AMENDED

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

AMENDED

1. Name: WILLIAM STRANGE 208-837-4767
Address: 923 PIONEER RD
HAGERMAN ID 83332
AND/OR
Name: LOUISE STRANGE 208-837-4767
Address: 923 PIONEER RD
HAGERMAN ID 83332

2. Date of Priority: APR 1, 1880

3. Source: BILLINGSLEY CREEK Trib. to: SNAKE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
07S	13E	11	SE	SE	NW		GOODING

5. Description of diverting works:
HEADGATE & BARLOGI DITCH, GRAVITY IRRIGATION

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	04/01	10/15	2.000		
STOCKWATER	01/01	12/31	2.000		
WILDLIFE	01/01	12/31	2.000		
RECREATION	01/01	12/31	2.000		
AESTHETIC	01/01	12/31	2.000		
IRRIGATION	10/16	03/31	2.000		

7. Total Quantity Appropriated is:
2.000 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:
STOCK: 75 HEAD CATTLE; WILDLIFE, RECREATION & AESTHETIC: SEE RMKS

10. Place of Use:

Township	Range	Section	1/4	of	1/4	Lot	Use	Acres
07S	13E	10	SE		SE	5	IRR	8.0
			SE		SE	5	STOCK	
			SE		SE	5	WILDLF	
			SE		SE	5	REC	
			SE		SE	5	AES	
			Section Acres					8.0
		11	SW		SW		STOCK	
			SW		SW		IRR	28.0
			SW		SW		WILDLF	
			SW		SW		AES	
			SW		SW		REC	
			Section Acres					28.0
			Total Acres					36.0

11. Place of use in counties: GOODING

12. Do you own the property listed above as place of use? YES

13. Other Water Rights Used:
NONE

14. Remarks:

LAND CLAIMED IS ALL THE LAND I OWN NORTH OF THE BARLOGI DITCH.
STOCK DRINK FROM IRRIGATION DITCHES.

12/18/97, DJ: CLAIM AMENDED 12/8/97 TO ADD YEARLONG USES.
NON-IRRIGATION SEASON IRR. USE IS FOR "IRRIGATION MAINTENANCE".
WILDLIFE RECREATION AND AESTHETIC USE INVOLVES TWO PONDS AND A
DITCH THROUGH THE YARD. FEES FOR ADDITIONAL USES RECEIPTED UNDER
S020752.

NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) William Strange Phone (208) 837-4767
Mailing Address 923 Pioneer Rd., Hagerman ID Zip 83332
2. Date of Priority (Only one (1) per claim) April 01, 1880
3. Source of water supply (a) Billingsley Creek
which is tributary to (b) Snake River
4. a. Location of existing point of diversion is: Township 7S Range 13E Section 11,
SE 1/4 of SE 1/4 of NW 1/4, Govt. Lot, — B.M., County of Gooding
Additional points of diversion if any: _____
- b. If instream flow, beginning point of claimed instream flow is:
Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. Headgate & measuring device into
the Barlog's Ditch.

6. Water is claimed for the following purposes:

For Irrigation purposes from irrigation season (both dates are inclusive) to amount 2.0 (cfs) or (acre feet)

For Irrigation Maintenance purposes from 1/1 to 12/31 amount 2.0 (cfs) or (acre feet)

For Stock purposes from 1/1 to 12/31 amount 2.0 (cfs) or (acre feet)

For Wildlife/Recreation/Aesthetics purposes from 1/1 to 12/31 amount 2.0 (cfs) or (acre feet)

7. Total quantity claimed (a) 2.0 (cfs) and/or (b) (acre feet)

8. Total consumptive use claimed is acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) S: 75 head cattle; W/R/A two ponds, ditch through yard;

10. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Subcase No.: 36-00008

Case 39576

STANDARD FORM 5

**STIPULATED ELEMENTS
OF A WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

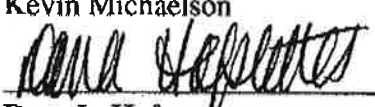

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be decreed as described in the attached Recommendation. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Expert Witness Report

SRBA Case No 39576

Subcases 36-00006, 36-00007, 36-00008

William Strange

C.E. Brockway P.E. PhD.

Brockway Engineering P.L.L.C.

The property owned by William Strange lies in the SW1/4, SW1/4 Sec 11. T7S R13E. It consists of parcels irrigated from the Barlogi Ditch from Billingsley Creek (36-00008) and the Sands Ditch (36-00006, 36-00007). Examination of aerial photos including 1987, 1993, and 1997 color aerial photos from the FSA, USDA NRCS soils maps and farm maps, and IDWR shape files for the farm, the minimum irrigated area includes 24.9 acres from the Sands Ditch and 25.00 acres irrigated from the Barlogi Ditch for a total of 49.9 acres. There are two large ponds and numerous smaller depressions filled for wildlife, recreation and aesthetics from each ditch.

The eastern part of the farm is irrigated with furrow irrigation on sandy soils. Soil samples taken in April 1998 and analyzed by Stukenholtz Laboratory of Twin Falls Idaho indicate that the soils are loamy sands with sand content of 76%. Soil permeability and infiltration rates are high, up to 20 in./hr. USDA NRCS soil classifications include Fathom (FAB), Bahem (DEB) and soils interspersed in lava flows (394). Irrigation on the western part of the farm includes areas between lava outcrops and non-contiguous areas. Ditches are present throughout the area and considerably more area has been irrigated in the past than is currently irrigated. The irrigation method applicable to the western part of the farm is flooding which is inherently difficult and requires high flow rates to cover the area.

Based on interviews with Mr. Turner, irrigation has historically utilized 12 or 24 hour sets. Sometimes the irrigator would set 6 hour sets to wet-up the furrows, let the set sit for 6 hours and then re-set the furrows. This decreases the infiltration rate and advance time

so that the water will flow across the field in a shorter time. On the flood irrigated areas, dams were set in the ditches to divert to irrigable areas.

The duty of water on these lands is in excess of 0.02 cfs/acre(1 miner's inch/acre). In order to estimate the irrigation requirement for the farm, and analysis using procedures developed by Hubble Engineering for the Idaho Department of Water Resources was utilized. The procedures were incorporated in a computer program developed by C.W. Robison P.E. which has been reviewed by IDWR and utilized previously in numerous 'excess flow analyses'. Analyses were performed separately for the area irrigated from the Barlogi Ditch and from the Sands Ditch. Input data sets and computer output for each analysis are included in Appendix A to this report. NRCS soils data and laboratory soils analysis are also included in Appendix A.

Farm delivery requirement(duty of water) was calculated using set times and furrow flows as reported or appropriate for the run lengths(field length) and soil types. Project irrigation diversion requirements were calculated for the analysis period utilizing the Bliss weather data set modified for Hagerman and utilizing an 80% probability level of crop consumptive use. Calculations were also performed for the peak period consumptive use.

Estimated irrigation requirements using the Hubble approach or any other method are sensitive to irrigation management procedures. Irrigation efficiency and water requirements are very sensitive to the length of time water is left on the field(set time) and the discharge that is set in each furrow, either from siphon tubes or cutouts. Furrow infiltration rates are highly variable due to soil property variability, slope inconsistencies, antecedent moisture conditions, and crop litter in the furrow. Irrigator's judgement as to how long to leave water on the field or how 'strong' to set the tubes varies from person to person. Estimates of irrigation requirements are therefor best utilized to provide a guideline as to the range of expected requirements rather than to precisely determine what flows early irrigators should have used.

For the area irrigated from the Sands Ditch(24.9 acres) the estimated base peak project diversion requirement is 2.90inches/acre(1.44 cfs) and the analysis period (average)

irrigation requirement is 2.50 inches/acre(1.25 cfs). This assumes approximately 50% alfalfa and 50% pasture in the four major fields.

A sensitivity analysis was performed to show the effect on calculated irrigation water requirements if the irrigator chooses different set times or furrow flows. That analysis is shown in Appendix A. The furrow flow rates were varied from 80% to 160% of the base furrow flow and the set time was calculated for 12, 18, and 2 hours. The table in Appendix A shows that the required peak project diversion rate from the Sands Ditch could vary from 1.24 to 4.07 cfs or 2.49 to 8.18 miner' inches per acre.

The Sands Ditch diverts from Billingsley Creek and traverses approximately 3900 feet to the Wm. Strange diversion. Using the Worstall method of estimating seepage loss(Hubble Report) and the 3900 ft reach length, 10 ft average width, and a seepage factor of 2.0 as used by IDWR, the estimated seepage in the Sands Ditch to the Strange diversion is 0.99 cfs.

The diversion from the Sands ditch to the William Strange property is a 12 inch diameter pipe which flows west to the center point of a ditch running north and south along the head of irrigated fields. On April 29, 1998 the flow through the pipe was measured by current metering the discharge in the ditch flowing north and the ditch flowing south and summing the two measurements. Data for that measurement is shown in Appendix B. The total measured flow was 4.35 cfs. This measurement shows that the capacity of the diversion system is more than adequate to provide the estimated maximum diversion requirement to the lands irrigated from the Sands Ditch.

Lands irrigated from the Barlogi Ditch (36-00008) were estimated from aerial photos and IDWR shape files(GIS maps) at 25.0 acres in 4 major fields or irrigated areas. The Hubble analysis utilizing reported set times and assuming approximately 64 percent alfalfa and 36 percent pasture indicates a peak period diversion requirement of 2.37 inches/acre (1.19 cfs) and an irrigation requirement with 80% consumptive use probability of 2.07 inches/acre(1.03 cfs). The sensitivity analysis for the irrigation requirement on the 36-00008 lands shows possible irrigation requirements from 1.27 in/acre(.63 cfs) to 4.5 inches/acre(2.25 cfs).

The Barlogi Ditch transports water from Billingsley Creek approximately 3310 feet to the head of the Strange property. Seepage loss in the 2330 ft section of the Barlogi ditch from Billingsley Creek to the Watkins diversion has been measured using the installed flume and weir at 0.61 cfs. Prorating this measured loss to the 3310 ft of Barlogi Ditch from Billingsley Creek to the Strange property yields a loss of 0.87cfs. An April 27, 1998, the flow in the Barlogi Ditch as measured by the 20.5 inch weir below the Watkins diversion was 2.2 cfs.

Discharge from the Sands Ditch and the Barlogi Ditch can be diverted through ditches for irrigation or for enhancement of open water and habitat in ponds on the east side of the property. The ponds are not full during the entire year and can be filled directly from ditches. These ponds include wetlands vegetation and wildfowl were observed on April 29, 1998 during a field visit. The ponds do not serve as irrigation storage. Aerial photos show ponds and wet areas throughout the eastern part of the farm. Numerous wetlands on the property are delineated on the National Wetlands Inventory Maps shown in Appendix C. These areas are classified as palustrine, emergent or shrub-shrub, seasonally flooded wetlands.

The two wildlife ponds fed from the Sands Ditch have an estimated total area of 2.3 acres and the two ponds fed from the Barlogi Ditch have a combined area of about 0.6 acres. During hot summer days, recreational ponds can become oxygen depleted during the night time due to oxygen demand from high levels of vegetation and algae. A reasonable turnover time or exchange of fresh water is required to maintain reasonable oxygen levels and prevent eutrophication. A rule of thumb for ideal turnover or exchange time is 24 hours. Based on this criteria, the discharge required for the Sands Ditch ponds with an average depth of 4 feet would be 4.67 cfs. For the two Barlogi Ditch ponds with an average depth of 3 feet, the discharge required for 24 hour turnover would be 0.89 cfs.

Based on the irrigation requirements analysis, the duty of water under 37-00006 and 37-00007 from the Sands Ditch, excluding transmission loss in the Sands Ditch, is 2.90 in/acre(1.44 cfs); however, depending on irrigation management levels, crop selection, or local weather conditions, the irrigation requirement could be over 8 in/acre. On-field

duty of water under 37-00008 from the Barlogi Ditch is estimated at 2.37 in/acre(1.19 cfs) on the 25.0 irrigated acres. However, irrigation management variation could require up to 4.5 in/acre(2.25 cfs). Transmission losses in the Barlogi Ditch from Billingsley Creek to the Wm. Strange property are estimated at 0.87 cfs.

Ponds on the Wm. Strange farm can be fed directly from the Sands Ditch and Barlogi Ditches and are not dependent on irrigation return flow or subsurface return flow. The ponds and habitat, vegetation and soils are classified as wetlands

The SRBA claimed discharge of 2.0 cfs under 37-00008 is within the range of expected irrigation requirements for the 25.0 acres irrigated from the ditch. The estimated Barlogi Ditch loss of 0.87 cfs down to the Strange diversion is reasonable and justifiable. Based on the farm irrigation requirement and the Barlogi Ditch loss, the estimated diversion requirement at Billingsley Creek is 2.06 cfs ($1.19+0.87$). Depending on the level of irrigation management on these fields, the irrigation diversion requirement could be as high as 3.12 cfs.

The SRBA claimed discharge of 4.58 cfs under 37-00006 and 37-00007 is within the range of expected irrigation requirements for the 24.9 irrigated acres. The estimated Sands Ditch loss of 0.99 cfs as determined by the Worstell method and used by IDWR is reasonable. Based on the farm irrigation requirement and the Sands Ditch loss, the estimated base diversion requirement at Billingsley Creek is 2.43 cfs. However, depending of the level of irrigation management, the irrigation diversion requirement could be as high as 5.06 cfs.

Maintenance of the viability of the wildlife ponds depends on the amount of fresh water available. Any diverted water in excess of irrigation requirements can be beneficially used for pond enhancement.

NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
Incomplete forms will be returned.

1. Water Right No(s).: 36-00006, 36-00007 & 36-00008
Adjudication Claim No(s).: SRBA#39576
2. The following REQUIRED information must be submitted with this form:
 - A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.
AND
 - B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)
OR
 - C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.
3. Name and Address of Former Owner/Claimant William Strange
923 Pioneer Rd, Hagerman ID 83332
4. New Owner/Claimant(s) Penelope F. Turner
Name Connector (Check one): ☐ and, ☐ or, ☐ and/or
New Mailing Address 923 Pioneer Road
City, State and ZIP Code Hagerman ID 83332
New Telephone Number (208) 837-4767
5. Date you acquired the property 12/05/91
6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.
Number of acres you irrigate NA Number and type of stock _____
Diversion rate in CFS _____ Number of homes _____ Other uses _____
If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.
7. Signature of New Owner or Claimant(s) Penelope F. Turner
Penelope F. Turner

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

Dear Counselor:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Water Rights #36-00006, 36-00007, 36-00008, & 36-10353

Dear Water Right Holders: *records changed, NCAP prepared. cc: W.A. 8-18-99*

Mail recently sent to you was returned to us by the Postal Service. They also advised us your address has changed to the above address. We have enclosed the returned mail.

Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter, **list any other water rights you have**, and return this letter by August 16, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records. Be sure to list your water right numbers.

If there has been a change in ownership of the property connected with the water right referenced above, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

RE: Your letter of August 3.

Dear Ms. Sherman:

Enclosed is the letter you enclosed for our change of address.

Please note that the ranch is now in both my father's name (William Strange) and mine (Penelope F. Turner). We have told you before that Louise Strange passed away several years ago. This information was given to your attorney at our last meeting along with a copy of the "Warranty Deed". Our attorney is also filing a "Notice Of Change Of Water Right Ownership".

The address that you show on Pioneer Road is correct we have been using that address since we came back to Idaho almost three years ago.

Sincerely,

Penelope F. Turner

**ATTACHMENT TO: OBJECTION TO IRRIGATION SEASON AND/OR CONJUNCTIVE
MANAGEMENT GENERAL PROVISIONS**

We have no argument with the dates of the irrigation season as listed. BUT we do not want the water turned off at the end of the season. The water needs to continue running in the ditches to the river for the purpose of filling the ponds for wildlife, maintaining the ditches themselves, watering of livestock in the back portions of the property, and the esthetic value of the water running through our lawn and garden.

DISTRICT COURT - SRBA
TWIN FALLS CO., IDAHO
FILED

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA) NOTICE SETTING SUBCASE
Case No. 39576) FOR SCHEDULING CONFERENCE
)
) SUBCASE NOS: SEE ATTACHED EXHIBIT A

The Scheduling Conference for this subcase will be
held as follows:

MONDAY, SEPTEMBER 21, 1998 at 10:00 AM
SRBA
DISTRICT COURT
253 3RD AVENUE NORTH
TWIN FALLS, ID

Parties and their attorneys, if any, shall attend the
Scheduling Conference and shall be prepared to discuss the
following matters:

1. Claimant representation and alignment of the parties;
2. Identification of the issues;
3. Admissions of facts and documents;
4. Amendment of pleadings, if required;
5. Discovery and discovery cut-off dates;
6. Expert witnesses, if planned;
7. Pre-trial conference dates;
8. Motions;
9. Settlement/alternative dispute resolution; and
10. Firm trial date.

DIRECTOR OF IDWR
PO BOX 83720
BOISE, ID 83720-0098

Page 1 8/24/98

(continued)

The date for the scheduling conference will not be changed unless a Stipulation to Reset is received by the court fourteen (14) days before the date of the scheduling conference. Parties who wish to change the date of the scheduling conference must do the following:

1. Contact the clerk of the SRBA Court and obtain alternative dates and times (208-736-3011).
2. Contact each party to the subcase(s) or their attorney, if any, and reach an agreement on the alternative date(s) and time(s) provided by the clerk.
3. Prepare a Stipulation to Reset the hearing. The hearing must be reset on one of the dates and times provided by the clerk. The stipulation must specify the date(s) and time(s) agreed to and must contain a statement that you have contacted each party or their attorney and that all have agreed on the alternative date(s) and time(s). The court will send a notice resetting the hearing.
4. If the parties cannot agree on one of the alternative dates and times provided by the clerk, the party wishing to change the date and time must file an Expedited Motion to Reset with the court at least 21 days prior to the scheduled hearing.

SRBA FIELD EXAM REPORT

SRBA CLAIM: A36-00006, A36-00007 & A36-00008

EXAM DATE: JANUARY 14, 1998

IDWR AGENT: STEVE CLELLAND

ACCOMPANIED BY CLAIMANT: Mr. & Mrs. Turner for Mr. Strange

OBSERVED BY CHARLIE HONSINGER

PURPOSE: This examination was made to investigate the amendments for additional uses filed by Pat Brown for the above named claimant.

OBSERVATIONS & FINDINGS: I met with the Turners at the home of William Strange; Mrs. Turner is his daughter. I explained my purpose for being there was to investigate the recently added amendments. I added that since there is such a large discrepancy in the irrigated acreage claimed vs. recommended perhaps we should review that to be sure we were looking at the same property.

We started off by viewing the lands under the Barlogi Ditch, covered by right 36-00008. We walked north of the house area inside the pasture and headed due west to find the pond west of the pasture area. I was shown a pond and plotted it on the GIS map in the file. The other pond shown on the amended claim map was drawn in incorrectly by Pat Brown; Mr. Turner told me it lies on the other side of the Barlogi Ditch. We discussed and viewed the lands north and west of the pond - none of the land appeared irrigated nor did it have any method for irrigation. Mr. Turner agreed there was no irrigation from this point to the Snake River.

Mr. Turner led me west of the pond and then southwest until we crossed the Barlogi Ditch; he led me to a small depression in the lava ridges and pointed out a shallow ditch system. He told me this was once a field. There were no corrugates or ditches in the "field" but there was a ditch that curved around the eastern edge of the area. The vegetation was some grass and sagebrush 2-3 feet in height. I told him I could probably recommend something for this small plat of ground. He told me he irrigated it in 1997.

We headed almost straight east in search of the next pond area. The amended claim map showed no irrigation from the Barlogi Ditch being south of the Ditch; Mr. Turner said the map was not accurate as drawn. He identified small areas of irrigation south of the Barlogi Ditch as we walked easterly. Arriving at the next small pond, I noticed the water draining into a sink hole. Mr. Turner said the water flowing into these lava fields generally disappeared into sinkholes; that was a problem in getting the water to be delivered beyond the system as currently operating.

Next we walked to the south in search of the next pond that was supplied under the Sands Ditch system under rights 36-00006 & 7. The walk to the pond was across land covered mostly by lava pressure ridges and was not possible to be irrigated by either ditch system. This land was mapped out in the amended claim map as irrigated and I discussed this with Mr. Turner who agreed this area was not irrigated. Mr. Turner found the pond almost directly south of the last pond we had just observed. This pond was larger than

the last. In reviewing the GIS map in the file I showed Mr. Turner how the pond before us now appears to be in the same location as part of the place of use shown for irrigation. He told me this was the practice, to fill the pond in the winter months and during the summer months it was used as a pasture as the aerial photo shows.

We walked southwesterly to find the final pond as shown on the claim map. This pond appeared to be the largest in surface size of all four ponds. All ponds are quite shallow in depth; none appeared to be deeper than three feet at the deepest point with most of the ponds around the one foot depth. From this final pond I asked if any irrigation occurred to the west; from the pond to the Snake River. Mr. Turner told me no irrigation was done west of these ponds on the Sands Ditch system.

We viewed the irrigation along the southern border of the property and I agreed the irrigation was occurring; this was supported by the irrigation shown on the GIS photo-map.

From the point east of the third pond, we followed the far west edge of the irrigated property until we reached the corrals and barns south of the house. Mr. Turner and I discussed the irrigation observed on the ground with that shown in the GIS map. We concluded that the map was very accurate in identifying the acres under irrigation. I revised the GIS map, created in October 16, 1997 by Kelly Christensen, with hand written notations of lands that could be added to the total of the irrigated acres under the Sands Ditch system. (A map in the file 36-0006 & a map in 36-00008 were used for noting the changes agreed upon during this field exam.)

We returned to the house to discuss the possible outcomes of the observations made during this exam. Using the files and some rough estimates of acres I told Mr. Turner it appears that there will be an increase in the number of acres. We both agreed that the claimed amounts of irrigated acres were not accurate. Under the Barlogi Ditch system I estimated 20 acres and under the Sands Ditch system there will be about 20 acres also. Total for the entire farm about 40 acres. He was satisfied with that number.

Quantity was discussed at this time also. The Barlogi right 36-00008 was decreed for 2.0 cfs and claimed as such. An earlier exam of this day found the total Barlogi Ditch diversion to be 4.8 cfs, 2.8 cfs was being diverted to the end of Mr. Watkins' system under right 36-00106 and 36-08099. Based on these amounts there was 2.0 cfs available for this right at the head of the Barlogi Ditch. I asked Mr. Turner if he has ever measured the water at the Strange farm and he had not and knew of no other measurements except at the head of the ditch. I told him we would use the acres found from this exam in an analysis to determine the beneficial use necessary to irrigate based on the soils here. The common rates for the valley have been around 1.5-2 inches per acre, assuming the highest, 2 inches per acre, that would result in 40 inches for this right (0.80 cfs).

Quantity on the Sands ditch system would be similar and would be near 40 inches per acre with the same assumptions. The total of the two claims on the Sands ditch total 4.5 cfs. This is similar to the amount of water currently being delivered down the Barlogi Ditch. There does not appear to be a delivery system on the

Strange farm large enough to deliver that amount of water. The ditches observed during the exam were 2-2.5 feet wide and the Barlogi Ditch is 10-12 feet wide and much deeper than the farm ditches. Mr. Turner agreed they could not deliver that amount of water to the farm. The delivery from the Sands ditch travels across the neighbors farm through a pipeline and arrives in a concrete riser on the east side of the property at the section line between section 11 & 14. He didn't know the details of the pipeline system. (See second report on flow rates from Sands Ditch system dated 1/15/98.)

SUMMARY & RECOMMENDATIONS: In addition to the above stated findings of the irrigation portion to these rights I also told Mr. Turner the most likely recommendations for the amendments claimed.

SRBA CLAIM 36-00008 (Barlogi Ditch)

IRRIGATION: Revise the acres irrigated as noted on the field notes and as determined by GIS software. GIS maps updated 1/22/98 by me. Total acres for this right = 21.0 acres. Flow rate to be determined by Jeff Peppersack for this GIS shapefile.

IRRIGATION MAINTENANCE: Not recommended as a separate use. Portions of the conveyance loss of this right, if necessary, are included in the Irrigation use above.

WILDLIFE, RECREATION, AESTHETICS: Not recommended. All these uses are incidental to the Irrigation use as historically developed. The ditch system was built to deliver irrigation water. Permits may need to be filed to cover new uses recently developed during the non-irrigation season.

STOCKWATER: Recommended. 75 head of cattle require 0.03 cfs as per the charts in Water Law Handbook Appendix.

TOTAL QUANTITY: Irrigation rate as determined plus the Stockwater use rate.

I suggest adding the remark about "necessary flows to deliver the right," to stockwater uses under Condition Code N01.

SRBA CLAIMS 36-00006 & 36-00007 (SANDS DITCH)

IRRIGATION: Same as above in 36-00008. GIS acres = 21.0.

IRRIGATION MAINTENANCE: Not recommended - same as above.

WILDLIFE, RECREATION, AESTHETICS: Not recommended -same as above.

STOCKWATER: Recommended. Same 75 head as above but water is a different diversion system, same source, allow 0.03 cfs.

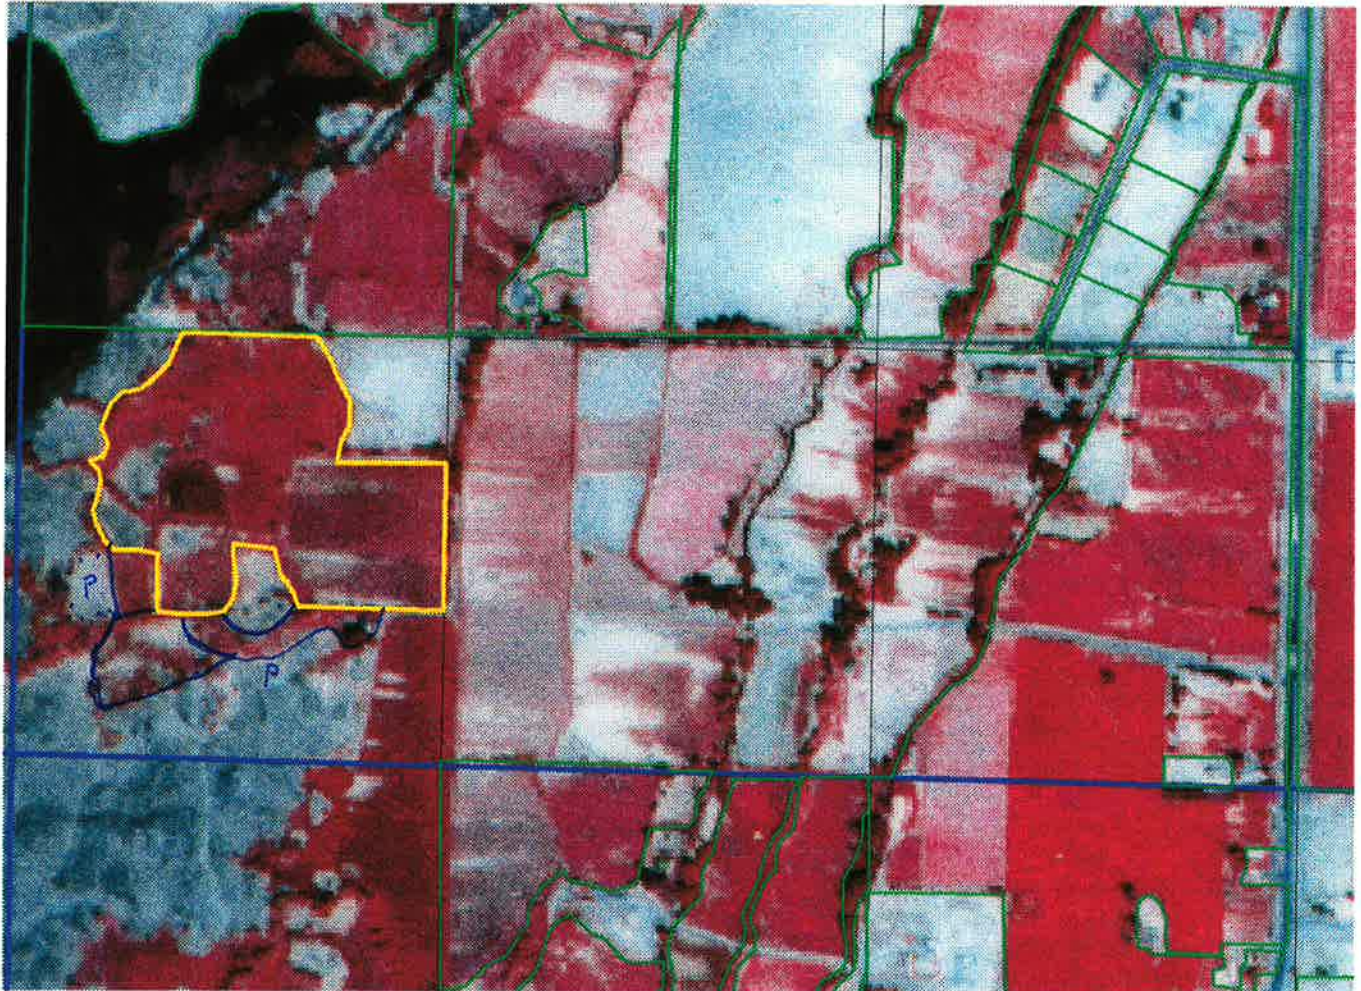

TOTAL QUANTITY: Same as above.

Final recommendations for each right will be described in the database record prepared after full legal review of my proposal is complete.

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent Steve Clelland

January 12, 1998 11:45am

NAME:

PAT BROWN

CALLIN

RE:

EXAMS FOR AMENDMENTS

HE RETURNED CHARLIE'S CALL TO ME AND GAVE ME THE PHONE NUMBERS TO REACH HIS CLIENTS FOR SETTING THE EXAM TIMES THIS WEEK.

FOR 36-00006, 7, 8:

CALL PENNY TURNER AT 837-4767. PAT MENTIONED HE WAS CONCERNED ABOUT THE AMOUNT OF ACRES WE FOUND AT THE STRANGE POU AND SAID IT MAY HAVE BEEN THE YEAR MR. STRANGE WAS SICK AND DID NOT FARM.

FOR 36-00106, -08099:

CALL PAUL WATKINS AT 837-6283. WE DISCUSSED THE POWER AMENDMENT AND IT WAS INTENDED TO PROVIDE FLOW TO DELIVER THE 1.92 CFS TO THE PENSTOCK AS MEASURED IN THE LICENSE EXAM. I SUGGESTED WE ADD THE REMARK ABOUT NECESSARY FLOW TO DELIVER THE RIGHT TO POU WITHOUT WASTE AS WE HAVE ADDED TO SOME STOCK USES DOWN IN HAGERMAN. WE ALSO DISCUSSED THE SUBORDINATION REMARKS IN THE POWER LIC. HE INDICATED THE PERMIT PRE-DATED ALL THE DATES WHICH SET THE SUBORD. LANGUAGE INTO A PERMIT. WILL REFER THIS TO CHARLIE.

SET UP APPT FOR EXAM FOR 1/14/98, WED. 9 AM AT WATKINS HOME.

FOR 36-00047:

CALL DAVE CROPPER AT 788-4903. PAT SAID THE PLACE IS LOCKED UP DUE TO VANDALS. SET APPT WITH MR. CROPPER FOR 1/16/98 FRIDAY 2 PM AT THE FIELD.

FOR 36-00068, 69, 70:

PAT STILL HAS YET TO CONTACT MR. BILL JONES.

Dear Mr. Brown:

Please find the enclosed copies of the Notices of Completed Administrative Proceeding which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

A handwritten signature in cursive script that reads "Trish Fawcett". The signature is written in dark ink and is positioned above the typed name and title.

Trish Fawcett

Signature of person or attorney mailing the form

POWER OF ATTORNEY**KNOW ALL MEN BY THESE PRESENTS:**

That I, William Strange, of Hagerman, County of Gooding, State of Idaho, have made, constituted and appointed and by these presents do make, constitute and appoint Patrick D. Brown of the law firm of Hephworth, Lezamiz & Hohnhorst, Child of Twin Falls, Idaho, as power of attorney.

Said attorney is to act in my name, place and stead, and for my use and benefit in regard to all matters involving my ownership, or the adjudication thereof, of water rights pursuant to claim(s) filed in the Snake River Basin Adjudication, Civil Case No. 39576, Fifth Judicial District, State of Idaho.

My attorney is specifically authorized to execute all necessary or proper documents on my behalf in regard to the adjudication of the above mentioned water rights or claim(s), and to negotiate, compromise, or settle all matters relating to the Snake River Basin Adjudication.

This Power of Attorney shall remain in full force and effect until written notice of its revocation or notice of my death is received by any party relying upon this document.

This Power of Attorney shall be not be affected by my disability. It is my intent that this Power of Attorney shall continue in full force and effect in the event of my incapacity.

I further provide that photocopies of this Power of Attorney are to be given equal dignity, full effect, and recognition as if it were the original.

RE: Amended Notices of Claims

Gentlemen:

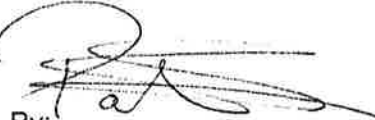

Enclosed please find this firm's check in the amount of \$6,410.00 in payment of fees assessed on the following claims:

Paul and Inez Watkins, Claim No. 36-00106	\$1,175.00
C-CAN Partners, Claim No. 36-00047	590.00
William Strange, Claim No. 36-00006	1,750.00
William Strange, Claim No. 36-00007	540.00
William Strange, Claim No. 36-00008	1,000.00
John W. and Deloris Jones, Claim No. 36-00068	1,045.00
John W. and Deloris Jones, Claim No. 36-00069	310.00
Total fees	<u>\$6,410.00</u>

While I do not interpret Idaho Code § 49-1414 to allow us to be assessed for additional uses of the same volume of water, we are hereby submitting these payments under protest because you will not allow filing of the amended claims without the fees. We reserve all rights to challenge your interpretation and to recover excess amounts being paid, and reserve right to show have you has miscalculated the amounts.

Very truly yours,

HEPWORTH, LEZAMIZ & HOHNHORST,
CHARTERED

MICROFILMED
OCT 11 1994

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re the General Adjudication
of the Rights to the Use of Water
from the Snake River Basin
Water System

Case No. 36-00008 -0001

The State of Idaho, ex rel.
R. Keith Higginson in his
official capacity as Director
of the Idaho Department of
Water Resources,

RESPONSE TO OBJECTION

Petitioner,

vs.

The United States; the State
of Idaho; and all Claimants to
the use of water from the Snake
River Basin Water System,

Respondents.

I. GENERAL INFORMATION

1. Person responding to objection:

Name: R. KEITH HIGGINSON, DIRECTOR

Address: IDAHO DEPARTMENT OF WATER RESOURCES
P.O. BOX 44449
BOISE, ID 83711-4449

Briefly describe your interest in this water right:

IDWR is required to file a response to an objection to part
I of the director's report pursuant to I.C. section 42-1412(2).

(Over)

MICROFILMED
OCT 11 1994

RECEIVED

2. Person who filed objection:

Name: WILLIAM STRANGE
Address: PENELOPE TURNER
PO BOX 387
HAGERMAN ID 83332

3. If this response is filed by an attorney:

Attorney Name(s): NICHOLAS B. SPENCER

Attorney Address: DEPUTY ATTORNEY GENERAL(S)
IDAHO DEPARTMENT OF WATER RESOURCES
P.O. BOX 44449
BOISE, ID 83711-4449

Attorney Phone No.: (208) 327-7900

II. STATEMENT OF THE RESPONSE

1. ☒ Name and Address: I respond to the objection concerning the name and/or address of the owner of the water right.
3. ☒ Quantity: I respond to the objection concerning:
 - 3a. ☒ The total quantity of water used in cubic feet per second.
 - 3b. ☒ The total quantity of water stored in acre feet per year.
 - 3c. ☒ The total quantity of water reserved for each and every purpose, including all present and future uses.
7. ☒ Purposes of Use: I respond to the objection concerning the purpose(s) of use.
8. ☒ Period of Year: I respond to the objection concerning the period of year when water is used or is necessary for the purpose stated.

9. ☒ Place of Use: I respond to the objection concerning:
- 9b. ☒ The number of irrigated acres within each forty (40) acre subdivision.
10. ☒ Consumptive Use: I respond to the objection concerning the annual volume of consumptive use.
11. ☒ Remarks: I respond to the objection concerning the "remarks" listed with the water right.
14. ☒ Other: I respond to the objection concerning:

ALL MATTERS RAISED IN THE CLAIMANTS' ANSWER,
AFFIRMATIVE DEFENSES, AND PRAYER FOR RELIEF.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 1, and all allegations regarding this item, IDWR responds as follows: No notice of change of ownership has been filed with IDWR by the owner of the right as required by Idaho Code Sec. 42-1409(7). IDWR therefore lacks sufficient information to form a belief as to the truth of the matter asserted. Upon the filing of a notice of change of ownership, IDWR will correct the name and address of the owner of this water right accordingly. The claimant may also need to file a Standard Form 3 with the SRBA Court.

In response to Statement of the Objection items 3 and 3.a, and all allegations of the objection regarding those items, IDWR responds as follows: (1) it recommended the amount of water it determined was being beneficially used; (2) the claimant is not entitled to any amount greater than that which is beneficially used (Idaho Code Secs. 42-104 and 42-1402); (3) the recommendation of the director to the SRBA Court as to how the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right; and (4) the eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking because the right is limited to that amount beneficially used.

In response to Statement of the Objection items 3 and 3.b, and all allegations of the objection regarding those items, IDWR

(Over)

MICROFILMED

OCT 11 1994

responds that the recommended water right was not claimed, and therefore could not be recommended, as a storage right either in whole or in part. IDWR further responds that even though objection item 3b. was identified on the objection, no reason for the objection was stated. The claimant's objection to these items is in error.

In response to Statement of the Objection item 3c., and all allegations of the objection regarding that item, IDWR responds as follows: Although this objection item was identified on the objection, no reason for it was stated. Since this water right is not a federal reserved water right, this objection item is inapplicable and the claimant's assertion of it is in error. IDWR further responds that under Idaho law water cannot be reserved for future use, but must be appropriated and put to beneficial use before the user can acquire a water right.

In response to Statement of the Objection item 7, and all allegations of the objection regarding that item, IDWR responds that it recommended the same purposes of use that were identified on the notice of claim and that were found when the claim was investigated. By identifying in the objection domestic, aesthetic, and wildlife as additional uses that the claimant did not list on the notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim after a director's report is filed, just as a party must obtain leave of the court to file a late claim after the director's report is filed. Once leave of the court is granted, IDWR can investigate the amended claim and make an appropriate recommendation to the court.

In response to Statement of the Objection item 8, and all allegations of the objection regarding this item, IDWR responds as follows: The decree asserted by the claimant does not contain a period of use decreed for this water right. Idaho Code 42-1411(2)(g) requires the director to determine the period of use of each water right acquired under state law that is recommended in the director's report. IDWR has developed irrigation season of use standards for various climatic areas throughout the state based on a 75% chance of a 24 degree fahrenheit frost. The irrigation season of use cannot exceed the period in which water may be beneficially used. The period of the year during which this water right may be used is consistent with the standard irrigation season of use for the area in which the place of use of this water right is located. Water may be used for irrigation outside the standard season of use, subject to the conditions set

forth in general provision 12b of the director's report.

In further response to this objection item, IDWR responds that it recommended a longer irrigation season of use than was claimed and the same stockwater season of use as was claimed. By now seeking a longer irrigation season of use than was claimed and recommended, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim after a director's report is filed, just as a party must obtain leave of the court to file a late claim after the director's report is filed. Once leave of the court is granted, IDWR can investigate the amended claim and make an appropriate recommendation to the court.

In response to Statement of the Objection 9 and 9.b, and all allegations of the objection regarding those items, IDWR responds that the recommended water right accurately describes the total number of acres within each 40 acre subdivision upon which IDWR found water was beneficially used for irrigation under this water right. IDWR further responds that the claimant originally claimed 36 irrigated acres, and on the objection is now claiming 35 irrigated acres.

In response to Statement of the Objection item 10 and all allegations of the objection regarding this item, IDWR responds as follows: (1) The decree asserted by the claimant did not set an annual volume of consumptive use for this water right. (2) Idaho Code Sec. 42-1411(2)(i) requires the director to determine the annual volume of consumptive use for each water right acquired under state law and recommended in the director's report. (3) Idaho Code Sec. 42-1401A(2) provides that the quantification of consumptive use "is included as a rebuttable presumption in a decree only for the purpose of transfers pursuant to section 42-222, Idaho Code"; therefore, the consumptive use claimed and recommended for this water right is included solely for use in future transfer proceedings. (4) The annual volume of consumptive use recommended for this right is 3 acre feet per acre. This is the maximum volume of water consumed by the most water consumptive crop (pasture) that can be grown in the area during the period of year when water is used for irrigation, as provided for by Idaho Code Sec. 42-1401A(2). (5) The recommendation of the director to the SRBA Court as to how the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right. (6) The eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking

(Over)

MICROFILMED

OCT 11 1994

because the right is limited to that amount beneficially used.

In response to Statement of the Objection item 11, and all allegations of the objection regarding that item, IDWR responds that it has authority pursuant to Idaho Code Sec. 42-1411(2)(j) to include in its recommendations of water rights acquired under state law and recommended in the director's report "such other matters as are necessary to define the right." The remark or remarks objected to are necessary to adequately describe and define this water right.

In response to Statement of the Objection item 14, and all allegations of the objection regarding that item, see attached "IDWR's Response to Answer Affirmative Defenses and Prayer for Relief of Claimant".

In response to the sentence listed in Changes to the Director's Report, whereby the claimant attempts to "reserve the right to claim all purposes of use and quantities of use as shown by the evidence at trial," IDWR responds as follows: Insofar as this purported reservation of rights may constitute an attempt to reserve the right to amend at trial the claimant's notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim just as a party must obtain leave of the court to file a late claim after the director's report is filed.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

IDWR'S RESPONSE TO ANSWER, AFFIRMATIVE DEFENSES AND PRAYER FOR
RELIEF OF CLAIMANT

This portion of the response addresses the multi-page attachment to the objection (hereinafter "the attachment"), wherein the claimant admits or denies all sections of Parts I, II, and III of the director's report, asserts 27 affirmative defenses, and alleges a prayer for relief. The attachment contains the following sections, corresponding to the various sections of the director's report:

- (1) I. GENERAL RESPONSE
- (2) II. DESCRIPTIVE SUMMARY, (first unnumbered page of Part I of the director's report)
- (3) III. TABLE OF CONTENTS (second and third unnumbered pages of Part I of the director's report)
- (4) IV. 1. INSTRUCTIONS FOR USING THIS REPORT PART I (page 1 of Part I of the director's report)
- (5) IV. 2. SCOPE OF THE ADJUDICATION (pages 1-3 of Part I of the director's report)
- (6) IV. 3. PURPOSE OF THIS REPORT PART I (pages 3-4 of Part I of the director's report)
- (7) V. 1. BOUNDARIES OF BASIN (pages 4-6 of Part I of the director's report)
- (8) V. 2. WATER SOURCES (page 6 of Part I of the director's report)
- (9) V. 3. DEVELOPMENT OF WATER USE (pages 6-9 of Part I of the director's report)
- (10) VI. GENERAL PROVISIONS 1-8 APPLY TO ALL WATER RIGHTS IN BASIN 36 (page 9 of Part I of the director's report)
- (11) VI. General Provision 1. EFFECT OF ADJUDICATION (page 9 of Part I of the director's report)
- (12) VI. General Provision 2. GENERAL ADMINISTRATIVE PROVISIONS (pages 9-10 of Part I of the director's report)
- (13) VI. General Provision 3. CONJUNCTIVE ADMINISTRATION (page 10 of Part I of the director's report)

The attachment also contains part VIII, AFFIRMATIVE DEFENSES (pp. 20 through 28) and a PRAYER FOR RELIEF (untitled, p. 28).

In response to each of the items enumerated above IDWR responds that pursuant to Section 4 a.(2)(c) of SRBA Administrative Order 1, Rules of Procedure, IDWR generally denies each and every allegation, if any, contained in each enumerated portion of the attachment. IDWR affirmatively responds that neither SRBA Administrative Order 1, Rules of Procedure, nor Title 42, Chapter 14, Idaho Code, make provision for IDWR to affirm, amplify, or otherwise respond to the claimant's admissions, or to deny the claimant's denials, and that IDWR therefore does not believe that it is required to do so. Title 42, Chapter 14, Idaho Code solely defines the content and scope of the director's report. It is to contain a description of the water system and is to provide a recommendation as to each water right claimed and as to those matters necessary for administration of those water rights. Therefore, the content and scope of the objection is limited to those same matters. The attachment to the present objection asserts or otherwise raises matters not directly addressing the elements of the water right as recommended, the description of the water system, or the general provisions. Rather, the attachment raises broad issues as to the constitutional, statutory and administrative efficacy of the entire adjudication process. All such issues should be raised by means of motions to designate basinwide issues and similar procedural vehicles specifically designed to provide for basinwide notice and participation. They should not be permitted to divert the focus of any individual subcase away from the issues directly connected to the elements of the water right and the administration thereof. Therefore, because the attachment to the present objection is not within the scope of the statutory purpose of an objection it should be stricken.

However, in the event that the court should determine that all or part of the attachment is properly within the scope of the objection, IDWR further responds as follows:

IDWR affirmatively responds that all statements within the director's report are properly included therein pursuant to Title 42, Chapter 14, Idaho Code, and in particular pursuant to Idaho Code §§ 42-1411 and 42-1412(8); and that the provisions of the Idaho Rules of Civil Procedure regarding pleadings are inapplicable to the extent that they are in conflict with the statutory requirements. Therefore IDWR denies all allegations directed at the contents of the director's report.

As to the enumerated portions of the attachment addressing the listings of recommended water rights, abstracts of federal reserved water right claims, or negotiated agreements, other than the individual recommendation that is the subject of this objection, IDWR responds that such claims or agreements are not brought before this court by this objection.

Responding to the 27 affirmative defenses asserted in the attachment, IDWR generally denies each and every affirmative defense asserted. IDWR further responds that affirmative defense numbers 1, 2, 4, 5, 10, 11, 12, 18, and 22, asserting various violations of civil or constitutional rights, fail to comply with the requirements I.R.C.P. 9(b) providing that in all averments of violation of civil or constitutional rights the factual circumstances constituting such violation must be stated with particularity. Accordingly, IDWR asserts that those affirmative defenses should be stricken.

In response to that portion of the multi-page attachment to the objection wherein the claimant asserts a prayer for relief, IDWR responds as follows:

1. IDWR denies that the director's report asserts any claims against the claimant; rather, the director's report contains only the recommendation of the director as to how the claimant's water right should be decreed and administered.
2. IDWR denies that the claimant is entitled to have the water right decreed as claimed unless in the director's report the water right has been recommended as claimed.
3. IDWR denies that any acts upon its part constitute the taking of private property for which just compensation should be allowed and awarded.
4. IDWR denies that the claimant is entitled to recover court costs and reasonable attorney fees.
5. IDWR denies that the claimant by this objection has raised any claims against IDWR entitling such claimant to any relief other than the eventual judicial determination and decree of the various elements of the claimant's water right, if any, and of those related matters necessary to describe and administer that water right.

APR 30 1993

Department of Water Resources
Adjudication Bureau

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re the General Adjudication
of Rights to the Use of Water
from the Snake River Basin
Water System

Case No. A36-00008
(You must insert the
water right number you
are objecting to)

The State of Idaho, ex rel.
R. Keith Higginson in his
official capacity as Director
of the Idaho Department of
Water Resources,

OBJECTION

Petitioner,

vs.

The United States; the State
of Idaho; and all Claimants to
the use of water from the Snake
River Basin Water System,

36-00008 -0001/
93-04-0017

Respondents.

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

(Over)

MICROFILMED

OCT 11 1994

NOT RECORDED

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

I. GENERAL INFORMATION

Please fill in the following information:

1. Person objecting:

Name: William Strange & Penelope Turner

Address: P. O. Box 387

Hagerman, Idaho 83332

Briefly describe your interest in this water right:

Priority date 4/1/1880

Water right decreed 3/22/32 pursuant to New
International Mortgage Bank v. Idaho Power
Company;

2. Owner of the water right:

Name: William Strange & Penelope Turner

Address: P. O. Box 387

Hagerman, Idaho 83332

3. If this objection is filed by an attorney:

Attorney Name: Patrick D. Brown & Penelope Parker

Attorney Address: Hepworth, Nungester & Lezamiz

P.O. Box 389, Twin Falls, ID 83303

Attorney Phone No.: (208) 734-7510

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

II. STATEMENT OF THE OBJECTION

Please check each "box" which states your objection to the recommendation in the Director's Report.

1. ☒ Name and Address: I object to the name and/or address of the owner of the water right.
2. ☐ Source: I object to the source of water.
3. ☒ Quantity: I object to:
 - a. ☒ the total quantity of water used in cubic feet per second; or
 - b. ☒ the total quantity of water stored in acre-feet per year; or
 - c. ☒ the total quantity of water reserved for each and every purpose, including all present and future uses.
4. ☐ Priority Date: I object to the priority date.
5. ☐ Points of Diversion: I object to the legal description of the point(s) of diversion.
6. ☐ Instream Flow: I object to the legal description of the beginning and ending points of the instream flow.
7. ☒ Purpose(s) of Use: I object to the purpose(s) of use.
8. ☒ Period of Year: I object to the period of year when water is used or is necessary for the purpose stated.
9. ☒ Place of Use: I object to:
 - a. ☐ the legal description of the place of use; or
 - b. ☒ the number of irrigated acres within each forty (40) acre subdivision.
10. ☒ Consumptive Use: I object to the annual volume of consumptive use.
11. ☒ Remarks: I object to the "remarks" listed with the water right.

(Over)

MICROFILMED

UCL 11 1994

12. ☐ Water Right Recommendation: I object to:

a. ☐ this water right being recommended at all; or

b. ☐ this water right not being recommended.

13. ☐ Description of Reservation: I object to the legal description of the reservation.

14. ☒ Other: I object to: See attached

INSTRUCTIONS FOR MAILING

You must mail the objection, including all attachments, to the Clerk of the Court. **FAX filings will not be accepted by the Clerk of the Court.** You must also send a copy to the owner of the water right, if other than yourself; to the Office of the Attorney General, State of Idaho; and to the United States Department of Justice, as set out below in the Certificate of Mailing. Finally, you must sign the Certificate of Mailing to show that you followed these steps.

CERTIFICATE OF MAILING

I hereby certify that on the 28 day of April, 1993, I mailed the original and copies of the foregoing objection, including all attachments, to the following persons, by mailing the original and/or true and correct copies, postage prepaid and addressed as follows:

1. Original to:

Clerk of the District Court
Snake River Basin Adjudication
253 Third Avenue North
P.O. Box 2707
Twin Falls, Idaho 83303-2707

2. One copy to the owner of the water right, and you must fill in the following information:

Owner name: William Strange & Penelope Turner

Owner's address: P. O. Box 387

Hagerman, Idaho 83332

3. One copy to:

Chief, Natural Resources Division
Office of the Attorney General
State of Idaho
P.O. Box 44449
Boise, Idaho 83711-4449

4. One copy to:

United States Department of Justice
Environment and Natural Resource Division

Boise, ID 83724

Signature of Objector or attorney
mailing on Objector's behalf

REASONS SUPPORTING EACH BOX CHECKED, page 4

Box 1 - See Paragraph 2, page 2 for correct name and/or address.

Box 3, 3a and 10 - IDWR recommends an amount less than decreed and/or beneficially used. A reduction in water right would constitute a taking.

Box 7 - Beneficially used for purposes set forth in notice of claim.

Box 8 - IDWR recommends a period of use less than decreed and/or beneficially used. A reduction in water right would constitute a taking.

Box 9 - Director's Report fails to accurately state the place of use.

Box 11 - This is beyond the statutory authority vested in the Director.

CHANGES TO DIRECTOR'S REPORT, page 4

Name change to ^{WILLIAM}~~Walter~~ Strange and Penelope Turner, water rights granted to Mrs. Turner by William Strange with rights of Life Estate retained by William Strange; Maximum quantity of water as decreed and/or beneficially used; usage for irrigation, stockwater, wildlife habitat and domestic; Period of use from 01/01 - 12/31; and place of use includes Strange Ranch parcels in Section 10, 11, 14 and 15 for a total of 80 acres; and Remarks: after "Sands Ditch" should be stricken.

Objectors reserve the right to claim all purposes of use and quantities of use as shown by the evidence at trial.

Question 14., page 4, Other

I.

GENERAL RESPONSE

Except as specifically admitted herein, objectors deny each and every allegation contained in the Director's Report, any related or subsidiary pleadings, and/or any attachments thereto.

II.

DESCRIPTIVE SUMMARY

(DIRECTOR'S REPORT PART I)

(hereinafter DRP-I)

(DRP-I at first unnumbered page)

The objectors admit that Part I of the Director's recommendation contains some claims to water rights appropriated under state law from Reporting Area 3. The objectors deny all other averments because the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of the averments.

III.

TABLE OF CONTENTS

(DRP-I at 2nd and 3rd unnumbered pages)

The objectors admit that the Table of Contents reflects the page numbers of the referenced sections and deny all other averments based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because any averment, expressed or implied, is so

MICROFILMED
OCT 11 1994

indefinite that it prevents the objectors from knowing what would be admitted or denied.

IV.

INTRODUCTION

1. INSTRUCTIONS FOR USING THIS REPORT PART I. (DRP-I at page 1)

The objectors admit that Part I consists of seven sections; that the description of the water system includes a brief description of Reporting Area 3 and an illustration of the boundaries of the reporting area; that the water rights and the list of the recommended rights are grouped alphabetically by source and listed chronologically by priority date; that the rights or claims in the list of claims/rights not recommended are listed numerically by water right number; and that brief instructions are found at the beginning of the applicable sections. The objectors deny that any description or any implication that the description of the water system or the illustrations are true and accurate due to lack of knowledge or information regarding the truth of the averment; deny that the general provisions apply to all water rights or define or limit classes of water rights; and deny that the general provisions "will affect your water right," based upon insufficient knowledge or information upon which to form a belief as to the truth of the averments.

2. SCOPE OF THE ADJUDICATION. (DRP-I at page 1 - 3)

The objectors deny all averments in paragraph a., due to lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments.

Regarding paragraph b., the objectors lack sufficient information or knowledge upon which to form a belief as to whether water rights which are not claimed in the adjudication will or will not exist upon entry of the court's decree and, therefore, deny such averment. The objectors admit that the court entered an order dated January 17, 1989, but presently lack sufficient knowledge to know whether any of the other averments concerning the court's order are true or accurate and, therefore, deny the same. The objectors deny that a right must be adjudicated before water may be distributed by the director. The objectors deny all other averments in paragraph b.

3. PURPOSE OF THIS REPORT PART I. (DRP-I at page 3 - 4)

The objectors admit that portion of the first sentence which states "This report contains the Director's recommendations to the SRBA District Court as to the nature and extent of water rights," but deny that such recommendations "are necessary for administration of water rights in Reporting Area 3," and further deny the Director has authority to "administer" such rights.

Regarding the second paragraph, the objectors admit that all water rights remain subject to the applicable law generally, but deny the remainder of the second paragraph.

Regarding the third paragraph of this section, the objectors deny all averments therein based upon lack of knowledge or information upon which to form a belief as to the truthfulness of the averments.

V.

DESCRIPTION OF THE WATER SYSTEM: BASIN 36

1. BOUNDARIES OF BASIN. (DRP-I at pages 4 - 6)

Regarding the first paragraph of this section, the objectors deny all averments due to a lack of knowledge or information upon which to admit or deny.

Regarding the second, third and fourth paragraphs of this section, the objectors admit that as broad statements, those paragraphs are generally accurate but the statements are so broad and attenuated from any matter relevant to the objectors' water right that the objectors are unable to know what would be implicitly admitted or denied and therefore, deny the same.

With respect to the fifth paragraph of this section, the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred and, therefore, deny the averments.

2. WATER SOURCES. (DRP-I at page 6)

The objectors admit that the Snake River Plain Aquifer is the source of outflows of springs located along the Snake River Canyon Wall in the Hagerman Valley. The objectors presently lack sufficient knowledge or information upon which to form an opinion as to the truth of the other averments set out in this section and, therefore, deny the same.

3. DEVELOPMENT OF WATER USE. (DRP-I at pages 6 - 9)

The objectors admit that numerous factual and historical averments are set out in this section, which may be accurate, but

these objectors have no basis for knowing whether some or all of the averments are intended to relate to the objectors' claims and, thus, are prevented from knowing what would be admitted or denied. Therefore, the averments are denied.

VI.

GENERAL PROVISIONS

GENERAL PROVISIONS 1 - 8 APPLY TO ALL WATER RIGHTS IN BASIN 36.
(DRP-I at page 9)

The objectors deny that "General Provisions 1 - 8" apply to all water rights in Basin 36 as the statements are so broad and attenuated from any matter relevant to the objectors' water rights, that the objectors are unable to know what would be explicitly admitted or denied. The objectors also specifically deny that general provisions 1-8 apply to the objectors' right.

1. EFFECT OF ADJUDICATION. (DRP-I at page 9)

With respect to paragraph a., the objectors presently have no knowledge or information upon which to form a belief as to the truth of whether a future decree would supersede prior decrees, or whether unclaimed rights would cease to exist and, therefore, deny the same.

Regarding paragraph b., the objectors deny that the Director has any powers to administer water rights other than those specifically delegated by the Legislature of the State of Idaho, and which do not violate the objectors' state and federal constitutional rights, and therefore the averments are denied.

MICROFILMED

2. GENERAL ADMINISTRATIVE PROVISIONS. (DRP-I at pages 9 - 10)

The objectors admit paragraphs a. and b.

3. CONJUNCTIVE ADMINISTRATION (DRP-I at page 10)

The objectors deny the conjunctive administration provisions based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because any averment expressed or implied is so indefinite that it prevents the objectors from fairly understanding what would be admitted or denied. Additionally, the objectors deny that the Department of Water Resources has any statutory or regulatory authority for the "conjunctive administration" as therein described.

4. ADMINISTRATION OF GROUND WATER RIGHTS (DRP-I at page 10)

The objectors deny the averments within this section.

5. ADMINISTRATION OF BASIN 36 RELATIVE TO THE SNAKE RIVER (DRP-I at page 10)

The objectors admit that the springs are hydrologically interconnected with the Snake River Aquifer, but deny all other averments based upon the objectors' lack of sufficient information or knowledge upon which to form a belief as to the averments herein. The objectors additionally deny any said averments expressed or implied because the averments are so indefinite and generalized as to prevent the objectors from fairly understanding what would be admitted or denied.

6. ADMINISTRATION OF SMALL DOMESTIC AND STOCK WATER RIGHTS (DRP-I at page 11)

The objectors admit that part of the first sentence of subparagraph a. to the effect that "small domestic and stock water rights from surface water are not subject to administration," but deny the balance of said sentence and said paragraph.

The objectors admit the first sentence of paragraph b., and deny the balance of that paragraph because the criteria set forth therein ("if the director determines that administration is necessary") is so ambiguous, indefinite and uncertain that it prevents the objectors from knowing what would be admitted or denied, and by further reason of the fact that no statutory or regulatory authority exists conferring such sweeping and unlimited authority upon the Director or the Department.

The objectors deny the averments in paragraph c. as the averments are inaccurate and because the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of the matters averred.

7. MEASURING DEVICES AND CONTROL WORKS (DRP-I at page 11)

The objectors deny all averments contained herein as such averments are based upon an indeterminate subjective standards which are so ambiguous and indefinite as to prevent the objectors from fairly knowing what would be admitted or denied. Additionally, no statutory or regulatory authority exists conferring such sweeping and unlimited authority upon the Director or the Department as is alleged in this paragraph.

MICHOEVALU

8. FIRE FIGHTING PURPOSES (DRP-I at page 11)

The objectors admit that subparagraph a. and subparagraph b. are generally accurate statements of present law, but deny the averments are in any way relevant to defining the objectors' right.

9. CONSUMPTIVE USE (DRP-I at page 12)

The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred and, therefore, deny the same.

GENERAL PROVISION 10 APPLIES TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH DOMESTIC USE AS A PURPOSE OF USE (DRP-I at page 12)

The objectors deny that "General Provision 10" applies to all water rights in Basin 36 shown with domestic use as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water rights, that the objectors are unable to fairly understand what would be explicitly admitted or denied and, therefore, deny the same.

10. DOMESTIC USE (DRP-I at page 12)

The objectors deny that the definition of "domestic use" contained in paragraphs a., b., and c. is consistent or in conformity with the definition of such term for purposes of the Idaho Constitution, or statutory definition contained in I.C. Section 42-111 as now, or as heretofore in effect at relevant times. The objectors further deny that the limitations set forth therein exist, are in force, or apply or serve in any way to limit objectors' rights.

GENERAL PROVISION 11 APPLIES TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH STOCK WATER USE AS A PURPOSE OF USE. (DRP-I at page 13)

The objectors deny that "General Provision 11" applies to all water rights in Basin 36 shown with stock water use as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water right, that the objectors are unable to fairly understand what would be admitted or denied and, therefore, deny the same.

11. STOCK WATER USE (DRP-I at page 13)

The objectors deny the averments herein as beyond the scope and applicability of the definition as provided by Idaho law as now, or as heretofore in effect at relevant times. The objectors further deny that the limitations set forth therein limit the objectors' right or are relevant to the right.

GENERAL PROVISIONS 12 - 16 APPLY TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH IRRIGATION AS A PURPOSE OF USE (DRP-I at page 13)

The objectors deny that "General Provisions 12 - 16" apply to all water rights in Basin 36 shown with irrigation as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water right that the objectors are unable to fairly understand what would be admitted or denied.

12. IRRIGATION USE. (DRP-I at pages 13 - 14)

The objectors deny all averments based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because

WICHOPE

prevent the objectors from fairly knowing what would be admitted or denied; because the standard utilized ("as determined by the director") is ambiguous, subjective and indefinite so as to prevent objectors from knowing what would be admitted or denied; and because it is both expressly and implicitly in excess of the power and authority conferred upon the State of Idaho, the Director or the Department by the Constitutions of the United States and State of Idaho, pertinent provisions of the Idaho Code or valid applicable regulations, if any, adopted by the Department in conformity with law. Therefore, the objectors deny the same.

13. DIVERSION VOLUME FOR IRRIGATION. (DRP-I at page 14)

The objectors admit that Figure 1 generally depicts certain lands in Basin 36; however, the objectors deny all other averments including that the amounts set forth are the maximum annual volume of water reasonably required at the field headgate for irrigation, either within Basin 36 in general, or upon objectors' real property in particular. The objectors additionally deny that the maximum annual volumes per acre set forth is that which is "reasonably required for irrigation unless a higher annual diversion volume is reasonably required due to conveyance losses, method of irrigation or field conditions;" because the standard utilized ("as determined by the director") is ambiguous, subjective and indefinite so as to prevent objectors from knowing what would be admitted or denied; and because it is both expressly and implicitly in excess of the power and authority conferred upon the State of Idaho, the Director or the Department

by the Constitutions of the United States and State of Idaho, pertinent provisions of the Idaho Code or valid applicable regulations, if any, adopted by the Department in conformity with law. Therefore, the objectors deny the same.

14. CONSUMPTIVE USE FOR IRRIGATION. (DRP-I at page 14 and 15)

The objectors admit that the recommended water rights contained within the Director's Report show only the irrigation use listed unless otherwise indicated in "Remarks." The objectors deny all other averments contained within this section, including the amount of maximum annual volume of consumptive use per acre in the northern and southern portions of the basin, all of which is beyond the scope of any power or authority vested in the Director or the Department, and contrary to fact; historical use; established, vested, decreed, licensed or permitted rights.

15. AMOUNT OF COMBINED WATER RIGHTS FOR IRRIGATION. (DRP-I at page 15)

The specific averments have no relationship to or basis in fact relating to the individual needs or rights of the objectors, and accordingly, objectors deny this section in its entirety. In addition, no statutory or regulatory authority exists conferring upon the Director, or the Department, the power to limit use and ownership of objectors' private property rights as alleged.

MICHOEIN D

16. DIVERSION RATES IN EXCESS OF .02 CFS PER ACRE. (DRP-I at page 15 - 16)

The objectors deny the averments contained in this section in its entirety.

17. INSTRUCTIONS FOR USE OF LIST OF RECOMMENDED WATER RIGHTS. (DRP-I at page A-i, A-ii and A-iii)

The objectors admit that each water right in the list of recommended water rights includes a description including right number, name and address, source, maximum quantity, consumptive use, priority date, point of diversion, purpose of use, period of use, place of use, basis of right and others. The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred in said descriptions other than that the descriptions allegedly include the Director's or Department's version of the facts as they relate to the matters identified. Objectors deny the accuracy of the substantive allegations or information set forth with regard to the objectors' right.

18. IDAHO DEPARTMENT OF WATER RESOURCES RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW. (DRP-I, pages A-1 - B-25)

The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred in said recommended water rights other than those specific admissions contained in Questions 1 - 12 of the attached individual objection, and therefore deny the same.

DIRECTOR'S REPORT FOR REPORTING AREA 3 (BASIN 36)

(DIRECTOR'S REPORT PART II)

I.

Objectors do not understand the allegations, averments or contents of Part II of the Director's Report for Reporting Area 3 (Basin 36) to pertain or relate to objectors or their claims, and do not believe any response is required. To the extent a response is required, objectors deny the same in its entirety.

DIRECTOR'S REPORT FOR REPORTING AREA 3 (BASIN 36)

(DIRECTOR'S REPORT PART III)

I.

No report denominated as Part III of the Director's Report for Reporting Area 3 (Basin 36) has been filed, and accordingly objectors are unable to admit, deny or otherwise response to the same. Objectors do not understand that the contemplated subject matter of such Part III will relate or pertain to objectors or their claims, and no response is required in any case. To the extent any response is required, objectors deny the same in its entirety.

VIII.

AFFIRMATIVE DEFENSES

Pursuant to I.R.C.P. 8(c), objectors herewith state the following matters of affirmative defense or avoidance:

AFFIRMATIVE DEFENSE NO. 1

The objectors' water right is an incorporeal form of real property (as defined by Idaho Code Sections 7-703, 73-114, 55-101,

MICROFILMED
OCT 11 1994

and like statutes) protected by Section 14, Article 1, of the Idaho Constitution, and the Fifth Amendment to the United States Constitution, and allege that the actions of the Director in recommending, limiting and/or regulating said rights is an unconstitutional infringement upon and a taking of private property, without just compensation and violation thereof.

AFFIRMATIVE DEFENSE NO. 2

The adjudication authorization legislation, I.C. Section 42-1401, et seq., on its face and as applied by the Director and the Department constitutes an improper delegation of constitutional power and authority conferred upon the executive, legislative and/or judicial branches of government and as such violate the provisions governing separation of powers set forth in Article 2, Section 1, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 3

The procedure set forth in the adjudication authorization legislation, statutes, I.C. Section 42-1401, et seq., and any rules, regulations, procedures, policies or standards promulgated by the Director and/or the Department, if any, are vague and so lacking in reasonable specificity so as to render them impossible of reasonable comprehension, or consistent and meaningful application.

AFFIRMATIVE DEFENSE NO. 4

The procedures, rules, regulations, policies or standards, if any, adopted, implemented and applied by the Department and/or the Director violate the equal protection and due

process clauses of the Fourteenth Amendment, United States Constitution, and Article 1, Sections 2 and 13, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 5

The adjudication authorization legislation, Idaho Code Section 42-1401, et seq., and the actions of the Director and Department in recommending, limiting and/or regulating the objectors' water right constitutes a violation of 42 U.S.C. Section 1983.

AFFIRMATIVE DEFENSE NO. 6

The water right owned by the objectors is the subject of valid existing decrees issued by the Director and Department, which decrees are binding upon the State of Idaho, the Department and the Director. As a result, the State of Idaho, the Department and the Director are precluded by the doctrines of res judicata, collateral estoppel, judicial estoppel and the like from relitigating or questioning the validity, existence or priority of such right, and/or from taking any position in the Director's Report, or otherwise, which is inconsistent with such decrees.

AFFIRMATIVE DEFENSE NO. 7

The Director's recommendations are contrary to decreed rights, historical use and extent licenses and permits issued by the Department. There has been no forfeiture nor abandonment of the objectors' water rights, nor have the objectors' water rights been prescriptively or adversely possessed, nor have such decrees been vacated or such licenses and permits revoked.

251 1 1/2
NICKOLIN WED

AFFIRMATIVE DEFENSE NO. 8

The Directors' Report fails to state a claim to the extent the same asserts a forfeiture, abandonment, prescriptive or adverse acquisition or loss, or loss resulting from estoppel, of the objectors' water right in the absence of any fact upon which forfeiture, abandonment, prescriptive or adverse acquisition for loss, or loss resulting from estoppel, may be based or asserted.

AFFIRMATIVE DEFENSE NO. 9

The objectors' water right is an incorporeal form of real property, as defined by Idaho Code Sections 7-703, 73-114, 55-101, and like statutes, and, as such, pursuant to Idaho Code Section 7-904, et. seq., the actions of the Director in attempting to limit, reduce and/or regulate such rights, and the assertion of some inconsistent proprietary ownership or right to use or control by the State of Idaho, constitutes an unauthorized and invalid taking of private property without the payment of just compensation, or compliance with statutory requirements, all in violation of Title 7, Chapter 7, Idaho Code.

AFFIRMATIVE DEFENSE NO. 10

The actions of the Director, the Department and their agents, servants and employees in recommending, limiting, reducing and/or regulating objector's water rights, either as alleged in the Director's Report or as in fact applied, violates objectors' rights as secured by Art. 1, Section 1; Art. 15, Sections 3, 4 and/or 5; and/or as otherwise provided in the Constitution of the State of Idaho.

AFFIRMATIVE DEFENSE NO. 11

The various allegations, statements and assertions contained in the Director's Report concerning the Department and/or the Director's position or intentions with regard to the adjudication, as well as the implementation of statutes and/or regulations, as well as the administration of water or management of water rights or claims to the beneficial uses of water, if implemented, constitute a violation of various provisions the United States and Idaho constitutions, and/or a violation of the letter, spirit and/or intent of various statutes enacted by the legislature, and/or constitute an exercise of purported authority or powers either in excess of those conferred by law, or in a manner inconsistent with those conferred by law, or both.

AFFIRMATIVE DEFENSE NO. 12

The individual recommendations relating to the specific water right of the objectors as set forth in the Director's Report are (1) not based upon substantial evidence and/or are not, in fact, the product of any reasonable, complete or accurate investigation as required by law; (2) are the product of arbitrary and capricious action on the part of the Department or the Director; (3) have been made in excess of the constitutional and statutory authority of the Department and the Director; (4) have been made upon an unlawful and invalid procedure; (5) are affected by various and sundry errors of law; and/or (6) are clearly erroneous in view of the reliable, probative and substantial evidence.

EXHIBIT
INL301726D

AFFIRMATIVE DEFENSE NO. 13

The Director's Report is a pleading subject to the provisions of the Idaho Rules of Civil Procedure, including, but not limited to the requirement of I.R.C.P. 8(a)(1) that such pleadings contain a clear and plain statement of the facts, demonstrating an entitlement to relief. The Director's Report violates such provision.

AFFIRMATIVE DEFENSE NO. 14

The Director's Report fails to state a claim upon which relief may be granted.

AFFIRMATIVE DEFENSE NO. 15

The Director's Report is subject to, and must comply with, the requirements of Idaho Code Section 42-1411. The Director's Report does not comply with the requirements of the statute.

AFFIRMATIVE DEFENSE NO. 16

In conducting the investigation and compiling the Director's Report, the Department and the Director have not complied with the requirements of Idaho Code Section 42-1410.

AFFIRMATIVE DEFENSE NO. 17

In conducting the investigation and compiling the Director's Report, the Department and the Director have not complied with the requirements of Idaho Code Section 42-1416.

AFFIRMATIVE DEFENSE NO. 18

The procedures specified in the authorizing legislation and procedural rules promulgated in accordance therewith serve to

deny objectors due process of law in violation of Amendment Fourteen to the Constitution of the United States and Art. 1, Section 13, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 19

The "General Provisions" and "Other Statements" contained in the Director's Report, along with the Claims Investigation Manual, Adjudication Memoranda and other materials of a similar nature used or employed by the Department, the Director and/or their agents, servants and/or employees constitute rules and regulations which were required to be proposed, promulgated, adopted and approved in conformity with the Administrative Procedures Act and other applicable statutory provisions. The Department, Director and their agents, servants and employees have failed to comply with such requirements, and accordingly, the "General Provisions," "Other Statements", Claims Investigation Manual and the like are invalid, void and of no force or effect.

AFFIRMATIVE DEFENSE NO. 20

Neither the "General Conditions," the Claims Adjudication Manual, Adjudication Memoranda or other promulgations, adoptions, policies, or the like have been submitted to or approved by the Legislature as required by Idaho Code Section 67-5217.

AFFIRMATIVE DEFENSE NO. 21

The relief requested by the Department and the Director in the Director's Report are beyond and in excess of the subject matter jurisdiction of the Court.

RECEIVED

AFFIRMATIVE DEFENSE NO. 22

The actions of the Legislature, or the Department and the Director to enact, adopt, implement or enforce statutes, regulations, rules or policies subsequent to November 19, 1987, and to apply or enforce the same for the purpose of, or with the effect of recommending, diminishing or altering objectors' water rights, constitute a violation of Amendment Fourteen, United States Constitution; Art. 1, Section 13, Idaho Constitution; the SRBA authorization legislation; and Idaho Code Sections 73-101 and 73-106.

AFFIRMATIVE DEFENSE NO. 23

These proceedings are subject to the requirements and provisions of Idaho Code Sections 12-117, 12-121, 12-123 and I.R.C.P. 11, and the provisions of the private attorney general doctrine, and other related doctrines, and the Department, Director and State of Idaho are obligated to objectors for the payment and reimbursement of any and all reasonable costs or attorney fees incurred herein.

AFFIRMATIVE DEFENSE NO. 24

The Director's Report asserts what amounts to be a taking of private property by power of eminent domain as governed by Idaho Code Section 7-701 et seq., and as such, venue is therefore improper.

AFFIRMATIVE DEFENSE NO. 25

The Department and the Director are equitably estopped from seeking any reduction in the quantity, quality or priority of

objectors' water rights by virtue of prior statements, representations and actions of the Department, Director or their agents, servants and employees.

AFFIRMATIVE DEFENSE NO. 26

The Department and the Director are barred by laches and the applicable statutes of limitation, including, but not limited to, Idaho Code Sections 5-202, 5-203, 5-204, 5-206, 5-207, 5-208, 5-215, 5-218, 5-219(2), 5-224 and/or 5-241.

AFFIRMATIVE DEFENSE NO. 27

Objectors hereby reserve the right to assert any further affirmative defenses not expressly stated herein, but which subsequently become apparent.

WHEREFORE, the objectors pray for judgment as follows:

1. That the State of Idaho take nothing by reason of its Directors' Report, and that this action, and any claims asserted against objectors, be dismissed.
2. That a decree be entered adjudicating the existence, validity, amount and priority of objectors' water rights in accordance with objectors' claims.
3. That to the extent the acts of the Department or Director constitute a taking of objectors' property for public use, that objectors be allowed and awarded just compensation therefor.
4. That the objectors be allowed all costs of suit and reasonable attorney fees incurred herein.
5. For such further relief to which the Court finds objectors justly entitled.

Re: Notice of Appearance

Dear Mr. Brown:

We received your Notice of Appearance on behalf of Hagerman Water Owners, Inc. and its individual members on February 10, 1993. The records listed on the notice were updated with some exceptions.

Claim numbers with "A" prefixes identify claims filed in the SRBA. Claim numbers without prefixes identify recommendations in the Director's Report. The following table identifies claimants for which you filed a notice of appearance, but the number you referred to is actually the identification of the recommendation. They have been updated with the notice information.

Claimant's Name	Recommendation No. (no "A" prefix)
Bybee, Gertrude B. Owsley	36-00042A 36-00041C
Candy, Walter W. & Margaret	36-00135B
Crandlemire, Roger C.	36-00134C 36-00135C
Gustafson Family Trust/Gustafson, Ivan J. & Lucille co-trustees	36-00033F
McFaddan, Dan H. & Irma R.	36-00048A
Muller, Manfred	36-00035J
Zink, Basil Lester & Myrle Hyde	36-00103F

RE: RESPONSE TO NOTICE OF ERROR FOR CLAIMS 36-00006,
36-00007, AND 36-00008.

Dear Mr Strange

This letter is in response to the Notice(s) of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim(s) listed above. Your NOE indicates that you would like the recommendation to show a longer season of use for irrigation. The Director has approved extending the period of use for the Hagerman valley to 3/15 to 11/15.

The proposed recommendation is based on irrigation season of use standards adopted by the Director for the various regions throughout the state. These standards are based on the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

In addition, since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for irrigation outside the irrigation season under certain conditions. The conditions are that the water is beneficially used, as determined by the director; that all water rights with a period of use outside the irrigation season, regardless of priority, are satisfied; and that the use does not conflict with the public interest as determined by the director. This proposed general provision will be included in the Director's Report.

Your NOE also questions the basis for recommending disallowal of a claim to a previously decreed water right.

Under Idaho law, water rights are limited to the amount of water beneficially used for the purposes for which the water rights were established. The amount of water beneficially

MICROFILMED

JAN 20 1993

STRANGE
PAGE 2
17-Oct-1992

used is limited to the amount that is actually used and is reasonably required. For irrigation purposes, a reasonable amount is the amount required using irrigation methods that are reasonably efficient under current circumstances. If the water right shown in a decree is no longer beneficially used, then the water right is forfeited.

In your case, you filed multiple overlapping claims. IDWR determined the amount of water reasonably required for the recommended uses, based on available data and current methods of analysis, and proposed to recommend the most senior claims that were within this total. To support recommendation of the notice of claim listed above, you will need to submit evidence of beneficial use of an amount of water greater than the total of the rights proposed to be recommended.

If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process. As part of the objection process, IDWR will work with the claimants to resolve disputed issues, including efforts to obtain additional data which will be made available to the water users.

Sincerely

Kelly K Christensen
Sr Water Resource Agent

NAME OF PARTY

WILLIAM STRANGE(837-4767)

He says he uses his water all the time, continuously. He also picks up waste water from other ranches. He says he needs the constant flow to support the wild life ponds on his farm.

I asked specifically about his irrigation and he said he must return to irrigate each field within 3-4 days. His set times vary from 12 to 24 hours depending on the length of runs.

He has 50" corrugate spacings and told me everything is corrugated except out in the rocky areas.

Same methods used for Sands Ditch water & the Barlogis Water.

RECORDED
JAN 7 1961

This is a black and white aerial photograph of a river valley. The river flows from the top left towards the bottom center. Key features include:

- Top Left:** "KING TWIN FALLS CO" and "MAIN" are visible near the river's head.
- Top Center:** "Siphon" and "CANAL" are labeled near the river.
- Top Right:** "WOOD" and "Mile" are visible.
- Center:** "Substation" is labeled near the river.
- Bottom Center:** "Lower Salmon Falls" and "Power Plant" are visible near a large reservoir.
- Bottom Right:** "SALMON" is visible near the river's mouth.

 Handwritten annotations in black ink include:

- "A36-00008" in the upper left quadrant.
- "T7S" vertically in the middle left.
- "R13E" in the lower left.
- "MICROFILMED" in red in the bottom right.
- "JAN 2 1983" in red below the microfilm stamp.

 The map is overlaid with a grid showing section numbers (e.g., 28, 33, 34, 35, 10, 15) and township/range markings.

This is a black and white aerial photograph of a river valley. The river flows from the top left towards the bottom center. Key features include:

- Top Left:** A winding road labeled 'KING TWIN FALLS CO' and 'MAIN'. A 'Siphon' is marked near 'BM 2764'.
- Top Center:** A 'CANAL' runs horizontally. Below it, 'BM 2887' and 'BM 2760' are marked. A 'Substation' is labeled.
- Top Right:** A 'Mile' marker is visible. A 'Spring' is labeled near a small stream.
- Center:** A large reservoir or lake is situated in the middle of the valley. Below it, 'Lower Salmon Falls' and 'Power Plant' are labeled. A 'Substation' is also marked near the lake.
- Bottom Center:** A road labeled 'WITCH' runs vertically.
- Bottom Right:** A 'Substation' is marked near 'BM 2950'.
- Handwritten Annotations:**
 - 'A36-00008' is written in large, bold letters in the upper left quadrant.
 - 'T7S' is written vertically in the middle left.
 - 'R13E' is written horizontally in the lower left.
 - 'MICROFILMED' is written in red at the bottom right.
 - 'JAN 2 1983' is written in red below the microfilmed text.
- Grid and Numbers:** The map is overlaid with a grid. Numbers like '28', '33', '34', '35', '10', '15', '28', '30', '31', '32', '33', '34', '35', '36', '37', '38', '39', '40', '41', '42', '43', '44', '45', '46', '47', '48', '49', '50', '51', '52', '53', '54', '55', '56', '57', '58', '59', '60', '61', '62', '63', '64', '65', '66', '67', '68', '69', '70', '71', '72', '73', '74', '75', '76', '77', '78', '79', '80', '81', '82', '83', '84', '85', '86', '87', '88', '89', '90', '91', '92', '93', '94', '95', '96', '97', '98', '99', '00' are visible along the grid lines.

This is a black and white aerial photograph of a river valley. The river flows from the top left towards the bottom center. Key features include:

- Top Left:** A winding road labeled "KING TWIN FALLS CO" and "MAIN". A "Siphon" is marked near "BM 2764".
- Top Center:** A "CANAL" runs horizontally. Below it, a "Substation" is labeled. "BM 2887" and "BM 2760" are marked.
- Top Right:** A "Mile" marker is visible. A "Spring" is labeled near a "Creek".
- Center:** A large reservoir or lake is situated in the middle of the valley. Below it, a "Lower Salmon Falls Power Plant" and "Substation" are labeled. A "Dam" is also indicated.
- Bottom Center:** A "Dam" is labeled near a "River". "BM 2950" is marked.
- Bottom Right:** A "Dam" is labeled near a "River". "BM 2950" is marked.
- Handwritten Annotations:**
 - "A36-00008" is written in large, bold letters in the upper left quadrant.
 - "T7S" is written vertically in the middle left quadrant.
 - "R13E" is written horizontally in the lower left quadrant.
 - "MICROFILMED" is written in red in the bottom right corner.
 - "JAN 2 1983" is written in red below "MICROFILMED".
- Grid and Numbers:** The map is overlaid with a grid. Numbers "28", "33", "34", "35", "10", "15", "28", "30", "31", "32", "33", "34", "35", "36", "37", "38", "39", "40", "41", "42", "43", "44", "45", "46", "47", "48", "49", "50", "51", "52", "53", "54", "55", "56", "57", "58", "59", "60", "61", "62", "63", "64", "65", "66", "67", "68", "69", "70", "71", "72", "73", "74", "75", "76", "77", "78", "79", "80", "81", "82", "83", "84", "85", "86", "87", "88", "89", "90", "91", "92", "93", "94", "95", "96", "97", "98", "99", "00" are visible along the grid lines.

This is a black and white aerial photograph of a river valley. The river flows from the top left towards the bottom center. Key features include:

- Top Left:** A winding road labeled "KING TWIN FALLS CO" and "MAIN". A "Siphon" is marked near "BM 2764".
- Top Center:** A "CANAL" runs horizontally. Below it, a "Substation" is labeled. "BM 2887" and "BM 2760" are marked.
- Top Right:** A "Mile" marker is visible. A "Spring" is labeled near a "Creek".
- Center:** A large reservoir or lake is situated in the middle of the valley. Below it, a "Lower Salmon Falls Power Plant" and "Substation" are labeled. A "Dam" is also indicated.
- Bottom Center:** A "Dam" is labeled near a "River". "BM 2950" is marked.
- Bottom Right:** A "Dam" is labeled near a "River". "BM 2950" is marked.
- Handwritten Annotations:**
 - "A36-00008" is written in large, bold letters in the upper left quadrant.
 - "T7S" is written vertically in the middle left quadrant.
 - "R13E" is written horizontally in the lower left quadrant.
 - "MICROFILMED" is written in red in the bottom right corner.
 - "JAN 2 1983" is written in red below "MICROFILMED".
- Grid and Numbers:** The map is overlaid with a grid. Numbers "28", "33", "34", "35", "10", "15", "28", "3176", "3158", "3020", "3262", "31854", "31856", "31858", "31860", "31862", "31864", "31866", "31868", "31870", "31872", "31874", "31876", "31878", "31880", "31882", "31884", "31886", "31888", "31890", "31892", "31894", "31896", "31898", "31900" are visible along the grid lines.

This is a black and white aerial photograph of a river valley. The river flows from the top left towards the bottom center. Key features include:

- Top Left:** A winding road labeled "KING TWIN FALLS CO" and "MAIN". A "Siphon" is marked near "BM 2764".
- Top Center:** A "CANAL" runs horizontally. Below it, a "Substation" is labeled. "BM 2887" and "BM 2760" are marked.
- Top Right:** A "WOOD" area is visible, with a "Spring" and "Mile" marker.
- Center:** A large reservoir or lake is situated. Below it, a "Lower Salmon Falls Power Plant" and "Substation" are labeled. A "DITCH" runs vertically through the center.
- Bottom Center:** A small town or village is visible, with "BM 2950" marked.
- Bottom Right:** A "River" is labeled at the very bottom.

Handwritten annotations in black ink are present:

- "A36-00008" is written in the upper left quadrant.
- "T7S" is written vertically on the left side.
- "R13E" is written in the lower left quadrant.
