FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 4901

DATE: December 4, 1997

=====

Transfer 4901 adds points of diversion and changes the place of use under all of Rights 63-07005/07042/08130/07053/07055C/07064A/09243/09359/07055D/07064B and a portion of Rights 63-07078/07755, splitting each right into parts A and B. The transfer creates a single combined system with seven (7) wells and a permissible place of use of 2268 irrigated acres.

Region review confirmed the use of these rights and the irrigated acres. Some adjustments to recommendations were made upon further evaluation. (See land attachment for Acre overlap and Water Right overlap table attached.)

The total authorized irrigated acres under this transfer approval was adjusted from 2258 to 2268 acres identified under the permissible place of use. The city purchased a portion of Right 63-07042 with land a portion without land. Of the 160 acres of water right purchased by the city without land, 150 acres will overlap and supplement other transferred rights and 10 acres will provide primary use for the 10 acres found to be in excess of the licensed acres. (2502 Licensed acres - 234 Overlapping acres = 2268 Irrigated acres.)

Right 63-07078 was licensed with a point of diversion overlap limit when combined with Right 63-07053. Right 63-07078 was split by the transfer using the rate available above the original right and removing the need to continue the overlap condition on the portion of the right no longer part of the same system.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include permissible place of use, overlapping limits, multiple points of diversion/measuring devices, annual reporting, irrigation overlap and standard transfer conditions.

Dear Ms. Buffington:

Please find the attached Notices of Change of Water Right Ownership. These forms do not indicate any changes in the City of Boise's ownership, but request changes to how the City of Boise is listed as owner on its claims. Our intent is to have all the City's claims listed under the same format: City of Boise, followed by the managing Department and address.

Hopefully the forms are completed to your satisfaction. There are three forms and accompanying lists of water rights; one each managing department within the City of Boise. Also included is a list of Department heads as requested in item 7 on the Notice. If you have any questions please give me a call at 384-3984.

Dear Sirs:

This office has received and processed Change in Ownership forms for the above referenced claims. The claims referenced as "Notices of Claim to a Water Right" have been changed to reflect the new ownership. Copies of those claims are enclosed.

The claims referenced above as "Original Claim No" were split by the change in ownership. The number of acres and corresponding amount of water for each claim are based on the warranty deed submitted to this office by the City of Boise. The claims were renumbered by adding an alpha suffix to each portion of each split claim. Copies of the claims which represent your portion of the original claim are enclosed. Please reference the new claim number when corresponding with IDWR.

These claims represent the water rights as filed in the Snake River Basin Adjudication (SRBA). The claims may not represent the water right as licensed. Any discrepancies between the licensed water right and the water right as claimed in the SRBA will require documentation of the date of change.

Ms. Cody has indicated to this office that the City of Boise may consolidate the water delivery system on this parcel. We discussed the Application for Transfer process at that time; please be advised that the water rights in the Application for Transfer will be reviewed as they have been described by their respective licenses.

If you have any questions about the changes in ownership or any aspect of your water rights, please do not hesitate to contact this office.

Sincerely,

Maria Minicucci
