RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-5240

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Please submit the required evidence supporting the priority date(s) by **March 28, 2006**.

Please let me know if have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau

Enclosures: Notice of claim report for A63-5103 and "Evidence of Priority" brochure

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NO. 63-5240
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN
REGION
SUBJECT: BASIS FOR RECOMMENDATION
DATE: 5/4/2006
CC:

This is a beneficial use claim for 5 acres of irrigation at .03 cfs/ acre and .02 cfs stockwater for a total flow of .17 cfs. Claimed priority date is 1950. Claimant has license 63-10127 for 4.3 acres irrigation and domestic use. My recommendation reduces acres, quantity and advances priority date. Rationale follows.

Priority date

Letter request for evidence of priority sent to claimant. He called in when he received and I explained what I needed. Claimant sent letter in which he guesses that the prior owners' house was built around 1950. That did not adequately justify priority date.

Canyon Co Assessor tax lot info states house [address provided by claimant: 420 S Midland Blvd, Nampa, currently owned by Ray Bright] was built in 1960. I advanced priority date to 1960.

Quantity

Claimant filed statutory claim in 1983 in which he describes diversion system as a $\frac{3}{4}$ hp pump from a 6" diameter well.

Subcontractor Karen Waters took field photos in 2002. In the claim file is a picture of the pump. The pump information on the pump states that it is a $\frac{1}{2}$ hp pump. The pump also contains this label, "shallow well jet pump RJS series. Provides pressurized water for domestic water systems. Suitable for wells up to 25 ft deep..." last line of label not legible because the photo was taken at an angle.

Claimant provided with his response to my letter a copy of a pump receipt dated 1989 for a Fairbanks Morse Jet pump, $\frac{1}{2}$ hp. However the label from the pump photographed during the 2002 field exam is a Red Lion.

In 2002, the subcontractor calculated flow at .05 cfs. I recalculated assuming a static water level of 15' because the well log for claimants' other well indicates 15' is the

static water level, and 20 psi for domestic. I got the same flow, .05 cfs and this is what I recommended for the combined stockwater and irrigation uses.

POU/ acres

Claim was for 5 acres but all information strongly suggests that the well was put in as a domestic well and did not irrigate 5 acres. There is no information on the claim file or the license file for the overlap regarding whether surface water was historically use but the property is bounded by the Wilson Drain on the south and the Edwards lateral on the north so it is likely, especially because the property looks irrigated in the 1939 aerial.

I reduced acres to 3 and assume that the claimant transferred the use from domestic to irrigation when he bought the property in 1972 and used the well water to supplement irrigation canal water.

Re-Adjudication Claim Report: 63-5240

I purchased 10 acres of land surrounding the home of Mr. and Mrs. Tuckness in 1972 (survey date). [Both Mr. and Mrs. Tuckness since are deceased]

A well was located approximately 500 feet south of their 1 acre homesite at the old hog barn. The well agreement stated that Tuckness could use water from the well as long as needed for their residential needs.

I estimate that their home was built in approximately 1950.

Water use at the hog barn probably preceded this date.

My address is 604 south Midland Blvd. Tuckness's home (under new ownership several times since Tuckness lived there) address is 420 South Midland Blvd.

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 30, 1983; and has submitted Proof of Beneficial Use on August 5, 1988. An examination indicates that the works have a diversion capacity of .150 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.11 CFS	19.4 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Total diversion is 0.11 cfs (irrigation only per examiner's info in D2).

* Overlap

63-08240 is older well for 5 other acres that make up owner's 9.5 acre site. See attached claim, pg 2, remarks. The well in permit is a 1984 well (well irrigation form, attached).

* PERMIT - 4.5 ac. .04 cfs irrig. is for .03 cfs/ac.

* Exam (4.3 ac) (.03 cfs/ac) = .13 cfs

measured for irrigation = .11 cfs; this is the limiting factor.

There is no info in exam to conclude that Total Right should be restricted to measured irrigation flow.

1 acre equals 43,560 square feet.

1 acre inch equals 27,154 gallons.

1 cubic foot equals 7.48 gallons.

The height of an equilateral triangle is .866 times its base.

The discharge of a nozzle is in proportion to the square of its diameter and the square root of the pressure.

For greatest economy a pipe system should be so designed that the annual cost of power lost by pipe friction equals 40% of annual fixed cost of pipe.

WELL AGREEMENT AND OPTIONDATE AND PARTIES:

THIS AGREEMENT, made and entered into this 11th day of ~~July~~ ^{AUGUST}, 1972, by and between LEON D. McGOLDRICK and DELORES A. McGOLDRICK, husband and wife, hereinafter called First Parties, and J. A. TUCKNESS and ELENA A. TUCKNESS, husband and wife, hereinafter called Second Parties,

W I T N E S S E T H:

THAT WHEREAS, First and Second Parties entered into that certain Agreement bearing date of July 30, 1972, wherein Second Parties agreed to sell and convey unto First Parties, and First Parties agreed to purchase from Second Parties a tract of land situated in the SW 1/4 of the SW 1/4 of Section 28, T3N-R2W, B.M., Canyon County, Idaho, and lying SWrly of the irrigation canal known as the Bray Lateral. This tract is also described from the official plat of Wigle's Subdivision of the S 1/2 of the SW 1/4 of Section 28, T3N-R2W, B.M., on file in the office of the Recorder of Canyon County, Idaho, as part of Lots 12, 13, 14, 15 and 16, more particularly described as follows:

Commencing at the SW corner of said Section 28, T3N-R2W, B.M.; thence N0°16'30"E along the West boundary of said Section 28 a distance of 627.76 feet to the Real Point of Beginning which is the intersection of the said West boundary of Section 28 with the center line of the Wilson Drain Ditch; thence S79°39'E along the center line of the Wilson Drain Ditch a distance of 292.33 feet; thence S75°30'E along the center line of the Wilson Drain Ditch a distance of 54.54 feet to a point; thence N78°21'30"E a distance of 521.14 feet to a point on the center line of the right of way for the Bray Lateral; thence N27°50'W along the said center line of the right of way for the Bray Lateral a distance of 704.64 feet to a point 20 feet South of the North boundary of the SW 1/4 of the SW 1/4 of Section 28, T3N-R2W, B.M.; thence S89°57'30"W parallel to the said North boundary a distance of 493.36 feet to

an steel pin; thence continuing along said line a distance of 25 feet to the Real Point of Beginning. Containing 10.98 acres.

EXCEPTING rights of way for Bray Lateral, Wilson Drain Ditch and all streets existing or platted; being approximately 1.5 acres, more or less.

Also EXCEPTING a parcel of 1.00 acre more particularly described as follows: A parcel of land located in the SW 1/4 of Section 28, T3N-R2W, B.M., Canyon County, Idaho; more particularly described as follows: Commencing at the Section corner common to Sections 28, 29, 32 and 33; thence N0°16'30"E a distance of 983.75 feet to a point, said point being the Real Point of Beginning; thence S89°43'30"E a distance of 25 feet to a steel pin; thence continuing along said line a distance of 323.48 feet to a steel pin; thence N0°16'30"E a distance of 125.00 feet to a steel pin; thence N89°43'30"W a distance of 323.48 feet to a steel pin; thence continuing along said line a distance of 25 feet to a point; thence S0°16'30"W a distance of 125.00 feet to a point, said point being the Real Point of Beginning. Said parcel contains 1.00 acre.

AND WHEREAS, Second Parties retain their right, title, and interest in and to that certain parcel excepted in the above description, consisting of 1.00 acre,

AND WHEREAS, there is a well situated upon the above described premises being purchased by First Parties,

AND WHEREAS, Second Parties desire the right of sole use and enjoyment of said well and water therefrom,

AND WHEREAS, First Parties desire the first right of refusal to purchase that portion of the above described premises retained by Second Parties, if and when Second Parties choose to sell the same;

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein, and for other good and sufficient consideration, the parties hereto mutually agree as follows:

WELL AGREEMENT:

Second Parties shall have the sole use and enjoyment of the above described well and water therefrom, and shall have the right to convey such water from said well to Second Parties' premises by any reasonable and commonly used method. Second Parties shall have the sole responsibility for the upkeep and operation of said well and the pump and pressure tank connected therewith.

EASEMENT:

First Parties hereby grant to Second Parties an easement on, in, over and across their premises for the purpose of conveying such water and maintaining said well and equipment as aforesaid.

It is expressly understood that said right and easement, as hereinabove provided, shall not be appurtenant to the premises retained by Second Parties, and shall not be a covenant running with said premises, but shall be a right and easement personal to Second Parties only. In the event Second Parties sell the one acre parcel presently retained, or in the event Second Parties drill another domestic well on said parcel, then and upon that event, Second Parties shall relinquish any and all claim to said right and easement as hereinabove described, and said right and easement shall immediately terminate.

TITLE TO PUMP AND PRESSURE TANK:

Provided, however, it is understood and agreed that Second Parties shall retain their right, title and interest in and to the pump and pressure tank connected with said existing well, and shall have the right to remove or dispose of the same, and shall at no time be deemed to have relinquished their ownership of the same unless and until they agree in writing to relinquish said pump and pressure tank, and deliver to First Parties or their successors in interest a bill of sale for the same.

OPTION TO BUY:

Second Parties agree that in the event they shall receive a bona fide offer to purchase the premises retained by themselves, consisting of a house and approximately one acre, as hereinabove described, and such offer of purchase shall be satisfactory to Second Parties, Second Parties agree to give to First Parties the privilege of purchasing the premises at the price and on the terms of the offer so made, said privilege to be given by notice sent to First Parties by registered mail at their place of residence, requiring First Parties to accept the offer in writing and to sign a suitable form of contract of purchase within the period of 3 days after the mailing of such notice. In the event of the failure of First Parties to accept such offer to purchase or sign such contract, within the said period, then and in that event, the privilege to the First Parties herein shall thereupon be null and void and Second Parties shall be at liberty to sell the premises to any other person, firm, or corporation.

HEIR AND ASSIGNS:

This agreement shall be binding upon the heirs, executors, administrators and assigns of the parties hereto.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals the day and year first above written.
