STANDARD FORM 4

MOTION TO FILE LATE
NOTICE OF CLAIM

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase". You must use a **separate form for each** late or amended Notice of Claim.

By filing a *Motion to File Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

— I have read SRBA Administrative Order 1, Rules of Procedure (amended Sept. 30, 1996).

My name is: Kingston Properties, L.P.
My address is: 477 Shoup Avenue, Suite 207, Idaho Falls, ID 83402

MOTION TO FILE LATE NOTICE OF CLAIM

X I did not file a Notice of Claim to the use of water in the SRBA because:

X The Motions for Late/Amended Claims for Water Right Nos. 36-00003, 36-00005, along with 36-00019 are made in order to conform the pleadings to the proof previously given at trial in the 36-00003 subcases and to conform to the Memorandum Decision and Order on Challenge, issued by Presiding Judge Wood, November 23, 1999.

Those three rights are described with the same point of diversion, priority date, have contiguous places of use on adjacent properties, and have been used together and known as the "Buckeye Ranch." The purpose of the Motions for Late Claims and Motions to Amend Claims is in order to accurately reflect the nature and extent of use as set forth in the 1932 New International Mortgage Bank Decree, and the subsequent history wherein changes in place of use and commingling of the rights have occurred. The changes also reflect the deeded history and actual use of the rights, as described as controlling by Judge Wood's Memorandum Decision. The amended claims and late claims, read as a whole, do not enlarge the amount of water previously claimed under the 36-00003 claims and subcases.

— I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stockwatering use.

— I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out

if you are reinstating a Notice of Claim for domestic or stockwatering use, but you must attach a copy of your Notice of Claim.)

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☐ **Source**
Should be: _____
3. ☒ **Quantity**
Should be: Less than 1.92 cfs, if allowed at all.
4. ☐ **Priority Date**
Should be: _____
5. ☐ **Point(s) of Diversion**
Should be: _____
6. ☐ **Instream Flow Description**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☐ **Place of Use**
Should be: _____
11. **I object because:**

☒ This water right should not exist.

☐ This water right was not recommended, but should be recommended with the elements described above.

E. **REASONS SUPPORTING OBJECTION(S):** Water from the original 36-00005 and 36-00019 rights may not be recommended for use on the 36-00003 right's place of use without a showing that a commensurate portion of the 36-00003 right water was transferred to another place of use. Therefore, this water right should not exist. In the alternative, the quantity element should be corrected. In conjunction with the 7.16 cfs recommended for right 36-00003B and the .55 cfs recommended for right 36-00005B on the same 129 acres, the recommended quantity exceeds one inch/acre yet gives no indication if a portion of the quantity is allocated to conveyance loss.
