933 ACRES TOTAL

The place of industrial use authorized by this right includes land upon which wastewater may be applied for irrigation purposes to satisfy water quality requirements. Water diverted under this right for industrial purposes shall not be used for irrigation unless the water is first used in the industrial facility as authorized by this water right.

This right is limited to the irrigation of 89 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

~~No beneficial use found.~~

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Use of this right is combined with water from Pioneer Dixie Ditch Co. The following rights are diverted through points of diversion described above: 63-4968, 63-5036, 63-5038, 63-5039, 63-2731, 63-5037, 63-21537, 63-21541 and 63-7678.

~~No beneficial use found: This is included for a claim based on beneficial use that is proposed to be disallowed because beneficial use of water was not confirmed by IDWRs field examination or by other evidence submitted by the claimant.~~

933 ACRES TOTAL

The place of industrial use authorized by this right includes land upon which wastewater may be applied for irrigation purposes to satisfy water quality requirements. Water diverted under this right for industrial purposes shall not be used for irrigation unless the water is first used in the industrial facility as authorized by this water right.

This right is limited to the irrigation of 89 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Use of this right is combined with water from Pioneer Dixie Ditch Co.

The following rights are diverted through points of diversion described above: 63-4968, 63-5036, 63-5038, 63-5039, 63-2731, 63-5037, 63-21537, 63-21541 and 63-7678.

Case No. 39576) ORDER SETTING SUBCASE(S)
FOR INITIAL HEARING
SUBCASE NOS: SEE ATTACHED EXHIBIT A

The Initial Hearing for this subcase will be held before
Special Master THEODORE R. BOOTH

THURSDAY, JUNE 05, 2008 at 02:45 PM (MT)
NAMPA
120 - 9TH AVE S
NAMPA, ID

ATTENDANCE IS MANDATORY. All parties are required to
attend and must have full settlement authority.

At the Initial Hearing you will have an opportunity
to meet with a representative of the Idaho Department of
Water Resources (IDWR) and/or the objector in an attempt
to reconcile any difference between the claim and the
Director's Report. Bring any and all information you
believe is relevant to your claim and/or objection. If
the claim cannot be reconciled at the Initial Hearing,
the court will set the subcase(s) for trial within 45
days of the Initial Hearing. IF YOU INTEND TO AMEND YOUR
CLAIM, YOU MUST DO SO AT OR BEFORE THE INITIAL HEARING.

Settlement documents must be filed with the court by
JUNE 02, 2008 or hearing will not be vacated.

IT IS SO ORDERED.

Re: Canyon County Claims to Water Rights

Dear Vic:

We have not received any evidence of priority for the following claims: 63-21537 (stock water & commercial uses), 63-21541, 63-21557, 63-21559, 63-21561, 63-21598 (all stock water claims) and 63-22210 (expansion of Rt. 63-2291 from Bardsley Gulch). We need some type of documentation of the date of priority for these claims in order to change the recommendations that were previously made.

We also need to have some documentation showing when the rights utilizing the 14 wells and 14 pumps were integrated into one system. Claims 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-7244, 63-7678, 63-10034, 63-21537, 63-21538, 63-21539, 63-21540, 63-21541, and 63-21595 are the rights I find under the claimed combined system. Information in our files does not indicate when the wells were incorporated into one system and until we receive some documentation to show that they were integrated before November 19, 1987, we will not be able to recommend the water rights as claimed. The recommendations will reflect the rights as previously recorded unless we receive this information.

It is also noticed that our Department has previously requested completion of "Industrial Use Volume" questionnaires for the rights that include industrial and/or commercial uses. Please note that a portion of Adjudication Memo No. 34 states:

1. Ground water rights

All rights recommended with a source of ground water are to include annual diversion volume, except for ground water rights or portions of ground water rights used solely for:

- a. small D&S purposes as defined by Idaho Code §§ 42-111 or 42-1401A (5) and (12), in which a diversion volume has not been previously determined.
- b. municipal purposes,
- c. fire protection purposes.

SCANNED
APR 29 2011

2. Other rights

All other rights to be recommended based on a license or decree that stated an annual diversion volume limitation are to include annual diversion volume.

We would certainly appreciate any information you can supply that would assist us in determining the volumes to be attached to the rights that are being used for industrial and/or commercial uses. If you need to have the questionnaire form sent to your again, please do not hesitate to contact me. If no information is received we will base the volume amounts on what we determine is necessary for the claimed uses.

Please submit all the requested information on or before **January 31, 2008**. Once we receive the information we will need to conduct field examinations on the claims that were not previously substantiated. If you have any questions concerning this letter, or if you need additional time to submit the requested information, please do not hesitate to contact me at 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

Hi, Vic...

Thanks for your quick response! I don't need to meet with the retired maintenance man – he just needs to write an affidavit of his recollection of when the system was interconnected and any other information that he can provide in support of the claims.

We gathered water use records on the question of the annual volume used in the plant. I am trying to reach the maintenance man who operated the water system on the feedlot. This person is retired, but is living in Caldwell. He will be able to confirm that all of these points of diversion were connected long before 1987. I just need to connect with him. Once I reach him, would you like to meet him to ask about the water system?

Re: Canyon County Claims to Water Rights

Dear Vic:

I have finally had a chance to go through the claim files, previously assigned to Kimberly Brown, and find we need to have additional documentation in regard to these claims prior to conducting the field examinations.

We have not received any evidence of priority for the following claims: 63-21537 (stock water & commercial uses), 63-21541, 63-21557, 63-21559, 63-21561, 63-21598 (all stock water claims) and 63-22210 (expansion of Rt. 63-2291 from Bardsley Gulch). We need some type of documentation of the date of priority for these claims in order to change the recommendations that were previously made.

We also need to have some documentation showing when the rights utilizing the 14 wells and 14 pumps were integrated into one system. Claims 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-7244, 63-7678, 63-10034, 63-21537, 63-21538, 63-21539, 63-21540, 63-21541, and 63-21595 are the rights I find under the claimed combined system. Information in our files does not indicate when the wells were incorporated into one system and until we receive some documentation to show that they were integrated before November 19, 1987, we will not be able to recommend the water rights as claimed. The recommendations will reflect the rights as previously recorded unless we receive this information.

It is also noticed that our Department has previously requested completion of "Industrial Use Volume" questionnaires for the rights that include industrial and/or commercial uses. Please note that a portion of Adjudication Memo No. 34 states:

1. Ground water rights

All rights recommended with a source of ground water are to include annual diversion volume, except for ground water rights or portions of ground water rights used solely for:

- a. small D&S purposes as defined by Idaho Code §§ 42-111 or 42-1401A (5) and (12), in which a diversion volume has not been previously determined.
- b. municipal purposes,
- c. fire protection purposes.

2. Other rights

All other rights to be recommended based on a license or decree that stated an annual diversion volume limitation are to include annual diversion volume.

We would certainly appreciate any information you can supply that would assist us in determining the volumes to be attached to the rights that are being used for industrial and/or commercial uses. If you need to have the questionnaire form sent to you again, please do not hesitate to contact me. If no information is received we will base the volume amounts on what we determine is necessary for the claimed uses.

Please submit all the requested information on or before **September 28, 2007**. Once we receive the information we will need to conduct field examinations and the SRBA Court has indicated they would like the field inspections done this fall so we can submit revised recommendations on the rights that have been objected to. If you have any questions concerning this letter, or if you need additional time to submit the requested information, please do not hesitate to contact me at 334-2190.

Sincerely,

10. **I object because:**

☐ This water right should not exist.

☒ This water right was not recommended, but should be recommended with the elements described above.

REASONS SUPPORTING OBJECTION(S):

Information was supplied to the IDWR in connection with their request for evidence of priority for this claim. This information included a copy of an aerial photograph dated June 12, 1949 showing Simplot's food processing plant; a newspaper article from the September 6, 1941 edition of the Caldwell News-Tribune describing the original construction of Simplot's food processing plant; a large format Oregon Short Line Railroad Station Map referencing Simplot's water line encroachments dated August, 1944; and a large format Site Plan dated 1947 referring to the "To New Well, Aug. 1947" (the original point of diversion for this water right) all of which materials are contained in the files of the IDWR. However, said information was supplied after the IDWR completed its 2006 field work season. Because of the IDWR's accelerated reporting schedule, the IDWR advised Simplot that it did not have time to schedule an examination to verify the water uses claimed before the Director's Reporting deadline.

The information described above was attached by the claimant to the Notice of Error filed in response to IDWR's preliminary recommendation for this water right. The IDWR has informed the claimant that, based on the above described information, an examination of the claimant's water

systems will be scheduled to confirm the uses claimed. The claimant looks forward to cooperating with the IDWR in providing access to the water systems for the examination and will also assist the IDWR in supplying any available additional information that may be necessary for the recommendation of this water right.

VERIFICATION (Must be Completed)

To: 'Conrad, Vic'
Subject: RE: Notice of Error Replies

Mr. Conrad,

You misinterpreted my message. The department does not "default to disallow any statutory claim regardless of the level of proof provided."

In the majority of cases, when the department requests evidence of priority more than once and it is not provided by the deadline imposed, the claim is disallowed due to lack of evidence. Unfortunately and most often, it is not until the claimant receives the Preliminary Recommendation with a status of disallowed; that they suddenly submit evidence of the priority date at the tail-end of the recommendation process. In this case, if the evidence is sufficient, the department will remove the disallowed status and recommend the claim.

In your case, you also provided evidence after the deadline it was initially requested and, based on my precursory review of the evidence you submitted for 63-4968, 63-5036, 63-5037, 63-5038, and 63-5089 on October 13, 2006; it is sufficient. Therefore, our department would traditionally remove the disallowed status and recommend those 5 specific claims at this time. However, since you only provided evidence for 5 claims in an interconnected system that you are still in the process of searching for evidence for the other 9 "common system" water rights involving the same wells and ALL of the 14 claims listed on your cover letter (not just the five) will require field investigations; we do not have enough information* at this point-in-time to remove the disallowed status and recommend the five claims you submitted the evidence for.

*In addition to the request for evidence for your statutory claims, I requested that you also submit completed Industrial and Commercial Use Volume questionnaires in order that our department could calculate an annual volume for each claim (see attachment). However, we did not receive any completed volume questionnaires.

Nick Spencer stated that, since you are not done gathering evidence and all 14 claims in this common system will require additional field work as well, we will obviously be working with you during the objection resolution process to get everything put together.

Subject: RE: Notice of Error Replies

Kimberly,

I am a little confused. Do you intend to disallow 63-4968, 63-5036, 63-5037 and 63-5039; even with the 1949 photo showing the Caldwell plant, the 1947 site plan referencing these the points of diversion which is the source of industrial use claimed, the 1941 newspaper article showing the plant under construction and an offer to meet with you to determine which of several other old photographs we have available to copy for you?

Apparently there has been a shift in the IDWR's treatment of claims filed in the SRBA. We are now seeing the department default to disallow any statutory claim regardless of the level of proof provided to support the priority date claimed. I assume the change is the result of IDWR's haste to file Director's Reports with the SRBA Court? Is this correct?

Subject: Notice of Error Replies

Mr. Conrad,

The Notice of Error Replies and evidence of priority you submitted for Claim Nos. 63-4968, 63-5036, 63-5037, 63-5038, and 63-5039 were received by our department on October 31, 2006. However, since you are still in the process of searching for evidence of priority for the other water rights involving the same wells and all of the 14 claims listed on your cover letter will require field investigations, we do not have enough information, at this time, to change our recommendations of disallowal.

Re: SRBA Basin 63; Part 3.

Dear Ms. Brown:

Enclosed for filing are notices of error for the preliminary recommendations issued by the IDWR to each of the following claims:

Claim Number	Comments
63-4597	This land to which this claim is appurtenant is no longer owned by the J. R. Simplot Company ("Simplot"). Simplot is filing this notice to correct the name and address so further correspondence can be forwarded to the current owner.
63-4968	Well #2
63-5036	Well #1
63-5037	Well #6
63-5038	Hog House Well
63-5039	Well #3
63-21537	Hospital Well
63-21541	Artesian 500 Well
63-21557	Hog Pen Well
63-21559	Amustegie Well
63-21561	Moppen Well
63-21598	Martin Silo Well
63-21734	Land that receives process water from Food Processing Plant
63-22210	Additional land that was irrigated from Bardsley Gulch after the licensing exam was conducted for water right no. 63-2291.

In addition to the above claims, we will soon file additional claims for certain areas that are irrigated from sources located south of Simplot's food processing plant near Caldwell, Idaho. Evidently these irrigated areas were not claimed during the original claims taking procedure. We have numerous photographs that will assist in verifying dates when this land was irrigated. In addition we recently ordered several photos from

the USDA Aerial Photography Field Office ("APFO") in Salt Lake City, Utah taken during 1955, 1957, 1964, 1969 and 1977. If you can be available, I recommend we schedule a time when we can review the photos we have available at this time. During this meeting you can then instruct me which (if any) you would like me to copy for your records. We will then supplement these photos with the images from the APFO when they arrive.

Sincerely,

A handwritten signature in blue ink, appearing to read "Vic Conrad". The signature is stylized, with the first name "Vic" written in a cursive-like script and the last name "Conrad" written in a more formal, blocky style.

**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: October 31, 2006

Water Right Number: 63-5039
J. R. Simplot Company
PO Box 27
Boise, ID 83707 Telephone Number 208-336-2110

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The water right holder disagrees with the IDWR's disallowal of the water right.

2. Describe the changes you wish to make in the proposed recommendation:

The water right should be recommended as claimed.

3. Give a brief explanation as to why you disagree with these portions:

Please see the attached copies of the following:

- ✓ 1) Article from Caldwell Press Tribune (predecessor of the Idaho Press Tribune) dated September 6, 1941.
- 2) Oregon Short Line Railroad Station Map; C.E. Drawing No. 54227 referencing Simplot's water line encroachments existing in August, 1944.
- ✓ 3) Aerial photo dated June 12, 1949 showing the plant which is the location of the industrial water use described under this water right.
- ✓ 4) 1947 Site Plan referencing the "To New Well, Aug. 1947" which is the original point of diversion for this water right.

_____ I AGREE with this proposed recommendation; no changes need to be made.

J. R. Simplot Company

CONSTRUCTION ON ONION DEHYDRATING PLANT

CONSTRUCTION work on Caldwell's new onion dehydrating plant, on the Wilder railroad spur, two miles west of Caldwell, is making good progress and the plant will be ready for occupancy by October 1, the contractors reported today. Foundations for the cinder-block walls for the two main structures are completed and work on the walls will start at once. The building in the west end, to be used as a pack room and for storage, is to be 54 x 80 feet, and the east end structure will be 100 x 80 feet. Floors will be of concrete and the buildings are to have built-up roofs. Whelchel & Park and Bunn and Kyle are the contracting carpenters. All materials are being purchased locally. The plant, owned by J. R. Simplot, is located on a five-acre site which was purchased by the Caldwell Chamber of Commerce and contributed to Mr. Simplot. The Chamber directors feel that the plant will have great commercial value to Caldwell because of its large payroll and also that it will provide a dependable market for hundreds of cars of onions grown by farmers in the Caldwell trade area. Several thousand sacks of onions have already been delivered to the plant and are being stored in a temporary building pending the completion of the main buildings.—News-Tribune Photo.

Two Tankers Arrive At Vladivostok Safely

By LLOYD TERRAS

WASHINGTON, April 10.—Two American oil tankers arrived today for the first time since the Japanese blockade of the Pacific. The tankers, the American tanker "Seymour" and the Soviet tanker "Siberian," arrived safely at Vladivostok after a long voyage. The Japanese blockade of the Pacific has been a major factor in the war between the United States and Japan. The American tanker "Seymour" was the first to break through the blockade. The Soviet tanker "Siberian" was the second. The Japanese blockade of the Pacific has been a major factor in the war between the United States and Japan. The American tanker "Seymour" was the first to break through the blockade. The Soviet tanker "Siberian" was the second.

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-5039 V1

1. P13 No beneficial use found: This is included for a claim based on beneficial use that is proposed to be disallowed because beneficial use of water was not confirmed by IDWRs field examination or by other evidence submitted by the claimant.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
3. P03 No beneficial use found.

Remarks:Comments:

1. kbrown 9/20/2006 Reason for Disallowal

Comment: A request for evidence of the priority date and industrial use volume was sent on 3/22/06; with a due date of 4/19/06. When nothing was received by 4/19, I sent an email message to Vic Conrad, Simplots attorney, on 5/30/06. In response, Mr. Conrad called and spoke with me on 6/06/06 and, per our conversation, the due date was extended to 6/09/06. When nothing was received by June 9th, I sent a second email message to Mr. Conrad on 6/14/06 and, as of this date, no evidence of priority and no industrial use volume have been received. Therefore, this claim is being disallowed due to lack of evidence of the priority date. (See file for copies of the email messages and the conversation memorandum.)

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

MAR 18 1983

Department of Water Resources

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that J. R. Simplot Company

(Name of Claimant)

P.O. Box 27, Boise, ID

(Mailing Address)

83707

(Zip Code)

Telephone No. 336-2110

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 1947, Sept 15

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Ground water tributary to

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity	(cfs, af)	Use	(Domestic, Irrigation, Stock, Etc.)	Period of Use From		(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)		
Quantity <u>1.78 cfs</u>		Use <u>INDUSTRIAL</u>		Period of Use From <u>Jan. 1</u>	To <u>Dec. 31</u>		
Quantity <u>1.78</u>		Use <u>IRRIGATION</u>		Period of Use From <u>3/15</u>	To <u>11/15</u>		
Quantity		Use		Period of Use From	To		
Quantity		Use		Period of Use From	To		
Quantity		Use		Period of Use From	To		

- (4) 1.78 cfs TOTAL QUANTITY USED.

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

NE 1/4 SE 1/4, Sec. 19 Twp. 4N Rge. 3W B.M., County of Canyon

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Well #3, 16" casing at bottom, 800 gpm, 184' depth, 90# pumped pressure

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

NOTE: "*" indicates water used for irrigation after processing.

Indicates water used for irrigation after processing.

To: 'vconrad@simplot.com'
Subject: Commercial/Industrial Use Volume for Simplot Canyon County claims

Mr. Conrad,

When I spoke with you over the telephone on June 6, 2006 regarding my request for evidence of priority and industrial and commercial use volumes for several of Simplot's Canyon County claims, you said that you believed there are no restrictions on volume or consumption, provided the diversion rate does not go beyond what is licensed. I replied that I was not aware of any such policy and that I would speak to my supervisor, Jan Shurte, regarding your assumption.

I met with my supervisor on June 12, 2006 and addressed this issue. Mrs. Shurte is not familiar with any such policy, either. Nevertheless, Mrs. Shurte and I checked several Adjudication and Administrative Memorandums and could find nothing that was applicable.

Therefore, the volume amounts for commercial and industrial uses that I requested from Simplot are required for both beneficial use and licensed claims. Mrs. Shurte suggested that you may want to refer to Idaho Codes 42-1427(2) and 42-1409(i) or speak to Dave Tuthill if you have any further questions regarding this matter.

In addition, I would like to reiterate that our department is under a very tight schedule in the recommendation of Canyon County water right claims, that several of your beneficial use claims will require a field investigation (which is initiated after we receive evidence of priority), and that all of this required information had initially been requested to be submitted by Simplot on April 19, 2006. When nothing had been received by our department on April 19th, another request was made for June 9, 2006. As of this date, nothing has been received. I ask that you provide evidence of priority and the required commercial and/or industrial use volumes as soon as possible.

Respectfully Submitted,

Kimberly Brown
Senior Water Resource Agent
Western Region

CONVERSATION MEMORANDUM

RE: Evidence of Priority and Commercial/Industrial Use Volume Requests for Simplot's Canyon County Claims

June 6, 2006

Vic Conrad, Water Rights Attorney for the J. R. Simplot Company, called in response to my most recent request for evidence of priority and commercial/industrial use volume requests for all of their applicable claims that I have in Canyon County (see previous e-mails and letters for specific claim numbers).

Regarding the evidence of priority that I have requested several times, Mr. Conrad said that he has been "bogged-down" with evidence of priority requests for Caribou County; which are due on June 16th, 2006. I reminded Mr. Conrad that the Canyon County requested information was due on April 19th, 2006 and when nothing was received, that the due date was extended to June 9th. I also mentioned that our department is under a very tight schedule in the recommendation of Canyon County water right claims and that several of Simplot's beneficial use claims will require a field investigation; which is normally initiated only after we receive evidence of priority.

Regarding the request for industrial/commercial use volumes for licensed rights, Mr. Conrad said that he believed there are no restrictions on volume or consumption; provided the diversion rate does not go beyond what is licensed. Mr. Conrad said that he believed that this policy originated with a department memorandum or a policy memorandum written by Norm Young. I replied that I was not familiar with any such policy, but that I would speak with my supervisor, Jan Shurte, regarding this assumption and get back to him within the next few days.

Subject: Evidence of Priority for Simplot claims in Canyon County

Mr. Conrad,

In March 2006, I sent letters requesting evidence of priority for Claim Nos: **63-4597, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-21537, 63-21541, 63-21557, 63-21559, 63-21561, 63-21598, 63-21734, & 63-22210** (please refer to the first attached document for an example of this letter.) In addition, a Commercial/Industrial Use Volume questionnaire was also included for those claims that include commercial and/or industrial uses (example attached).

As you can see, the due date for evidence for many of these claims was **April 19, 2006**. As of this date, I have not received any completed volume questionnaires or evidence of the claimed priority dates from your company. Since our department is under a very tight schedule in the recommendation of Canyon County water right claims and all of your claims listed above will require a field investigation, I request that all of the required information associated with these claims be submitted by **Friday, June 9, 2006**.

Please contact me at #334-2190 if you have any questions.

Respectfully Submitted,

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-5039

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 19, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

RE: Industrial use for Snake River Basin Adjudication claim 63-5039

To Whom It May Concern,

The Idaho Department of Water Resources is currently reviewing the claim to a water right you filed during claims taking in the Snake River Basin Adjudication (SRBA). During the initial review of this claim, we found that you claimed a commercial use that requires a volume amount be included in our recommendation to the SRBA Court (please refer to the enclosed copy of your adjudication claim report: under **Annual Volume**). In order for us to calculate your annual volume, it is necessary that we ask for additional information not gathered when you, or the original claimant, filed this water right.

Please refer to the **Industrial Use Volume** sheet (enclosed), answer the appropriate questions as specifically as possible, and return it to this office by April 19, 2006 so that we are able to calculate the annual volume associated with your water right; as required by the SRBA Court.

This review of your claim, in addition to the submittal of our recommendation to the SRBA Court, will result in a decreed right for your property. This water right then remains with the land as long as it is being used. We will give you the opportunity to review our recommendation and provide feedback, if necessary, prior to its submittal to the SRBA Court.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,

A handwritten signature in cursive script that reads 'Kimberly Brown'.

SIMPLOT TRANSFER APPLICATION 68320
NOT VALID – DISREGARD

March 23, 2006

Database showed this application received 5/19/1995. A receipt for this application was not found (receipt for Simplot was issued 5/18/1995 for a drilling permit application, W019190, see next paragraph). The transfer application cannot be found at Western or State Office, nor can any additional hints be located in the database (Steve L. & Pam S.). Vic Conrad of Simplot confirmed that the transfer was drafted but never filed.

For undetermined reasons, the application showed up in the database as an active filing during 2006 research (dept. help for owner during crisis?). This appears to be linked to a well failure crisis at the Simplot feedlot and production plant in Caldwell in 1995 while owner sought relief for a replacement well in a tract other than one covered by an existing right. Draft transfer was to seek approval for a new P/D location. But the business unexpectedly shut down due to unforeseen economic conditions, according to Vic Conrad. The replacement well was drilled but never used and has remained unused.

Meanwhile, Simplot filed ***SRBA claims for accomplished transfers*** of existing rights in which all the wells for the site were shown to be alternate P/D for all the rights (aka “permissible p/d” filings, not uncommon to see this). The replacement well drilled in 1995 was properly excluded from this adjudication work. Simplot will file a transfer in the future if the replacement well will be used. Based on this summary obtained by 3/22/2006 research and confirmed by Vic Conrad, Transfer Application 68320 was terminated in the database today (coded as “withdrawn/returned” as best fit for actual status).

Subject: RE: Transfer application for Simplot Plant in Caldwell

Steve,

I found the project file when we drafted a transfer to replace a point of diversion (a well) that failed in this water supply system. After drafting the transfer we discovered there was adequate water to supply our needs without the new point of diversion. Consequently the transfer application was never filed. Please delete the electronic record indicating there is a pending transfer application involving these water rights (since there isn't one). At some point in the future we may want to file a new transfer application to add this new point of diversion to the system – and we may find some other details that we will need to rectify when Kimberly investigates this water supply system in connection with her SRBA review of our claims. Should that need arise, it will require a *new* transfer application. I do not see any reason to keep the reference to the old transfer we were contemplating in your system.

To: Conrad, Vic
Subject: Transfer application for Simplot Plant in Caldwell

Vic:

Attached is the summary sheet for what we both thought was a "ghost transfer application" -- not really filed or needed since covered by SRBA claims for pre-November 1987 water uses. Please let me know if that conclusion matches your records.

IDWR should be able to clean up its records if we are correct in our hunch.

Thanks for your help with this.

To: Lester, Steve
Subject: Mystery Transfer 4615/68320

Hi Steve,

This transfer doesn't appear to have ever reached the state office per the bar code on these records, so I think you are probably correct that it was one that was data entered (received on 05-19-1995 per workflow) & perhaps withdrawn or returned. There was an adjusted receipt on 05-18-1995 for Simplot in the amount of \$200 DP fee that might have originally accompanied a transfer application.

Anyway.....when you resolve the mystery....if it is still an "Active" application, we will of course continue processing, but if it was withdrawn/returned could you please be sure to "Terminate" the transfer in the database with the appropriate status & an explanation comment. That way we won't have to revisit this one at a later date.

Thanks,
Pam

RE: Snake River Basin Adjudication (SRBA)
Co-counsel for J. R. Simplot Company

Dear Ms. Pepe:

Our records were modified May 19, 1994, to reflect Terry Uhling and Gray Young as co-counsel for J. R. Simplot Company. Bruce Belzer was removed from the water right claim records on which he appeared as counsel.

Thank you for your assistance. If you have any questions, please contact me.

Sincerely,

Sally Sherman

RE: Snake River Basin Adjudication
Case No. 39576 and Subcase Nos. 36-13320 & 57-02203A

Dear Mr. Shaff:

In response to your letter of March 24, 1994, please modify your records to reflect that Terry T. Uhling and Gray Young are co-counsel of record in the above referenced matter. Mr. Uhling and Mr. Young are in-house counsel for J. R. Simplot Company, and, therefore, would be apprised of all matters relating to the claims of Simplot and its related company subsidiaries and affiliates as a matter of course. The attached Exhibit A does represent all water rights we are aware of at this time to which the Notice applies.

For your information, I have also enclosed a copy of a letter and attached Notice of Withdrawal from Diana Delaney, Chief Deputy Clerk of the Snake River Basin Adjudication Clerk's Office, which indicates that Bruce Belzer never was recorded as being counsel for J. R. Simplot Company.

If you have any questions, feel free to call me at 389-7201.

Sincerely,

Holly Pepe

RE: Appearance of J. R. Simplot in Subcase Nos. 36-13320 and 57-02203A

Dear Mr. Young and Mr. Uhling:

Enclosed I am returning your *Notice of Withdrawal of Counsel* which was received by the court on April 5, 1994, and which stated that Bruce L. Belzer was withdrawing as counsel for J. R. Simplot Company in the above-referenced subcases.

After a search of the files for the above subcase, I am unable to locate any appearance by Bruce L. Belzer. However, on January 28, 1994, a *Notice and Entry of Appearance* was filed on behalf of J. R. Simplot in these subcases. That notice listed Gray Young and Terry Uhling as counsel for J. R. Simplot.

Sincerely,

A handwritten signature in cursive script, reading "Diana R. Delaney".

Diana R. Delaney
