PLACE OF USE:

5869 ACRES TOTAL

Place of use is within the area served by Rexburg Irrigation Company.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

IDAHO DEPARTMENT OF WATER RESOURCES RECOMMENDED
WATER RIGHTS ACQUIRED UNDER STATE LAW

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

~~This right is subject to regulation by the watermaster of Water District No 01.~~

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Water is delivered through Rexburg Irrigation Canal.

This right is former right no. 22-470.

~~This right was originally the decreed right 22-470.~~

~~Right No. 22-469 and 22-11027 are also diverted through point of diversion described above.~~

RECEIVED

FEB 14 2006

Department of Water Resources
Eastern Region

November 28, 1979

a meeting was held at the home of the meeting at 7:00 clock. There

present were down house, Ruth Eubank and Nelson Cook. (Ruth Eubank became father of a baby boy this afternoon) A prayer was offered by Nelson Cook.

The water needs to be turned out of

the canal. All water runs through the canal

after Nov. 1st is changed to next year storage.

In order to fill a water right, we

need a description of all the land in our

system. Ruth Eubank brought a Topical

map of Madison County to show an outline

of land water. Our system water about

6000 acre. We would need to find someone

to write up the description, also to find

out from Element-Madison (Rivers water)

where our line is so we do not use

water on land not in our system. We

need to fill on so much water so we

can and also need to use the full

amount at least once a year or we

may lose it.

The city had several some of their

water to Baton Rouge line. It was suggested

we talk to Ray Bingley (Laurens) to see

the charge with the city. Also to

protect property of water from Gulf River

to the Baton Rouge for use of pump

around Bay Baton Rouge line, down house

and Ruth Eubank had met with the

the amount time about their met

SCANNED

The under shot mentioned in last years min-
who was not done because the County is
going to make a new road. With Galbreath
bought an agreement with the city that
they could move the canal for Balmey Valley Road.
An agreement has also been signed on the
water rights from the city Laguna. It will be
dumped into the canal by William Wilson when
the two canals come together. This may start
about 1981 water again.

Any water that the canal was after Nov. 15th
will be charged against storage water for next y.
The board of directors have been working
on the water rights. They drew a description
of the land in this canal system. The 1883
deed has 130 ac ft water. It was suggested we
apply for 130 - Nov + Dec, 50 - Dec - 1 - May, 130 - May - May.

Bill Wilson made a motion to apply 130 ac ft.
all rights, decided by Board. Passed.
The company had protested But Barkerman
transferring water from Fall River into Jelen.
The board has been enlarged to 400 ac ft.
instead of 200 ac ft. They can run all of
our Girardin water through the reservoir in 3 weeks.

Deleters Ruth Barker and Bill Wilson were
up for re-election. With Barker and Robert
Barker were nominated respectively. Nominations
were moved and accepted. They were elected
by acclamation. Everyone was thankful for
a job well done. The meeting was adjourned.
Edwin J. Barker, secretary

To whom it concerns:

As a youth in the late 30's + 40's we always ice Skated + played on the ice in the Refung irrigation Canal. There was water in the Canal that was used to water cattle in the fields during the early winter. About Christmas the water was usually shut out as the ice would build up + prevent the water flow. In 1958 I purchased my present farm which borders the Refung Irrigation Canal + we watered the cattle in the field until late fall or early winter - we would chop holes in the ice in the lateral ditches so the cattle could drink until about 1970 when water was not run later than about the 1st of November.

Sincerely Robert T. Buell

Director - Refung Irrigation Canal Co.

P.S. I have been a director on the Canal board since 1958 except for 3 years of that time so I have been very much aware of the Canal business.
