Re: City of Nampa SRBA Claims

Dear Kay:

I am writing on behalf of my client, the City of Nampa, to confirm our telephone conversation the other day. As you know, the City of Nampa has pending various objections to the Director's Recommendations on its water rights. For each of its municipal water rights, the City requested that the Department recommend an annual volume.

Based on the Department's assurance that its longstanding policy remains in place (that municipal water rights are authorized to pump year-round at the authorized diversion rate), the City withdraws its request that the annual volume be stated on the face of the water right decree.

Again, I thank you for your assistance in sorting out these claims. I look forward to resolving the remaining issues via stipulation. It has been a pleasure to work with you.

Re: City of Nampa Claims

Dear Mr. Meyer:

Pursuant to our visit in July, 2007, we had requested additional information in order to complete review of the claims filed by the City of Nampa. Please note that we have not received the additional information and would like to request you submit this information at your earliest convenience. For your information, the documentation we requested is as follows:

1. Evidence of Priority Date for Claim Nos. 63-5258, 63-28219 and 63-28220
2. Documentation showing that Claim 63-5257 and 63-2787 are separate wells and evidence of priority date for well under 63-5257.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority dates, as claimed, may not be recommended to the Court for decree.

If we do not receive the requested information on or before January 31, 2008, we will proceed with our revised recommendations on claims that were objected to in June of 2007, and will not revise recommendations to the above mentioned claims that were disallowed for failure to submit evidence of priority dates.

If you have any questions concerning this request please do not hesitate to contact me at 334-2190.

Sincerely,

9. ☒ **Place of Use**
Should be: Within the service area of the City of Nampa municipal water supply system as provided under Idaho law.

11. **I object because:**

- ☐ This water right should not exist.
- ☒ This water right was not recommended, but should be recommended with the elements described above

E. REASONS SUPPORTING OBJECTION(S): _____
Distinct from No. 63-2787: This claim is based on beneficial use by the City of a well

known as the "13 Ave. North" well, which has been in operation since 1905. The "13 Ave. North" well is located within T3N R2W §22 NESE. The well remains in use today as a municipal well serving the City's integrated non-potable irrigation system. IDWR recommended this right to be disallowed on the basis that it was included within licensed Water Right No. 63-2787. This is not correct. Water Right No. 63-2787 does identify a point of diversion within the same quarter-quarter (T3N R2W §22 NESE). However, that point of diversion corresponds to the City's well known as the "14th Ave. North" well, which is located within the same quarter-quarter. The "13 Ave. N" well is a distinct well with its own water right.

Corrected PODs: The City has included a corrected list of PODs associated with the integrated non-potable irrigation water delivery system. The well associated with Water Right No. 63-5257 (the 13 Ave. N. well) was inadvertently omitted from the Amended Claim list. This well is in the same quarter-quarter as the 14th Ave. N. well.

Annual Volume: The City claims an annual volume based on use of this right for municipal purposes.

Original POD Remark: The Department included a remark for some of the City's rights stating "To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right as [original well information]." The City does not object to this remark so long as a similar remark is included for all similarly situated municipal water rights in Idaho. To the extent that the SRBA court (or other court) determines that this is an inappropriate limitation on municipal water rights, the City requests that the remark be removed from its water rights.

Good morning, John.

I just completed review of the last of the municipal water rights in the Treasure Valley -- City of Nampa.

The claims are nicely filed and they all make sense to me -- except for 3. B/U claims 63-5258, 63-29219 and 63-28220 do not appear to contain a shred of evidence for either date of priority or flow rate. (The latter two are for uses that were later licensed, so we do have some flow info for later dates.)

Also, it appears that 63-5257 is no longer part of the system so at this point I am planning to disallow it.

Please call me at 287-4805 after you have had a chance to check it out.

Thanks, Dave

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. ~~Experience has shown that water users who~~ work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
