SUBJECT: Notice of Error Reply on Notice of Claim (claim) to a Water Right Number 95-13376

To Whom It May Concern:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested change to the water right for the following reasons:

The type of claim filed for this parcel was for a domestic usage which includes ½ acre or less of lawn or garden irrigation. There was no indication that anything more than ½ acre was being irrigated.

The permit system for establishing a water right became mandatory for uses developed from ground water after March 25, 1963 (except for domestic purposes as defined by Section 42-111, Idaho Code), and for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams).

I am enclosing an application for permit, with instructions, which may be used to appropriate a water right for any new uses over and above the domestic use. I've also enclosed a brochure on water rights, for your information.

Please feel free to contact me if you have any questions. I can be reached at (208) 762-2800. Also, information relative to this claim file may be viewed at www.idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.
