RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-12703

Dear Claimant(s):

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed for the domestic use of water from Coeur d'Alene Lake on the basis of beneficial use with a claimed priority date of July 1, 1994. This priority date is in violation of the Mandatory Permit Statute for the water source and purpose of use claimed. The permit system for establishing a water right became mandatory for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams). If the use of lake water for domestic purposes began prior to May 20, 1971, an Amended Notice of Claim to a Water Right form with corrected priority date should be submitted. Be sure to include evidence of the continuous beneficial use of the water source dating back to your claimed priority date. If your claimed use of lake water began after that date and was not previously established under the permit system, an "Application for Permit" form should be filed instead of amending this claim.

For your convenience, I have enclosed an Application for Permit form. If you need assistance applying for the permit, please contact our water allocation personnel at the Northern Regional Office during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region
