Subject: CSRBA Recommendation 95-15764 - Objection Information
Date: Tuesday, August 07, 2018 10:44:00 AM

Hello Guy,

First let me summarize a little of what we spoke about:

Three claims were filed from the well on your property:

Basin	Sequence	Suffix	Version Number	Process	Basis	Status	Priority Date	Diversion Rate	Source List	Water Use List	Current Owner
95	14206			Claim	Beneficial Use	Active	12/31/1992	0.040	GROUND WATER	DOMESTIC	CUTTER, JAMES D; CUTTER, VIRGINIA B
95	15764			Claim	Beneficial Use	Active	5/12/1992	0.040	GROUND WATER	DOMESTIC	ST LOUIS, GUY
95	15773			Claim	Beneficial Use	Active	9/10/2002	0.020	GROUND WATER	DOMESTIC	SMITH, KRISTIE; SMITH, TONY

(The IDWR Reviewers notes indicate that county data shows that the home claimed under 95-14206 was built in 1996 despite the claimed 1992 priority date.)

Because your home was put on the system before 1995, IDWR can recommend your right under [42-111\(a\)](#) with the 13,000 gallon per day limit but must disallow any other claims filed for use from the well where use commenced after 1995.

However, in order to try to preserve some sort of water right for all 3 homes, the domestic uses claimed under 95-14206 and 95-15773, was recommend under [42-111\(b\)](#) which limited the combined use from all three homes to 2,500 gallons per day.

In our phone conversation, you told me that you felt in the summer time that use from all 3 homes might exceed 2,500 gallons per day. In order to pursue changes to the recommendation for 95-15764, you will need to file an objection to your water right. Here are links to the [objection form](#) and [instructions](#). Based on our conversation, you will probably want to object to the quantity (2,500 gpd limit) and/or the Place of Use (should not include parcel #'s 50N05W260240 and 50N05W253195, nor use in the NWNW of section 25).

Let me know if you have any questions.

Respectfully,
