RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-10215

Dear Claimants:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed for the domestic use of groundwater with a claimed priority date of December 30, 2005. The Notice of Error Reply you submitted for the claim requested that our recommendation be revised to include the irrigation of your pastures, and also a change the priority date. Before the priority date can be changed, an Amended Notice of Claim to a Water Right form must be submitted with the revised date. Any irrigation of your pastures beyond the ½ acre allowed with your domestic use is not a lawful water diversion, as you stated this use began after 1995. The permit system for establishing a water right became mandatory for uses developed from groundwater sources after March 25, 1963 (except for small domestic and stockwater purposes). Because a water right for irrigation was not previously established under the permit system, an "Application for Permit" form should be filed. For your convenience, I have enclosed an Application for Permit form and an Amended Notice of Claim to a Water Right form.

If you have any questions or concerns, feel free to contact our adjudication staff at the Northern Regional Office during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
