

IDAHO DEPARTMENT OF WATER RESOURCES

RIGHT NUMBER: 22-4099

NAME AND ADDRESS: CITY OF TETONIA
PO BOX 55
TETONIA ID 83452

TRIBUTARY:

PRIORITY DATE: 10/01/1941

T06N R45E S29 NWSESE Within TETON County

PERIOD OF USE:

QUANTITY

0.160 CFS

Place of use is within the service area of the City of Teton municipal water supply system as provided for under Idaho Law.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Right No. 22-4098 is also diverted through point of diversion described above.

Affidavit

STATE OF IDAHO)
) SS
COUNTY OF MADISON)

RICHARD A. "DICK" EGBERT, being first duly sworn, deposes and states as follows:

1. That I am currently 98 years of age;
2. That for all of my life I have been a resident of Teton County, Idaho, residing in the City of Teton;
3. That all of my life I have been active in community affairs, working with the elected officials of the City of Teton, the County of Teton, and the State of Idaho, including serving several terms in the Legislature of the State of Idaho;
4. That I have a current and clear recollection of the municipal water well used by the City of Teton in the early 1940's, said water right having a priority date of October 01, 1941; and
5. That said municipal water well was not entirely successful and was subsequently replaced with another well having a priority date of August 17, 1957.

Your Affiant saith further naught this 11th day of October, 2004.

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-04098 AND 22-04099

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 23, the Swan Valley area. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claims, as referenced above, claim Priority Dates of SEPTEMBER 1, 1955 and OCTOBER 1, 1941, respectively, from WELLS.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have

Tetonia, ID 83452

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW
Adjudication Bureau Chief

REPORT OF WATER SUPPLY

Year 1950

Place Tetonia County Teton Census Population _____

Ownership Municipal (R. F. Rammell, Chairman of Village Board;
Wm. Berry, Water Commissioner)

Supply used by public

Population served 250

FIELD SURVEY DATA

DESCRIPTION OF SUPPLY: Give a brief description of the source and the main features of treatment, pumping equipment, storage available, adequacy of system, distribution or direct pumping, supervision of additions and extensions from a public health viewpoint, adequacy of pressures, separation between sewers and water mains, laboratory and related controls of quality. If supply is untreated or chlorinated only, describe protection against entrance of contamination. Attach additional sheets if necessary.

Source of water is a new well 198 feet in depth. Casing is 16-inch for an unknown depth and then decreases in size to 12-inch for the remaining distance. The 12-inch casing is perforated. A 20 HP Jacuzzi 6-inch submersible pump has been installed in the well. The pump is too large for the capacity of the well and therefore at times admits air. Distribution is of steel and wood pipe. Leakage in the distribution system is excessive. Storage is provided by a steel tank located on a hill above the well.

PUBLIC HEALTH DEFECTS: Describe briefly the sanitary defects such as by-passes, cross connections, emergency intakes to unsafe supplies, inadequate protection against sources of pollution, inadequacy of treatment, defective structural features, possibility of flooding, deficient operating practices, inadequate sanitary control of additions or extensions to system, lack of proper plumbing regulations and enforcement, inadequate control of water in distribution system. Attach additional sheets if necessary.

Transmission lines are in poor state of repair

Inadequate bacteriological record.

Engineer A. J. Biladeau Date of investigation August 16, 1950
