OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

EXPLANATORY MATERIAL: Beneficial Use

Stockwater use is for 250 range cattle.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED

DEC 09 2003

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
_____	<u>A63-05047B</u>	_____	_____	_____	_____
_____	<u>A-63-05034</u>	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See Instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
 PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The AERIAL PHOTO should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

3. Name and Address of Former Owner/Claimant(s) Bart and Dorothy Brassey
330 Summit Ridge Road, Boise, ID 83702
4. New Owner/Claimant(s) Trail Creek Meadows Ranch, an Idaho general partnership
 Name Connector (Check one): ☐ and, ☐ or ☐ and/or
- New Mailing Address c/o Andrew C. Brassey, P.O. Box 1009
- City, State and Zip Code Boise, Idaho 83701-1009
- New Telephone Number (208) 344-7300
5. Date you acquired the property December 19, 1983

6. **IF THE CHANGE IN OWNERSHIP AFFECTS THE ENTIRE WATER RIGHTS FOR EACH WATER RIGHT OR ADJUDICATION CLAIM NUMBER LISTED IN ITEM 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change of ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

LATHAM, ("Grantor"), do hereby convey, release, remise and forever quitclaim unto TRAIL CREEK MEADOWS RANCH, an Idaho general partnership, which has an address of 260 Hearthstone Drive, Boise, Idaho 83702 ("Grantee"), any and all interest I may have in and to the following described real property situated in Boise County, Idaho, to wit:

The subject property contains a total of 1,174.57 acres and is legally described as follows:

Township 7 North, Range 4 East, B.M., Boise County, Idaho

Section 26: S $\frac{1}{2}$ SW $\frac{1}{4}$
Section 27: S $\frac{1}{2}$ S $\frac{1}{2}$
Section 28: S $\frac{1}{2}$ SE $\frac{1}{4}$
Section 33: All
Section 34: N $\frac{1}{2}$ N $\frac{1}{2}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$
Section 35: Tax #18 in NW $\frac{1}{4}$ NW $\frac{1}{4}$ (14.57 acres)

together with all and singular the tenements, herditaments and appurtenances thereunto belonging or in anywise appertaining, the reversion and reversions, remainder and remainders, rents, issues, and profits thereof. To have and to hold all and singular the premises, together with the appurtenances, unto the grantee and to its heirs and assigns forever.

DATED this 2nd day of October, 1998.

GRANTOR:

JEAN A. LATHAM

STATE OF IDAHO)
) ss.
County of Blaine)

On this 27th day of September, 1998, before me, the undersigned, a notary public in and for said state, personally appeared JEAN A. LATHAM, known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that she executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and seal the day and year first above written.

James P. Speck
Notary Public for Idaho

Residing at: Blaine, Idaho

Comm. Expires: 1/29/2003

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA

Case No. 39576

Water Rights: 63-5034, 63-5047B

NOTICE OF COMPLETED
ADMINISTRATIVE
PROCEEDING

IDWR has completed the following administrative proceeding:

☐ Address change

XX Substitution of Party

☐ IC § 42-222 transfer

☐ Point of diversion

☐ Place of use

☐ Period of use

☐ Nature of use

☐ Split of water right

☐ Change in ownership

☐ Other

☐ IC § 42-219 license

IDWR certifies that it has completed its investigation into the changes to the elements of the water rights listed above as set forth in the attached *Amended Director's Report(s)* for said water right(s). No other changes have been made to the elements of these water rights except as set forth above.

IDWR has served copies of the *Notice of Completed Administrative Proceeding* and *Amended Director's Report(s)* on the claimant(s), prior claimant(s) and all parties in the subcases affected, if any, as reflected on the attached certificate of mailing.

DATED: March 16, 2004

Signature of IDWR Representative

CERTIFICATE OF MAILING

I certify that on March 16, 2004, I delivered the original and copies of this form, including all attachments, to the following persons, postage prepaid if required and addressed as follows:

1. Original to:

Clerk of the District Court	☐	overnight mail

Dear Sir or Madam:

Enclosed is a copy of the Notice of Completed Administrative Procedure and pertinent water right(s) recently sent to the Snake River Basin Adjudication Court in Twin Falls. These documents are now required to be filed by the Department in order to notify the Court of any changes to your water right(s).

The change to your water right(s) was a result of an ownership change. You will be notified of any future action on your water right(s) by the SRBA Court or Water Resources.

Please contact this office if you have any questions concerning this notification.

Sincerely,

A handwritten signature in cursive script that reads "Lori Harris".

AMENDED DIRECTOR'S REPORT

Subcase No. 63-5034

In Re SRBA

Twin Falls County Civil Case No. 39576

Report to the SRBA District Court

Prepared by the Idaho Department of Water Resources
Karl J. Dreher, Director
David R. Tuthill, Jr., Adjudication Bureau Chief

Aug. 27, 2003

DESCRIPTIVE SUMMARY

This is an Amended Director's Report submitted by the Director of the Idaho Department of Water Resources.

DISCUSSION

Pursuant to the verbal *Motion to Amend Claim*, the *Bench Order* granting *Motion to Amend Claim* and verbal order setting a deadline for the *Amended Director's Report* occurring at the initial hearing on July 29, 2003, the Director submits for filing with the Court, an Amended Director's Report for the aforementioned subcase (see attached print-out).

Respectfully submitted this 27th day of August, 2003.

DAVID R. TUTHILL, JR.
Adjudication Bureau Chief

CONVERSATION MEMORANDUM

SUBJECT: Wild Flooding

WHOM WITH: Mel Schulte

WATER RIGHTS: 63-5034 & 63-5047B

SENIOR AGENT: RON HOWERTON

DATE: August 4, 2003

NARRATIVE: I asked Mel about these two rights that he done the fieldwork for these above listed claims for Brassey. Completed 10/24/2001.

I asked him if this was wild flooding he said yes. Nor could he think of any injury to others and is of common practice in the area? He said it was of common practice and couldn't think of any injury.

Thus using Jeff Peppersack's 1999 report, " Report regarding evaluation of irrigation diversions rates. See attached pages 37 & 38 under the heading, Wild Flooding Irrigation Systems: where it says that if "where no impact or potential injury to other users can be identified, the diversion rates required under the existing systems and conditions are considered reasonable and necessary".

REPORT REGARDING EVALUATION OF IRRIGATION DIVERSION RATES

Wild Flooding Irrigation Systems

Wild flooding systems are common in many parts of the state. They are most commonly used on farmland with marginal value where other types of water application systems are not economical or practical. Land preparation and improvements are minimal or nonexistent and the water management level is very low.

Wild flooding irrigation systems are not like other surface irrigation systems which retain some control of the water as it flows down to the end of the field. The distribution of water is very dependent on the condition of the land surface. After leaving the supply ditch, the water spreads randomly to low spots and infiltrates the soil as it moves towards the end of the field. Long set times are normal to allow the water to spread laterally through the soil from the braided streams that form on the land surface. Due to the lack of control on the water, the distribution is often uneven and the FAE is usually very low. In general, this method of water application is not considered an acceptable irrigation practice.

The level of benefit gained to crops irrigated with wild flooding systems is variable and primarily dependent on the condition of the land where the systems are used. When comparing the amount of water applied and the benefit gained between wild flooding systems and conventional surface irrigation systems, the level of efficiencies cannot be justified for water allocation purposes.

Since there is some benefit gained from these systems, there is a need for a standard, based on acceptable irrigation practices, to determine an acceptable level of efficiencies for wild flooding systems. The procedure described above for corrugation systems using the furrow program will be used as a standard to determine the optimum FAE for wild flooding systems. The procedure for corrugation systems should be followed using the appropriate furrow intake family and design application, the existing field slope, and a reasonable corrugation spacing. For consistency, use 2.5 feet for alfalfa and 2 feet for pasture and grain. The optimum lengths, inflow rates, and inflow times obtained from the furrow program will provide an optimum FAE to be used in the determination of the field irrigation requirements.

In some cases, wild flooding systems are used in isolated areas, near the headwaters of small drainage basins or along intermittent streams. These systems rely heavily on spring runoff. Water is diverted early in the season when spring runoff occurs and allowed to flood lands adjacent to the source. Runoff from the fields flows back into the stream where it becomes available for other fields or other farms situated downstream. In these situations, the amount of water available is controlled by the amount of spring runoff; water application losses have no real effect on water users

REPORT REGARDING EVALUATION OF IRRIGATION DIVERSION RATES

downstream because the losses end up back in the stream. Upstream water users, if they exist, generally share the same practices and operate under the same local customs or understandings. In these cases, where no impacts or potential injury to other water users can be identified, the diversion rates required under the existing systems and conditions are considered reasonable and necessary.

Sprinkler Irrigation Systems

Sprinkler irrigation systems are typically more efficient than surface irrigation systems. Historically, many surface systems have been replaced by sprinkler systems. The decision to use a particular irrigation system may depend on factors beyond the control of the farmer (e.g. crop prices, energy costs). To overcome the variability of those factors, farmers should be allowed some flexibility to return to a surface system as necessary. In cases where a water right was originally developed as a surface system, the optimum FAE will be based on the surface system using acceptable irrigation practices as described earlier in this report.

For those sprinkler systems which were originally developed as sprinkler systems, the optimum FAE will be estimated based on typical or expected values found in existing literature. Sprinkler systems are very flexible in their ability to apply water at the necessary rates and time periods for various crops and soil conditions. Properly designed and managed systems will achieve these expected efficiencies under normal conditions.

The Hubble report guidelines (page 25 and Appendix A-7) provide a range of efficiencies for various types of sprinkler systems. The University of Idaho questioned the reasonableness of these efficiency values in their report to HWRO (Hazen, Gibson, and Neibling, 1994, p. 9). The University of Idaho report provided an alternative range of efficiencies for various types of sprinkler systems. These values were originally presented in a 1994 report by the Idaho Irrigation Water Conservation Task Force and are reprinted below (Idaho Irrigation Water Conservation Task Force, 1994, p. 38).

<u>sprinkler system</u>	<u>application efficiency</u>
stationary lateral (wheel or hand move)	60 - 75%
solid set lateral	60 - 85%
traveling big gun	55 - 67%
stationary big gun	50 - 60%
center pivot lateral	75 - 85%
moving lateral (linear)	80 - 87%

Subject: AMENDED CLAIMS with corrected acres and address 63-5047B & 63-5034

Jim,

Here are the amended claims with the acres we discussed on 7-29-03. And the updated address.

Let me know if I need to change anything else...

Thank you,

Ron Howerton

A. Subcase 63-5034

(Insert water right number)

STANDARD FORM 1
OBJECTION

Please fill in the following information:

B.

NAME AND ADDRESS OF PERSON OBJECTING

Name: Bart A. Brassey and Dorothy M. Brassey

Address: 330 Summit Ridge Road

Boise, ID 83702

Daytime Phone: _____

Name & Address of Attorney, if any:

James P. Speck

Speck & Aanestad, A Professional Corporation

P.O. Box 987, Ketchum, ID 83340

C.

CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Bart A. Brassey and Dorothy M. Brassey

Address: 330 Summit Ridge Road

Boise, ID 83702

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☐ **Source**
Should be: _____
3. ☒ **Quantity**
Should be: 2.40 cfs
4. ☐ **Priority Date**
Should be: _____
5. ☐ **Point(s) of Diversion**
Should be: _____
6. ☐ **Instream Flow Description**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☒ **Place of Use**
Should be: see addendum

11. **I object because:**

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): see addendum

F

VERIFICATION (Must be Completed)

State of Idaho)

INSTRUCTIONS FOR MAILING

You must mail the objection, to the Clerk of the Court. **FAX filings will not be accepted.** You must also send a copy to all the parties listed below in the Certificate of Mailing.

CERTIFICATE OF MAILING

I certify that on January 28, 2003 ~~199xxx~~ I mailed the original and copies of this objection, including all attachments, to the following persons:

1. Original to:

Clerk of the District Court
Snake River Basin Adjudication
253 Third Avenue North
PO Box 2707
Twin Falls, ID 83303-2707

2. One copy to the claimant of the water right at the following address:

Name: Bart A. Brassey and Dorothy M. Brassey
Address: 330 Summit Ridge Road
Boise, ID 83702

3. Copies to:

IDWR Document Depository
PO Box 83720
Boise, ID 83720-0098

Chief, Natural Resources Division
Office of the Attorney General
State of Idaho

ADDENDUM TO OBJECTION

Subcase No. 63-5034

- D.9. The place of use should include the area marked by cross hatching on Exhibit A attached hereto. The number of irrigated acres within this area can be calculated by IDWR.
- E. The place of use has historically been irrigated by check dams in the unnamed stream and flood irrigation. Conveyance loss should be included in the amount of 0.64 cfs according to the calculations by Mel Schulte attached hereto as Exhibit B. The fields which are irrigated by 63-5047B and 63-5034 are connected. The expanded place of use for 63-5034 requested by this Objection represents the additional lands which are irrigated by the unnamed stream. An amount equal to 0.02 cfs per acre for these additional lands should also be included up to the claimed amount of 2.4 cfs.

Work # 344-7300 Fax # 344-7077 Home # 342-7334

WATER RIGHTS: 63-5034 & 63-5047B

SENIOR AGENT: RON HOWERTON

DATE: 4/19/2002

NARRATIVE:

Analysis of notice of error for the above rights:

Both of these rights were recommended in the preliminary report without conveyance loss added. A notice of error was received in our office April 4, 2002 stating they wanted ditch loss and indicated on Mel's map of where additional irrigated lands were located.

Acres:

- I have spoke to Mel, he said that the additional place of use is ok to recommend because he didn't know that land was Brassey's. I corrected the recommendation per NOE.

Conveyance Loss:

- Mel's ditch loss calculations didn't consider the distance from the point of diversion to the place of use, instead calculated the entire length of the ditch, thus, I couldn't recommend ditch loss because the irrigated land starts at the point of diversion.

Called Andy Brassey and discussed the above problem with the conveyance loss. I faxed him a copy of the new recommendations versus old and a copy of the NAPP and a diagram showing conveyance loss samples. I also mailed the original FAX copies to his home address of 260 Hearthstone Dr. Boise ID 83702.

I explained to him that since we really couldn't give the ditch loss, they still might be able to get more CFS by submitting paperwork for excessive flows. We could mail him that information. He indicated that he would let me know if he wants the excessive flows.

DOROTHY M BRASSEY
330 SUMMIT RIDGE RD
BOISE ID 83702
Telephone Number: (208)343-1042

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity and place of use

2. Describe the changes you wish to make in the proposed recommendation:

The place of use should include the area outlined on the place of use aerial photograph attached hereto as Exhibit A. The quantity should be 1.78 cfs plus 0.02 cfs for each acre included in the expanded place of use.

3. Give a brief explanation as to why you disagree with these portions:

The expanded place of use was historically irrigated by check dams in the unnamed stream. Conveyance loss should be included in the quantity in the amount of 0.64 cfs according to the calculations by Mel Schulte attached hereto as Exhibit B

 I AGREE with this proposed recommendation: no changes need to be made.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Bart A. and/or Dorothy M. Brassey
(Name of Claimant)
330 Summit Ridge Road Boise ID 83702 Telephone No. 343-1042
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 7/1/1900
A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Unnamed Stream tributary to Trail Creek
(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, af)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive) (Mo., Day)	(Mo., L.)
Quantity <u>2.4 Cfs.</u>	Use <u>Irrigation</u>	Period of Use From <u>4/1</u>	To <u>11/1</u>
Quantity _____	Use _____	Period of Use From _____	To _____
Quantity _____	Use _____	Period of Use From _____	To _____
Quantity _____	Use _____	Period of Use From _____	To _____
Quantity _____	Use _____	Period of Use From _____	To _____

- (4) 2.4 Cfs. TOTAL QUANTITY USED.
(cfs, af)

- (5) A) Point of diversion: (Location of point where water is diverted from its source)
NW 1/4 NW 1/4, Sec. 34 Twp. 7N Rge. 4E B.M., County of Boise
Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Diversion dam with gravity irrigation.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTAL

AFFIDAVIT

STATE OF IDAHO)
) ss.
County of Ada)

Barton A. Brassey, being first duly sworn upon oath, deposes and states as follows:

1. Your Affiant is a resident of the city of Boise, county of Ada, state of Idaho, and resides at 330 Summit Ridge Road, Boise, Idaho.

2. That your Affiant is the father of Andrew C. Brassey, John Michael Brassey, Kathleen A. McCurdy (Brassey), and Jean A. Latham (Brassey), partners in Trail Creek Meadows Ranch, an Idaho general partnership.

3. Your Affiant is the direct predecessor in title to Andrew C. Brassey, John Michael Brassey, Kathleen A. McCurdy (Brassey), and Jean A. Latham (Brassey) and Trail Creek Meadows Ranch, an Idaho general partnership, to the property described as follows:

Township 7 North, Range 4 East, B.M., Boise County, Idaho

Section 26: S 1/2 SW 1/4
Section 27: S 1/2 S 1/2
Section 28: S 1/2 SE 1/4
Section 33: All
Section 34: N 1/2 N 1/2, SW 1/4 NW 1/4
Section 35: Tax #18 in NW 1/4 NW 1/4 (14.57 acres)

4. That prior to your Affiant's acquisition of the above-described property, the property was owned by W. C. Brassey, your Affiant's father.

5. Your Affiant was born in 1923 and was raised in Placerville, Boise County, Idaho. Your Affiant's father, W. C. Brassey, had been in the Boise Basin area, and in particular Placerville, Idaho, since approximately 1913.

6. A stream known as Trail Creek runs through the property described in paragraph 3 above. A stream commonly referred to as Petersen Creek but shown upon various maps as an unnamed stream also runs through the property described in paragraph 3 above. The water from these two streams is utilized for the irrigation of adjacent grounds and has been for as long as your Affiant can remember. In addition, there are various springs that exist on the property described in paragraph 3 above that irrigate this same property and from approximately April 1 to approximately October 15 of each year the water from these springs is utilized for the irrigation of adjacent grounds. Your Affiant was raised in Placerville and the area through which these springs, Trail Creek, and Petersen Creek flow and your Affiant can recall as a young child that the water from these springs and creeks irrigated the adjacent grounds. It is your Affiant's belief that the ground irrigated by these springs and Trail Creek and Petersen Creek is approximately 200 acres. The water from these springs and the above-named creeks is also utilized for the irrigation of adjacent grounds for feed for varying numbers of stock and this stock likewise drinks from the streams and springs.

7. That Trail Creek and Petersen Creek (also known as an unnamed stream) and the springs identified above were used prior to your Affiant's acquisition of the above-described property and the reputation in the area was that the springs and creeks were utilized from the first settlement of the area, being approximately 1863.

8. Your Affiant personally dug various ditches that still exist near and about Trail Creek and Petersen Creek through which water from Trail Creek, Petersen Creek, and the springs described in paragraph 6 above flow to irrigate the adjacent grounds. Your Affiant also participated in the construction of the diversions which currently exist on Trail Creek and Petersen Creek. Your Affiant is also aware that your Affiant's brother, Jon Brassey, built various dams along Petersen Creek to flood irrigate the grounds adjacent to Petersen Creek.

FURTHER YOUR AFFIANT SAITH NOT.

ESTIMATING CONVEYANCE LOSS

1/5/95

FIELD EXAMINER: Mel Schulte

FIELD EXAM DATE: 10-24-01

FOR CLAIM(S) 463-5034

Ditch from Unnamed Stream on North side of POA.
FORMULA: $S = (W)(i)(0.0667)$

Where: S = Loss in CFS per Mile
W = The top width of the high water mark in feet
i = The loss rate in feet per day (see table)
0.0667 is a factor used to convert to CFS per mile

TABLE:	Type of Soil	Loss Rate i (Ft/Day)
	Medium clay loam.....	0.5 to 1.5
	Impervious clay.....	0.5
	Medium soils.....	1.0
	Somewhat pervious soils....	1.5 to 2.0
	Gravel.....	2.5 to 5.0

= 3.0

WORK SHEET

W = (2.92 FT) i = (3.0 FT/DAY) (0.0667)

S = .58 CFS/MILE

CONVEYANCE LOSS = (S) (LENGTH OF DITCH IN MILES)

CONVEYANCE LOSS = (.39 CFS/MILE) (1.10 MILE)

CONVEYANCE LOSS = .64 CFS

TOP OF DITCH = W

Section 1 = 3.25
Section 2 = 3.00
Section 3 = 2.5

Total.... = 8.75

/2 or 3... = 2.92 = W

MAP MEASUREMENT

Length in Inches = _____ = A

Map Scale: _____ In. = 1 Mile = B

A/X : B/5,280 = Ft./5,280 = Mile

5788' / 5280' = 1.10 miles =

based on GIS map measurement.

MANNING EQUATION CHANNEL CAPACITY RESULTS

10-29-2001

File Number: A63-5034

Claimant: BRASSEY

Channel measured: DITCH BELOW POD

Date of measurement: 10/24/2001

Measurement location:

Calculation prepared by: MEL SCHULTE

Comments about the measurement:

The results of the calculation are:

The channel cross section is 1.07 ft-sq.

The wetted perimeter is 3.35 feet.

The hydraulic radius is 0.32 feet.

The slope is 0.0065

The roughness coefficient is 0.0250

The flow velocity is 2.256 ft/sec.

The rate of flow is 2.43 cfs.

Re: *Brassey Water Rights*

Dear Mel:

Enclosed please find an original Affidavit from my father, Bart Brassey, with regard to our property near Placerville. If you need additional information from me to prepare your recommendation regarding our claims, please do not hesitate to let me know.

Again, I appreciate all your help in this matter.

Very truly yours,

Andrew C. Brassey

RE: A63-5034 & A63-5047B

Dear Andy:

I'm writing to remind you we still need evidence to support the priority date in the above referenced claims filed in the Snake River Basin Adjudication (SRBA).

I'm currently preparing the recommendations for claims in the Boise Basin and plan to be finished by the end of January 2002. If we do not receive evidence of priority by January 31, 2002 I will have to recommend the claims be disallowed.

Call me at the number below if you have any questions.

Cordially,

Re: Claim No(s) 63-5033,

63-5034, 63-5047B

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

Memorandum

To: File
From: Sue Bock
Date: 01/04/01
Re: 65-5033, 65-5034, 65-5047B

I spoke with Jim Speck today regarding my letter dated 12/12/00. Mr. Speck said that his claimant was irrigating all the land covered under these claims, even if they did not own all of the land, and therefore should have the claims put into their names without splits. I told Mr. Speck the water is appurtenant to the land and that we do not do ownership changes the way he was suggesting. I informed him that he could have his claimant amend their claims and then have the change of ownership done on the amended claims.

Based on the paperwork we received, it appears we incorrectly split right 65-5047. I told him that we could correct this when we have the warranty deed and if needed amended claim. If the ownership is still in dispute, we will need to investigate further.

I have returned the Notice of Change of Water Right Ownership and sent a GIS layout for the area covered by these claims, per his request.

Re: Trail Creek Meadows, Claim Nos. A63-05047B, A63-05033, A63-05034, and 63-02414.

Dear Mr. Speck:

I am responding to your November 16, 2000 letter.

First, the Change of Water Right Ownership cannot be completed in full at this time based on the quitclaim deed provided.

A63-05033 for Domestic and 10 acres of irrigation in Section 28 NESW, is not covered by the deed.

A63-05034 is for 120 acres of irrigation. There are 3 tracks of land not covered in the deed; Section 34 SWNE (15 ac), SENE (15 ac), and the SENW (10 ac).

A63-05047 - prior to ownership split was filed on 181 acres of irrigation. There are 3 tracks of land not covered in the deed; Sec 26 NESW (25 ac), Sec 27 NESW (15 ac), and NWSE (10 ac).

Rather than proceed with a partial ownership change, I will wait for a response.

Second, we have prepared a claim for A63-02414. You are correct; a late filing fee is not required. Enclosed you will find your check for \$50.

Third, the split of claim A63-05047 was based on a Deed of Trust and plat map submitted in 1990. I did note that the Deed does not appear to have been recorded, and therefore may not be valid. However, the split to Taylor is for land located in Sec 26 NESW and Sec 27 NESE, land not covered by the quitclaim deed you provided.

Fourth, I will remind Gary Spackman of the diversion from Trail Creek and ask him to assign someone to look into it. In most instances, alleged illegal surface water diversions are inspected during the irrigation season.

I have enclosed a copy of claim A63-02414, your check for \$50, and profile reports for the above mentioned rights.

Let me know how you want to proceed with regards to the ownership changes. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Sue Bock". The signature is fluid and cursive, with the first name "Sue" and last name "Bock" clearly distinguishable.

**Re: Trail Creek Meadows - Notice of Change of Water Right Ownership - SRBA
Claim Nos. A63-05047B, A63-05033 and A63-05034
SRBA Notice of Claim A63-02414
Our File No.: 980143**

Dear Gary:

My law firm represents Trail Creek Meadows Ranch, an Idaho general partnership. We have recently been retained to review the status of the partnership's SRBA filings for its ranch in Boise County. My review lead to the enclosed documents.

First, a Notice in Change of Water Right Ownership is necessary to reflect the conveyance of the entire ranch property from Bart A. Brassey and Dorothy M. Brassey to their children, and then from their children to the partnership. The required deeds in the chain of title are appended to the Notice of Change in Water Right Ownership. I have also included my firm's Notice of Appearance for the SRBA claims identified in the Notice of Change in Water Right Ownership.

Second, I discovered that licensed Water Right No. 63-02414 had not been claimed. Therefore, we have prepared and enclosed the required Notice of Claim. I am including two checks to pay the filing fee for this claim. One is for \$70 representing the irrigation use in 20 acres of the claimed place of use which do not overlap or were otherwise covered by other claims now in the name of the partnership. The other check for \$50 represents the late filing fee. We request this late filing fee be waived since no attorney was involved on behalf of the claimant in the original filings. If you agree, simply send this check back to me.

Third, I ask you to review the split in SRBA claim A63-05047. Despite several requests, I have been unable to obtain a copy of any deed which would show that Bart Brassey or Dorothy Brassey conveyed any interest in this water right or the land to which it is claimed to be appurtenant to Ralph Taylor or Patricia Taylor. It is our understanding Mr. Taylor acquired property formerly owned by Bart Brassey's brother, Jon Brassey, and that Jon Brassey never claimed any portion of 63-05047. In the absence of a conveyance from Bart and/or Dorothy Brassey to Taylors, the split of Claim A63-05047 is improper.

Mr. Gary Spackman
November 16, 2000
Page - 2

Fourth, Mr. and Mrs. Taylor have constructed a ditch across my client's property to deliver water from Trail Creek to their property. We do not believe water was ever diverted from Trail Creek to irrigate the Jon Brassey property now owned by the Taylors. Furthermore, there is no water right or SRBA claim in Taylors' names which asserts there is a point of diversion on my client's property and the ditch has only existed for a couple of years. We request IDWR to investigate this illegal diversion. Please contact Mr. Andrew C. Brassey, Managing Partner of the partnership, at 208-344-7300.

Finally, I have enclosed an extra copy each of the Notice in Change of Water Right Ownership, Notice of Appearance and Notice of Claim. Please receipt date stamp these copies and return them to me in the stamped, pre-addressed envelope enclosed for that purpose.

Please contact me right away if you have any questions about the matters addressed in this letter. Thank you.

Sincerely yours,

A Tribute to Willis Brassey

By Spike Ericson

Willis C. Brassey, one of Boise Basin's well-known residents died of natural causes Sunday, September 9, 1984 in a Boise hospital. He was almost 90 years old. From 1916 to 1940 he lived in Placerville. His parents, Cenia and Christian Brasse, moved to Idaho from Nevada in 1880 according to records from the State Historical Society. Christian changed the family name from Brasse to Brassey so that his mail would not be confused with his neighbor's, who spelled their name Braase.

Willis Brassey was born in Middleton in 1894 and grew up from age five in Pearl, Idaho. In the small mining camp of Pearl young Willis learned all about the mining trade. When he was 18 he was driving the mail from Horseshoe Bend to Pearl. The next year he worked 500 feet down in a mine near Placerville. Right away he opened his own "auto livery" business running passengers between Boise and the Placerville-Centerville area for \$5.00 per person. He had saved money through his various jobs and bought a 1915 Studebaker which he soon traded in on a new 1916 seven-passenger Cadillac. He left this thriving business in 1917 to join the war effort and spent two years in France with the 20th Engineers division of the Army. When he returned home he bought a logging truck and supplied many of the area mines with timber.

Brassey also hauled ore to Centerville and to the Boise assay office from the Gold Hill, the Belshazzar, the Mountain Chief, and the Mayflower mines. All the ore went through the mills at the mines and the concentrates were hauled down along with his timber runs. The concentrates were stored at the mills during the winter. Sometimes as much as five- to seven-hundred tons would be hauled by Brassey in the spring to Centerville, where it would be loaded in to boxcars and shipped to Murray, Utah to recover the gold values. With his old Cadillac Brassey often hauled gold retorts, melted down at the mills, to the Boise assay office. One chunk from the Gold Hill was worth \$51,000. He kept the "Gold buttons" in an oak box under the seat of the stage car and the passengers never knew there was any such cargo. The assay office was a very efficient, very good agency of the government in those days. "It really was the thing that started the development of this whole area around here. That's why the people came here in the first place, was the mining; that's all that ever brought 'em."

Brassey continued hauling ore until 1931 when that big forest fire came into the Boise Basin. That burned all the mines up there... And there's really been no mining to amount to anything up there since

William Brassey at age 25

Willis C. Brassey 1894 - 1984

Brassey, who was almost caught in the fire when it broke out said it was started by a man who came over the Jerusalem Summit with a couple of horses; and "he must have thrown a cigar or a match on the road up near the Belshazzar mine about 11 O'clock on the morning of August 18, 1931. The fire kept running and going until a snow storm really put it out near Summit Flat that fall. It burned down the whole of Quartzburg. Burned down the mining plant and everything. A real disaster for the Boise Basin - burned down the power lines and everything."

In about 1940 he moved to Boise where he bought property for a housing development and worked as a contractor in this area for many years.

Considering his rich life and many experiences Brassey thought he was privileged: "I always credit the Lord for taking us to the right place at the right time for a great many of

Brassey is survived by his wife, Josephine Fairchild Brassey, also from a pioneer family, and his three sons, Bart, Vernon and John. Vernon Brassey is a State Legislator and John Brassey also served the state in that capacity. Brassey left ten grandchildren and five great grandchildren. His funeral was held Wednesday, September 12 at Saint Michael's Cathedral, Boise and he is buried at Star Cemetery, just a few miles from his birthplace.

(Ed. note: Quotations reprinted by permission of the Idaho State Historical Society Library. Taken from the Oral History transcript #OH-16. Willis Brassey was interviewed and recorded in December, 1974, by Annabelle Alexander.)
