REF: Snake River Basin Adjudication Claim 22-11418

Subject: Notice of Error Reply

COPY

Dear Mr. Christensen,

We received your Notice of Error reply on the above referenced Notice of Claim. You had two issues on your Notice of Error reply. The first issue was the season of use. The season of use has been changed back to the full season of use: April 15 to October 31 as requested.

The second issue on your Notice of Error reply was in reference to the diversion rate. The diversion rate did not change and here is the reason why. In the original decree the irrigated ground was decreed at one-inch per acre, which is what your recommendation reflects. Your ground was part of transfer 693 so your recommendation represents your portion of the water right. The other ground under the transfer is also allowed their inch per acre for their irrigated ground. Yet, you are asking that we recommend their water to you under your right? If you feel that you need more than an inch per acre for irrigation than you need to submit the proper documentation to support that claim and file an additional beneficial use right for the additional water used.

A beneficial use claim must be developed prior to the mandatory permit statute of May 20th, 1971. That means you must be able to prove you diverted and put to "beneficial use" the water prior to May 20th, 1971. You must submit with your claim to water evidence to support your claim along with the proper fees required to file a Notice of Claim to a water right. For your convenience, I've enclosed our brochure on what evidence is acceptable when filing your claim. Along with the evidence of when the water was put to beneficial use you will also need to submit documents to prove that you need more than one-inch per acre.

Enclosed is your new Preliminary Director's report showing the full season of use. If you have any questions please don't hesitate to give me a call at 547-3993.

Respectfully,

Cindy E. Bird
Adjudication Bureau

**RE: Water Right Numbers: 22-11417 (Steven Kearsley)
22-11418 (Blair & Allen Christensen)**

Dear Sir:

The purpose of this letter is to follow up on the conversation we had in your office in Idaho Falls on March 8, 2005.

It is my understanding that the preliminary Director's Report that I received for the property owned by Blair and Allen Christensen contained errors and you were going to readjudicate (see attached water rights and property location). As you will recall, our family had only received the preliminary Director's Report for the property associated with water right number 22-11418. However, you also indicated that you were going to pull the file for my brother-in-law, Steven Kearsley, and make sure both claims were adjudicated together. The source of these water rights are from Darby Creek with point of diversion being the Cherry Grove Canal.

At the present time I am assuming I don't need to do anything else and you will let me know the status of these water rights claims after you have completed the readjudication process.

If you have any questions, please feel free to call me at one of the telephone numbers shown above.

Sincerely,

Blair C. Christensen,
