This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right is not a determination of historical beneficial use.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Telecon.

8-15-2008

Anne Buxton.
Ernie Carlson.

22-11867

Anne has decided to go with a single point of diversion in T5N R44E S36 SWSE. with the P.O.U. in the same Q.Q.:- Source will remain unnamed slough.

Further investigation by Anne revealed ~~the irrig~~ sub irrigation is the historical practice for raising crop in the ~~SW~~ SE 1/4 so irrigation will not be recommended as a purpose of use.

370 N East Camano Dr. #5-47
Camano Island, WA 98282

Dear Ms. Buxton,

This letter is inform you that we have received the forms to change ownership from Annie Buxton to Hatchet River Ranch, LLC for water rights 22-598, 22-11867, and 22-13408.

While making this change however, it was discovered that legal descriptions for the recommended points of diversion in 22-11867 have been recommended incorrectly. Our department typically corrects errors such as these immediately however, due to the fact that this water right has already been reported to the court for adjudication, no changes may be made unless formally initiated by the owner through the "Objection" process. Filing an objection with the court will in effect, let the court know you believe there is an error in your recommendation and will allow us to make the necessary corrections.

Please take a moment to fill out the objection form(s) and mail them to the appropriate recipients using the addressed, postage paid envelopes provided. Thank you, in advance, for your assistance in this matter. Should you have any questions, please do not hesitate to contact me at 208-525-7161.

Respectfully,

Carol Ann Moore

Subject: RE:

Hi Trent,
Sorry it has taken so long for me to get back to you on this one.

I assume that the change of ownership is for 22-11867. If so, I would recommend processing the change of ownership (it doesn't sound like there is any reason why you couldn't process the change of ownership...if I'm wrong about this, let me know) and then I would recommend that IDWR contact the new owner and to solicit an objection. You can start with a phone call to the new owner as a "heads up" but then follow up with a letter (please always follow up with a letter - this way we make a record of what needs to happen.) I would explain in the letter how this came to the Department's attention, what you now think the water right should look like, and explain how to file an objection in the SRBA. Ray Williams can help you with the language on how to file an objection in the SRBA. Ray might even be able to find an example of a letter that has been sent in the past to solicit an objection. Ray, when you get back in the office on Wednesday, can you please work with Trent on this. Thanks.

Let me know if you have any more questions.
Thanks,
Garrick

Subject: RE:

Garrick,

We had an ownership change initiated and in the process of that change we found this error. The right is for instream stock and we have recommended beginning and ending stream flows for the right but we have assigned all of the PODs to the same QQ when in reality they are in 3 different QQs. We have not contacted the claimant as of yet.

Trent

RE: Notice of Change of Water Right Ownership (NCO) for 22-598, 22-11867,
22-13408 and Notice of Completed Administrative Proceeding (NCAP)

Dear Ms. Buxton:

On January 3, 2007, the Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Jennifer Crabtree
Technical Records Specialist

RE: Water Right Claims

Dear Mr. Buxton:

Enclosed are the printouts of decreed water right information for numbers 22-0190 and 22-0191 you requested on 9/23/88. Also enclosed are your previously numbered claim A22-00676 (re-numbered to A22-11867), your receipt for payment of your three water right claims, a printout of decreed right 22-0676, and a copy of Edwin C. and Toni Jean Hill's water right claim A22-00676.

After returning to the Department of Water Resources in Idaho Falls, I discovered that Mr. and Mrs. Hill had filed a claim on decreed right 22-0676 on 9/13/88. The number assigned to that claim was A22-00676; the same number assigned to your claim on 9/26/88. In order to properly file in the computer, your water right number was changed from A22-00676 to A22-11867.

Since there are two filings on the same decreed right, the District Court will need to settle the discrepancy in future adjudication processes unless the discrepancy is cleared up beforehand. If you have any further questions, please give me a call at 525-7161.

Sincerely,

A handwritten signature in cursive script that reads 'Tony Olenichak'.
