subject spring. That any interference with protestants right will cause great damage and irreparable harm.

RE: Claim to a Water Right No. 22-4008

Mr. Royce Reiley
Tetonia,
Idaho 83452

Dear Mr. Reiley:

Enclosed please find a copy of the exception filed by W. Brent Eames, in behalf of Amy Beard in connection with your Claim No. 22-4008. The following is a quote from the provisions of the Idaho Code under which this claim has been filed:

42-225b. Recording of claims by department-----Corrections.-----

.....
At any time after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Administration (renamed Department of Water Resources, July 1, 1974) and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the department the same as the original and for which no additional filing fee shall be required.

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearings or evaluate for conformation or final censorship of the described rights.

If you have any questions regarding this matter, please contact us.

Very truly yours,

RONALD D. CARLSON

Dear Mr. Reiley:

We are returning your application for permit and check No. 92-80 in the amount of \$75.00 because the amount of water applied for is in excess of that allowed for the acreage by the Idaho Code.

Also, from the information attached, it appears that you should file a claim to a water right to preserve the priority established when the system was first built in 1947. If the enlargement of the system in 1971 resulted in irrigation of additional land this would have to be covered by an application for permit.

Since this situation is somewhat complex, I would suggest that you visit our Idaho Falls Office so that we can assist you in filing the necessary forms.

Very truly yours,

RE: REQUEST FOR EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-04008

Dear Claimant (s):

The Idaho Department of Water Resources is beginning water rights review in Basin 22, the Teton Valley area. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of June 1, 1919, from Janes Spring.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-4008

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 22, the Teton River drainage. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of JUNE 1 1919 from JANES SPRING.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

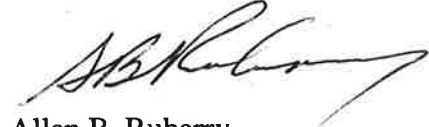

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.

Please submit documentation supporting the priority date within 30 days of the date of this letter, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact this office.
