Terry Platts being first duly sworn,
deposes and says:~

~
The primary water usage is for a gold processing mill constructed prior to 1934 by my father and grandfather. The mill is located on mining claims annually filed on by my father then later by me since before 1934. The mill is currently operable and maintained by me. It has been continuously available for use since 1934. Pictures showing the mill construction in 1932 are on file with the State Historical Society. The mill machinery pre dates 1930 and was installed in 1932. This water right and claim has been used in 1934 and continuously since that date.

Subject: Evidence of Priority

I am working temporarily out of state, however I own a home and other property in Gooding and Camas county. Attached is a recent picture of the mill that has used the water right since 1934. A field exam could be scheduled the last week of August next year, please advise if this is acceptable.

Re: Claim No(s). 63-5323

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
