Bill,

I have 2 deeds in the file. These 2 deeds describe the land outlined in yellow on the attached map. The land outlined in blue is the land that Madison County shows on their taxlot data that she also owns. I don't have a deed for the land outlined in blue. This is the information I used to do my recommendation. The rest of the property is owned either by another entity or in conjunction with another entity. To the right(East) of the blue land is where you said she has a raspberry patch. This is not included in the taxlot data from madison county. Could you shed some light on this issue? I see a building with a white roof to the right and accross the ditch. Is this where the raspberry patch is? Thanks for your help.

Evidence of Priority received. Seems to justify claimed date of 1885. Appears the Squire well was community knowledge since William Porter Squires first acquired his 160 ac., which has remained in family through the years. Recommending based on claimed date.

Did not find 2 ac. of irrigated ground w/in owners property boundary, only 1.6 ac. Claimant claimed 14 ac., so recommending .033 cfs for irrigation.

Domestic is for 2 homes, so .016 cfs is OK. Volume should be .06 AFA / 0.02 cfs, so 1.8 AFA.

Re: Snake River Basin Adjudication Claim (SRBA) 22-4064

Dear Mr. Squires:

I have reviewed your latest correspondence received at IDWR, 6 June 2005, (copy attached). Your dissertation fails to establish evidence of the claimed Priority Date of January 01, 1885, for irrigation purposes.

To recommend this claim, with the claimed priority, date you must provide clear evidence that irrigation, in-fact, took place from this well on the claimed two acres since January 01, 1885, and, how that practice happened.

I have enclosed a pamphlet that describes certain types of documentation, which can be used as evidence to support claimed priority dates. Without proper documentation supporting the irrigation portion of this claim the irrigation portion will not be recommended to the SRBA court.

Thank you for your kind attention to this important matter. Please respond to this request within the next 30 days. Should you have questions regarding this matter please feel free to contact this office.

Respectfully submitted,

Water Right Claim #22-04064
Snake River Basin Adjudication (SRBA)

RECEIVED

William Porter Squires came to the Lyman/Archer area with "several of his brothers in the spring of 1885. He filed on a 1/4 section of land having squatter's rights only as the land had no government survey but county survey only" (family life sketch William P Squires).

This parcel was later secured by the Homestead Act (the Homestead Act 1862). His well was hand dug, "as were many in this area" (Pioneer Irrigation). This well was a known fact among the family and friends because it was from this that we all learned and understood the direction of the flow of water. It is also a requirement of the Homestead Act.

"In 1886 the Lyman Irrigation Canal Company was formed among these stalwarts who were hard to discourage were...Charles and William Squires" (Pioneer Irrigation Madison County page 208). In Mar 2 1900 he served as a school trustee.

I have contacted the National Archives and Records Administration for further documentation.

I have enclosed three witness statements concerning William Porter homesteading this land and having a well in the year 1885. Ludean Grover, Budge Clay, and Norman B Erickson.

The Homestead Act of 1862

by Richard Pence

Background

The Act, which became law on Jan. 1, 1863, allowed anyone to **file for a quarter-section** of free land (160 acres). The land was yours at **the end of five years** if you had **built a house on it, dug a well, broken (plowed) 10 acres, fenced a specified amount, and actually lived there.**

WATER RIGHT CLAIM # 22-04064

I Ludean Grover, of my own free will, give my testimony of fact that —

William P. Savines settled here and homesteaded. He built a home and dug a well. This was general knowledge in the community of Arches. I witness this in behalf of the Savines Shirley & Sherie and do it with a sound mind this date 28 of June 2005

Water Right Claim #22-04064
Snake River Adjudication (SRBA)

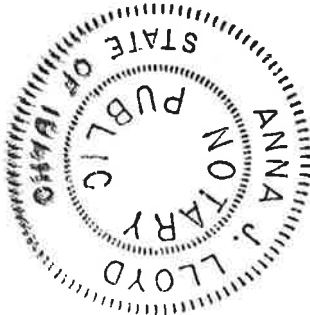

I Norman B Erickson, at the request of Bill Squires, do hereby give my statement concerning well water and to substantiate the water claim date on the Shirley/Sherie Squires premise.

Being one of the older generation in our community of Archer, I do know that William Porter Squires was one of the first settlers in this community, who built a home and had a water well. This was common knowledge in our community. His descendents have remained and lived on this homestead since up to this time.

I give this statement being of sound mind and knowledge this day 23 June 2005.

Water Right Claim #22-04064
Snake River asin Adjudication (SRBA)

I Budge Clay, having grown up in the community of Archer/Sunnydell and as my family was one of the first settlers in this community; do hereby give my statement concerning the water claim for Shirley and Sherie Squires.

I do know that William Porter Squires homestead and lived on the tract of land that has been in the Squires family since. He built a home and had a water well since he claimed his tract. As a child I played with the Squires boys and drank water from their well.

He was involved in bringing canal water to the community along with the other prominent men of the community.

I give my statement being of sound mind and memory and to help substantiate the Squires claim to their water right date. Dated 23 June 2005

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in-mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1.** Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3.**
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

Mrs. Squires:

As you requested from Field Agent, Harold Jones, I am sending you an information packet concerning Snake River Basin Adjudication Claim A22-04064. The packet contains a copy of the original claim, a Change of Ownership form and a request for Evidence of Priority.

It appears from the field exam completed on May 19, 2005 that you and your daughter, Sherie, each own one home apiece and share the use of the well on her property.

It would probably be best if you gave me a call so I can better explain this Claim process as it can be intimidating at times. My number at the Eastern Regional Office in Idaho Falls is 525-7161.

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-04064

Dear Claimant (s):

The Idaho Department of Water Resources is beginning water rights review in Basin 22, the Teton Valley area. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of JAN. 1, 1885, from GROUNDWATER (WELL).

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

Mrs. Squires:

As you requested from Field Agent, Harold Jones, I am sending you an information packet concerning Snake River Basin Adjudication Claim A22-04064. The packet contains a copy of the original claim, a Change of Ownership form and a request for Evidence of Priority.

It appears from the field exam completed on May 19, 2005 that you and your daughter, Sherie, each own one home apiece and share the use of the well on her property.

It would probably be best if you gave me a call so I can better explain this Claim process as it can be intimidating at times. My number at the Eastern Regional Office in Idaho Falls is 525-7161.

Sincerely,

Allen Ruberry
Sr. Water Resource Agent

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-4064

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 22, the Teton River drainage. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of JAN 1 1885, from GROUNDWATER.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.
