## COMMUNICATION DOCUMENTATION

**April 6, 1999**

**Regarding:**

**AJ claim 47-11175**

**Customer:**

## David Kinyon

**From: Vikie Hancock**

[illegible]

Mr. and Mrs Kinyon came in today regarding the BLM objection to their stockwater claim. I gave them a Response to Objection form, and explained that this was now a matter before the court and between them and the BLM. I told them that the Department had recommended their claim as shown, that the BLM had filed an objection to that claim, and that they could file a Response to the objection, if they wished to do so.

They inquired about permit #47-07150, which they said was for the same water. I investigated, and found that the permit had lapsed in 1973. I gave them copies of communication to them regarding the lapse of the permit, including a memo from Tim Luke documenting a conversation that he had had with the claimant in 1988.

I again explained that the matter of the objection of the AJ claim was between them and the BLM, and that any questions about procedure should be addressed to the SRBA court. I told them that the Court would schedule a hearing at which time they could present any evidence to support their claim, and that it would be the Court that would make the final ruling.

I told Mr. Kinyon that the Department had filed proof of beneficial use documents that he had presented in 1988 for permit #47-07150. I advised he and his wife that copies of any of these documents were available if they needed them.
