SUBJECT: AMENDING CLAIMS

phone call (.) walk-in (X)

Kathleen and Brian Olmstead came into the office and met with Kelly and myself. After going over their claims and how the system is used now, they elected to amend claims **A47-11557** and **A47-11558** in order to agree with the amendment they are doing on Permit # 47-08147, where all four wells are tied together into a common system. They also amended the Place of Use as it is slightly different now. They amended **A47-07010A** to add a second well in case the other one can't supply enough water. They will return with affidavits from relatives that own other parcels covered by **A47-11567** stating they have agreements with B&T Farming to water their land with B&T's well. I can then process the ownership changes for **A47-11559** and **A47-11567**. They also want to amend **A47-11567** to drop the 40 acres in the SWSW of Section 35 since water has never actually been used there.

SUBJECT: OWNERSHIP ISSUES AND AMENDMENTS TO RIGHTS
phone () walk-in(X)

Along with Jeanie R., we discussed their irrigation systems and stock rights. In the discussions we determined that the SWSW quarter of the system was not irrigated from the groundwater source. They amended the claim to delete that quarter quarter. They indicated that the actual property is owned by 3 separate individuals rather than one although the irrigation practice treats the place of use as one system. I contacted Don Shaff and he recommended that we solicit affidavits from the other parties and leave the claim in the current ownership. We discussed the stockwater - feedlot operation. The system appears to be 4 wells supplying a system of pens laying in two quarter quarters. They indicated that there is no stockwater/feedlot use in sec 35. They amended the claims to delete sec 35 uses. Where necessary, claims were also amended to reflect all 4 p/ds. Discussions indicated that there were two early developments of 500 head each for the feedlot and then a series of developments represented by a permit which is pending licensing. The total capacity including all rights is 3,000 head.

IDWR Employee/Agent Jeanie Robertson Date 3/14/95

Contact Person(s) Kathleen Olmstead

Nature of Contact office visit

Substance of Communication she brought in some evidence of
Priority on A47-11558 and A47-11567. She
did address updates on all these claims.
I also explained why she was only requested
to prove priority on certain claims and not
others (domestics are exempt and licenses
already have priority dates in our records)
