That the stockholders of the plaintiff are the owners of, and the lands irrigated under the ditch or canal system of the plaintiff, are situate in Teton County, Idaho, and particularly described, to-wit:

NW¹/₂; NE¹/₂; S¹/₂ NW¹/₂; NW¹/₂; NE¹/₂ of section 24, all in township 3 north, range 45 E.

That the lands are arid in character and require artificial application of water by irrigation to produce agricultural crops; that the plaintiff, through its stockholders and predecessors in interest, ever since the 22d day of January, 1916, have diverted 55 cubic feet per second, or 2,650 miner's inches of the unappropriated waters of Trail Creek; that the diversion works of this plaintiff are located at a point bearing north 51 degrees 30' east 705 feet from the north quarter corner of section 19 in township 3 north, range 45 east of the 2nd meridian; that ever since the said day of January, 1916, have applied the said quantity of water, during the irrigation seasons, to beneficial use in the irrigation of crops grown upon the above described lands, and which said quantity of stream flow has been in addition to any other rights secured or in any manner granted to the plaintiff through its stockholders and/or

From the above findings the Court concludes that the plaintiff is entitled, and, -

22 14 IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the plaintiff, for the use of its stockholders, and for the irrigation of the hereinbefore described lands, is awarded the use of 55 cubic feet per second of time, with a priority date of January 22d, 1916, of the unappropriated waters of Trail Creek.

IT IS FURTHER ORDERED, that the rights awarded and decreed in that certain decree commonly known as the "Kokburg or Snake River Decree," made and entered in this Court December 15, 1910, both as to dates of priority and the amounts of the rights awarded, are binding upon the plaintiff in this action.

9. If applicant was not the original holder of this right explain how it was acquired: Applicant, by several Grant Deeds, dated on various dates on and between 4-11-69 and 7-8-69 acquired all water rights from present owners of water rights (see copy of Grant Deed attached as Exhibit "C") who acquired said rights through their respective predecessors in title from original owners thereof. List of original owners attached hereto as Exhibit "D".

10. CHANGE IN POINT OF DIVERSION

- a. Quantity to be diverted at new point: 83.7 c.f.s. and/or _____ acre feet
- b. New point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19 Township 3
SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17 Township 3
North 46 E. B.M.
North _____, Range 46 E., B.M.
- c. Description of method of diversion and conveyance from new points of diversion: Water from
creeks drops into diversion structure and flows through buried
steel mainline down mountain slope to valley floor, and through
several branch mainlines to a standpipe on each stockholder's
premises, where stockholder attaches his own lateral line.
- d. Is water to be conveyed to the lands previously irrigated? Yes _____ No _____
Mostly, the same lands, but with some changes.
If not, the place of use should be changed below.
- e. Describe the reasons for applying for a change in the point of diversion:
Heretofore, the water was diverted from the creek channels through
lateral canals and ditches, as the creeks cut through the lands of
the stockholders, resulting in tremendous losses of water through
seepage, and the water would not reach the lower lands long enough
in the year to finish a crop. This system preserves water for a
longer season.
- f. Do you intend to make the transfer permanent? Yes, as to the amount transferred.
- g. Do you intend to abandon completely the old point of diversion? NO, they shall be used
to divert the balance of the water owned by applicant to the lands
presently irrigated, as shown in paragraph 8.
- h. Indicate on the above plat the new point of diversion and lands to be irrigated.

11. CHANGE IN PLACE OF USE

- a. Describe the new lands on which you wish to use your right.
