RE: Response to Notice of Error to Preliminary Recommendation for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) claim 95-17295

Dear Mr. and Ms. Wendell

The Idaho Department of Water Resources (IDWR) has reviewed the Notice of Error Reply (NOE) you submitted in connection with the preliminary recommendation for claim 95-17295.

The issues you identified on the NOE Reply are shown below:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Purpose of use

2. Describe the changes you wish to make in the proposed recommendation:

shared well with 2 Homes quantity. X2 = more water

Recommendation 95-17295 authorized domestic use for 1 home with a diversion rate of 0.04 cfs. The recommendation reflects what was claimed. IDWR cannot recommend use for more than what was claimed. You have a couple of options.

1. If you own the second home on the system, then you could file an objection¹ to your recommendation during the formal objection period, and then amend your claim to list domestic use for 2 homes and then increase the claimed diversion rate to what is actually being diverted. The priority date of your right will be the date the 2nd home was added to the system.
2. If you are not the owner of the second home, then the owner of the other home on the system could file an application for permit to cover their domestic use from the well.

I hope this helps clarify the preliminary recommendation. If you have further questions, please feel free to contact myself, or staff at the Northern Regional office of IDWR at (208) 762-2800.

¹ When the Director's Report for Basin 95 Part 1 is mailed (in late July- early August), it will include information on how to file an objection to your recommendation.

If you still disagree with the recommendation you will have the opportunity to file an objection to your recommendation and be heard by the CSRBA court.

Respectfully,
