Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

RE: Notice of Change in Address for Steveco Canyon Farms Inc.

Dear Joni:

Enclosed for processing, please find a change of address form for water rights owned by Steveco Canyon Farms Inc. There were inconsistent address on the Department's records, and Mike Stevens now wants the mailing address for this entity to be to his home address in Rigby, Idaho. I have also attached a water right search that lists every water right with the name of Steveco Canyon Farms Inc., and believe this captures all of their water rights. However, if you are aware of any others after you look at the Department's data base, please let me know and please update the address on those water rights as well.

If you have any questions or concerns, please let me know.

Best Regards,

Robert L. Harris

Kristin:

I have looked at this file and offer the following: There is no field examination in the file up here. Proof was submitted in July of 1980 and exam fee submitted in March of 1987. If the exam has been done it has not been sent up here yet. I am working full time on SRBA recommendations for Canyon County (B63, part 3) so not doing any licensing. If you find there is one that needs licensed you should make your request to Shelley Keen. He will be the deciding factor in getting licenses issued until I am back to my regular duties. I would recommend this permit as permitted with the A01 condition. Hope this helps. Kay

Kay,

I am working on the recommendations for Steveco Canyon Farms Inc in Basin 22. One of their rights is currently an Active Draft. Ernie suggested that I ask you if there is a timeline for this right 22-7114 for being licensed. If it is sometime soon, then I can put it on hold until it is licensed. But if it is going to be a while, I need to know that too. Do you know anything about the licensing of this permit?

These claims all list Canyon Creek as the Source. The only Pump from Canyon Creek are at the Lower Division and that location is the NWSE Sec 13 T6N R42E.

The "draft" report for 22-7114 shows a pad as the SESE Sec 13 for Canyon Creek water and there is only a well on that site.

All the Farms + claims under Stevens Canyon Farms now belong to Conn Crapo + his family.
All correspondence should go to;

Conn Crapo
1509 N. Canyon Creek Rd
Nevada, ID 83436

They are purchasing Farm under lease/purchase agreement. Half the ground now belongs to Crapo's outright + the other half will be theirs next year.

All claims under this Farm name share a common irrigation system + therefore a ~~per~~ P.P.U. map should be created for the entire Farm.

Conn Crapo says that should be around 2700 acres. We should review rough draft of proposed map with him at our office.

IN THE MATTER OF APPLICATION FOR PERMIT NO.)
22-7114 in the name of J. WAYNE STEVENS)

MEMORANDUM DECISION
AND ORDER

On November 20, 1974, J. Wayne Stevens filed with the Department of Water Resources an application to appropriate 20 cubic feet per second of the waters of Canyon Creek, a tributary of Teton River. On December 12, 1974, the Department received a protest against approval of said application from Owen J. Neeley. The Department conducted a hearing on the matter on January 28, 1975, in St. Anthony, Idaho.

The applicant, J. Wayne Stevens, was present and represented by Ray Rigby, Attorney at Law. The protestant, Owen J. Neeley was present and represented by Blair Grover, Attorney at Law.

The testimony on behalf of both the applicant and the protestant was received. The Department, having reviewed the testimonies and evidence offered for each of the parties, and reviewing all pertinent information in the Department's official records, and based upon the Director's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

Findings of Fact

(1) The applicant has possessory interest in the 1,702 acres of land on which water diverted under this appropriation could be used.

(2) The diversion of 20 cfs of water for the irrigation of 1,702 acres is not an excessive rate.

(3) The maximum flow in Canyon Creek that could be diverted and used beneficially under this permit is not known, but is estimated at about 20 cfs.

Conclusions of Law

(1) This application was not filed for speculation or delay.

(2) The applicant is entitled to an approved permit from the Department of Water Resources.

Order

IT IS, THEREFORE, ORDERED and Application for Permit No. 22-7114 is hereby APPROVED subject to the following conditions:

1. That said permit be and is subject to all existing prior water rights.

2. That the permit holder shall permanently install and maintain a measuring device of a type approved by the Department as part of the diverting works.
3. That this right be subject to the control of the watermaster.
4. That proof of construction of works and application of water to beneficial use be submitted to the Department on or before March 1, 1978.

Dated this 25 day of February, 1975.
