IDWR/NORTHERN

John,

Currently, the evidence you have submitted looks sufficient to support a water right claim for domestic use dating back to 1959, (based upon affidavit and property records). A recommendation of domestic use would include ½ acre of lawn and garden around the home. If you acquire additional evidence that supports the 1 acre of irrigation claimed on the property, feel free to submit that at any time prior to April 30, 2019. As discussed in our previous meeting, I will add the recently submitted evidence to your claim file, however, an objection will need to be filed with the Court before any changes to the claim recommendation can be made. The objection must also be submitted to the Court before April 30, 2019. Please contact me anytime if you have additional questions or concerns.

Best Regards,

Evan

Subject: Aerial Photographs WR Claim # 95-4466

Hi Evan,

Just wanted to let you know that Loretta and I did go to the Hayden Library and go through the aerial photographs for 1958 yesterday, but we had no luck. We couldn't find any to match up with our property up Alder Creek. I'll keep on trying to find one. . . js
