Water Rights: See Attached

**NOTICE OF COMPLETED
ADMINISTRATIVE
PROCEEDING**

IDWR has completed the following administrative proceeding:

XX Address change

Substitution of Party

☐ IC § 42-222 transfer

☐ Point of diversion ☐ Place of use

☐ Period of use ☐ Nature of use

☐ Split of water right ☐ Change in ownership

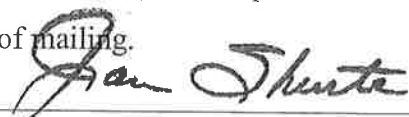

☐ Other

☐ IC § 42-219 license

IDWR certifies that it has completed its investigation into the changes to the elements of the water rights listed above as set forth in the attached *Amended Director's Report(s)* for said water right(s). No other changes have been made to the elements of these water rights except as set forth above.

IDWR has served copies of the *Notice of Completed Administrative Proceeding* and *Amended Director's Report(s)* on the claimant(s), prior claimant(s) and all parties in the subcases affected, if any, as reflected on the attached certificate of mailing.

DATED: October 13, 2006

Change of Address

Dear Water Right Holder:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right(s) can be sent only to the address on your claim(s) or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to our office. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of any of the properties connected with the water right(s) referenced above, please call this office to obtain a form to make this required change to the water right(s) records.

Sincerely,

Lori Harris
Technical Records Specialist

Maintenance and Operations
405 Collins Road
Boise, ID 83702

Dear Mr. Carlson:

I have received your letter of February 8, 1994 requesting waiver of the late filing fees for the school district's claims in the Snake River Basin adjudication. The basis of your request seems to be "... it is my belief that we did not receive proper notice under the adjudication ..." and you are therefore requesting the late fees be waived.

A review of the department's records shows notice of the adjudication was mailed to the BOISE INDEPENDENT SCHOOL DIST., 1207 WEST FORT, BOISE, ID 83702 on April 28, 1989. I understand this is the proper address for the office of the superintendent of the Boise Independent School District.

The Snake River Basin adjudication is a judicial procedure for the determination of all water rights in the Snake River Basin in Idaho. Section 33-513(2), Idaho Code, lists the superintendent of schools as the authorized representative for the receipt of service of process. A check with the school district office confirmed that you had not been designated the authorized representative for service of process for the Boise Schools.

This analysis leads me to believe that service of the notice of the adjudication was proper and your request for waiver of late fees is denied.

Yours truly,

David B. Shaw
Adjudication Bureau Chief

Mr. David Shaw
Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706

Dear Mr. Shaw:

The Independent School District of Boise City is filing it's adjudication claims under the Snake River Basin Adjudication for water necessary for operation of the school's within the Boise Valley. I realize that the Department has, in the past, notified some of the administration in the School District of the Snake River Basin Adjudication but unfortunately notice was never sent to me as the Administrator of Maintenance for the District. Since it is my sole responsibility to administer the water resources of the District, it is my belief that we did not receive proper notice under the adjudication and therefore I am requesting a waiver of late fee requirements. As required by your agency, we have paid the late fees with the submission of our adjudication claims but would urge you and the Department to favorably consider refund of those late fees. It is a significant outlay for the School District and reduces monies available for maintenance of our school system.

Sincerely yours,

Roger Carlson
Supervisor of Maintenance & Operations

Gentlemen,

Enclosed please find the corrected claim to water right forms as requested.

I will attempt to clarify some of the questions delineated in your letter of January 30, 1984. I will preface the clarifications by stating that records on some of the older schools are not complete and some assumptions must be made.

Collister School - This school has been in operation continuously since 1912 and I feel it is safe to say that some water right is indicated. As for the present pump, I do not have exact installation dates but understand it was in the late 1950's or early 1960's.

Taft School - This school was constructed in 1960 and the term "new addition" was evidently given to the property at that time and has no significant meaning.

Whittier School - The correct well location is the NE 1/4 of the SW 1/4 of Section 4.

Franklin School - The exact date of first use of this well is not readily available to us. The school has been in continuous operation since 1936 and the physical appearance of the well would indicate that it also is probably that old.

I hope that this is the information and correction required.

Very truly yours,

Frank S. Burgess, Supervisor
of Buildings and Grounds

Gentlemen:

We are in the final processing of the claims submitted during the June, 1983, mandatory claims filing deadline and have some questions on four of the claims you submitted at that time.

The claim submitted for Collister School needs to have the exact date the water was first used to irrigate 4 acres. This is the most important portion of the claim as water is regulated (if necessary) according to your date of first use. If you used water prior to another well, then you would have a better water right. But the date of first use has to be claimed. The quantity needs to be listed in cubic feet per second (cfs) rather than acre feet. Normally acre feet amounts are used if a storage of water is taking place, i.e., pond or reservoir. For 4 acres at 1 1/2" of water per acre, the amount in cfs is 0.12 cfs or 54 gallons per minute. I added irrigation as the use. Domestic does not need to be listed since Boise Water Corp. has filed on all of their wells.

On the claim for Taft School you have listed the priority date of the new addition. If this is when the school was built and the water first used, then this date is correct. However, if the well was used to irrigate for the school but in 1960 another addition claim needs to be filed listing the old priority date and number of acres irrigated before the addition. Enclosed is a claim form for this purpose. This also needs to be listed in cfs rather than acre feet. The recommended amount for 8 acres at 1" per acre is 0.16 cfs.

The claim for Whittier Elementary also needs a cfs amount. For 4 acres of irrigation at 1 1/2" per acre would be 0.12 cfs. The place of use listed under Item No. 6A shows the NE1/4NE1/4 and
