RE: Evidence of Priority for SRBA Water Right Claims 22-11969 and 22-11970

Dear Mr. Ruberry:

Please find enclosed a partial copy of Civil Court Case No. 1855 concerning a decree of water rights in Section 35, Township 5 North, Range 45 East, Boise Meridian, in Teton County, Idaho. The Water Right Claim 22-11969 priority date of April 1, 1938 is verified in enumerated items 18 and 19 on page 16 of the decree report.

At the time I filed this report, I was advised to file two separate claims: A22-11969 and A22-11970 because the house and its 3.0 acres were on the market to be sold.

I sold the house and acreage that was being watered in the late 80s. To my knowledge, no water has been used on that property since the sale. As the house and its acreage no longer belong to me, **I would ask that claim A22-11970 be voided.**

I appreciate your time and attention to this matter. If you have further questions or concerns, please do not hesitate to contact me at (208)745-6134.

Respectfully Yours,

Alvie C. Christensen

NOTE: The entire Civil Case No. 1855 has been filmed and indexed in Teton County Courthouse.

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIMS 22-11969 AND 22-11970

Dear Claimant (s):

The Idaho Department of Water Resources is beginning water rights review in Basin 22, the Teton Valley area. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Both of your claims, as referenced above, claim a Priority Date of APRIL 1, 1938, from Teton Creek. Claim copies attached.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim

General Description of the Plaintiffs' Property and Its Environment

16. The plaintiffs own the following property located in Teton County, Idaho:

a. Count 1

The E1/2 NE1/4 SE1/4 Section 8, and the SW1/4 Section 9, all in T. 4 N., R. 45 E, B.M., comprising 180 acres.

b. Count 2

Beginning at the Northwest corner of the Southeast Quarter of Section 35, Township 5 North, Range 45 East, Boise Meridian, and running thence South 25 rods, thence East 40 rods, thence South 55 rods, thence East 40 rods, thence North 80 rods, thence West 80 rods to the place of beginning, LESS the highway right of way.

ALSO: The Northeast Quarter Southeast Quarter of Section 35, Township 5 North, Range 45 East, Boise Meridian, LESS Beginning at a point that is 2640 feet South of the Northeast corner of Section 35, Township 5 North, Range 45 East, Boise Meridian, and running thence West 330 feet, thence South 200 feet, thence East 165 feet, thence South 130 feet, thence East 165 feet, thence North 330 feet to the place of beginning,

ALSO LESS: Beginning at a point that is 330 feet South of the East Quarter corner of Section 35, Township 5 North, Range 45 East, Boise Meridian, and running thence South 200 feet, thence West 330 feet, thence North 330 feet, thence East 165 feet, thence South 130 feet, thence East 165 feet to the place of beginning. ALSO: Beginning at a point 330 feet West of the East Quarter corner of Section 35, Township 5 North, Range 45 East, Boise Meridian, and running thence West 81 feet, thence South 530 feet, thence East 81 feet, thence North 530 feet to the place of beginning, LESS the highway right of way,

ALSO LESS: Beginning at the Southeast corner of the Northeast Quarter Southeast Quarter of Section 35, Township 5 North, Range 45 East, Boise Meridian, and running thence North 265 feet, thence West 490 feet, thence south 265 feet,

The second ditch also collects wastewater from lands to the east, which is delivered to plaintiffs' lands through the four northern laterals.

29. The plaintiffs irrigate 39 acres in the NE1/4 SW1/4, 35 acres in the NW1/4 SW1/4, 40 acres in the SW1/4 SW1/4, and 37 acres in the SE1/4 SW1/4, all in Sec. 9, and 3 acres in the E1/2 NE1/4 SE1/4 Sec. 8, for a total of 154 acres. The plaintiffs also water approximately 200 head of range cattle in the SW 1/4 Sec. 9 and the E1/2 NE1/4 SE1/4 Sec. 8.

30. The points of diversion for the right claimed in Count 2 are located in the NE1/4 NW1/4 SE1/4 and the NW1/4 NW1/4 SE1/4 Sec. 35, T. 5 N., R 45 E., B.M.

31. A small pump diverts water in the NW1/4 NW1/4 SE1/4 Sec. 35 for the irrigation of land around the plaintiffs' home. A larger pump ^{20 HP} diverts water in the NE1/4 NW 1/4 SE1/4 Sec. 35, which then flows through a quarter-mile mainline which follows the boundary between the east and west halves of the NW1/4 SE1/4, then through laterals which run east of the mainline.

32. The plaintiffs irrigate 29 acres in the NE1/4 SE1/4 and 21 acres in the NW1/4 SE1/4 Section 35. The plaintiffs also water approximately 300 head of range cattle and 50 head of dairy cattle in the N1/2 SE1/4 Section 35.

15. A flow of 2.02 cfs provides sufficient water for the irrigation of 101 acres, with a maximum annual volume of consumptive use of 187.9 af.

16. There are four points of diversion for the waste water right, three of which are located in the NE1/4 SW1/4 Sec. 9, one of which is located in the SE1/4 SW1/4 Sec. 9, all in T. 4 N., R. 45 E., B.M.

17. The plaintiffs use water pursuant to Water Right No. 22-0092 for the irrigation of 37 acres of land in the SE1/4 SW1/4 Sec. 9, T. 4 N., R. 45 E., B.M. The maximum annual volume of consumptive use for the irrigation of 37 acres is 68.8 af. The water in excess of .02 cfs per acre is used for the watering of 200 head of range cattle in the SW1/4 Section 9 and the E1/2 NE1/4 SE1/4 Section 8, T. 4 N., R. 45 E., B.M. The change in point of diversion from a point on Lower Darby Creek to a point further downstream on Lower Darby Creek will not cause injury to other water users, nor will the change in place of use of that portion of the water used for stockwatering.

X 18. It is concluded that the plaintiffs initiated a right to the use of water from the three unnamed springs with a priority of April 1, 1938.

19. The plaintiffs have beneficially used the waters of the unnamed springs for the watering of 300 head of range cattle and 50 head of dairy cattle, and for the irrigation of 50 acres in T. 5 N., R. 45 E., B.M., more particularly described as follows:

PROFILED

SCANNED
APR 19 2005

Section 35: NW1/4 SE1/4 (21 acres)

NE1/4 SE1/4 (29 acres)

20. A flow of 1 cfs provides sufficient water for the irrigation of 50 acres, a flow of .04 cfs provides sufficient water for 50 head of dairy cattle, and a flow of .07 cfs provides sufficient water for 300 head of range cattle. The maximum annual volume of consumptive use is 93 af.

21. The points of diversion (2) are located in the NE1/4, NW1/4 SE1/4 and the NW1/4 NW1/4 SE1/4, Section 35, T. 5 N., R. 45 E., B.M.

22. The period of use for irrigation is April 15 to October 15 of each year; the period of use for stockwater is January 1 to December 31 of each year.

23. The plaintiffs have not installed measuring devices and lockable headgates or other flow control devices in accordance with Idaho Code § 42-701 (1977).

24. Matter herein expressed as a conclusion of law which is later deemed to be a finding of fact is hereby made a finding of fact.
