HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

Approval of Transfer 4329 does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

This right was previously split on 6/7/2004 into 63-31938 & 63-31939. On 6/14/2004, we received documentation showing that Marillyn Troyer (63-31939) acquired ALL of the property and water rights associated. This claim should not have been split. See memo in file also. DB 6/15/2004

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.

Prior to diversion of water under Transfer 4329, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

The right holder shall accomplish the change authorized by Transfer 4329 within one (1) year of the date of this approval.

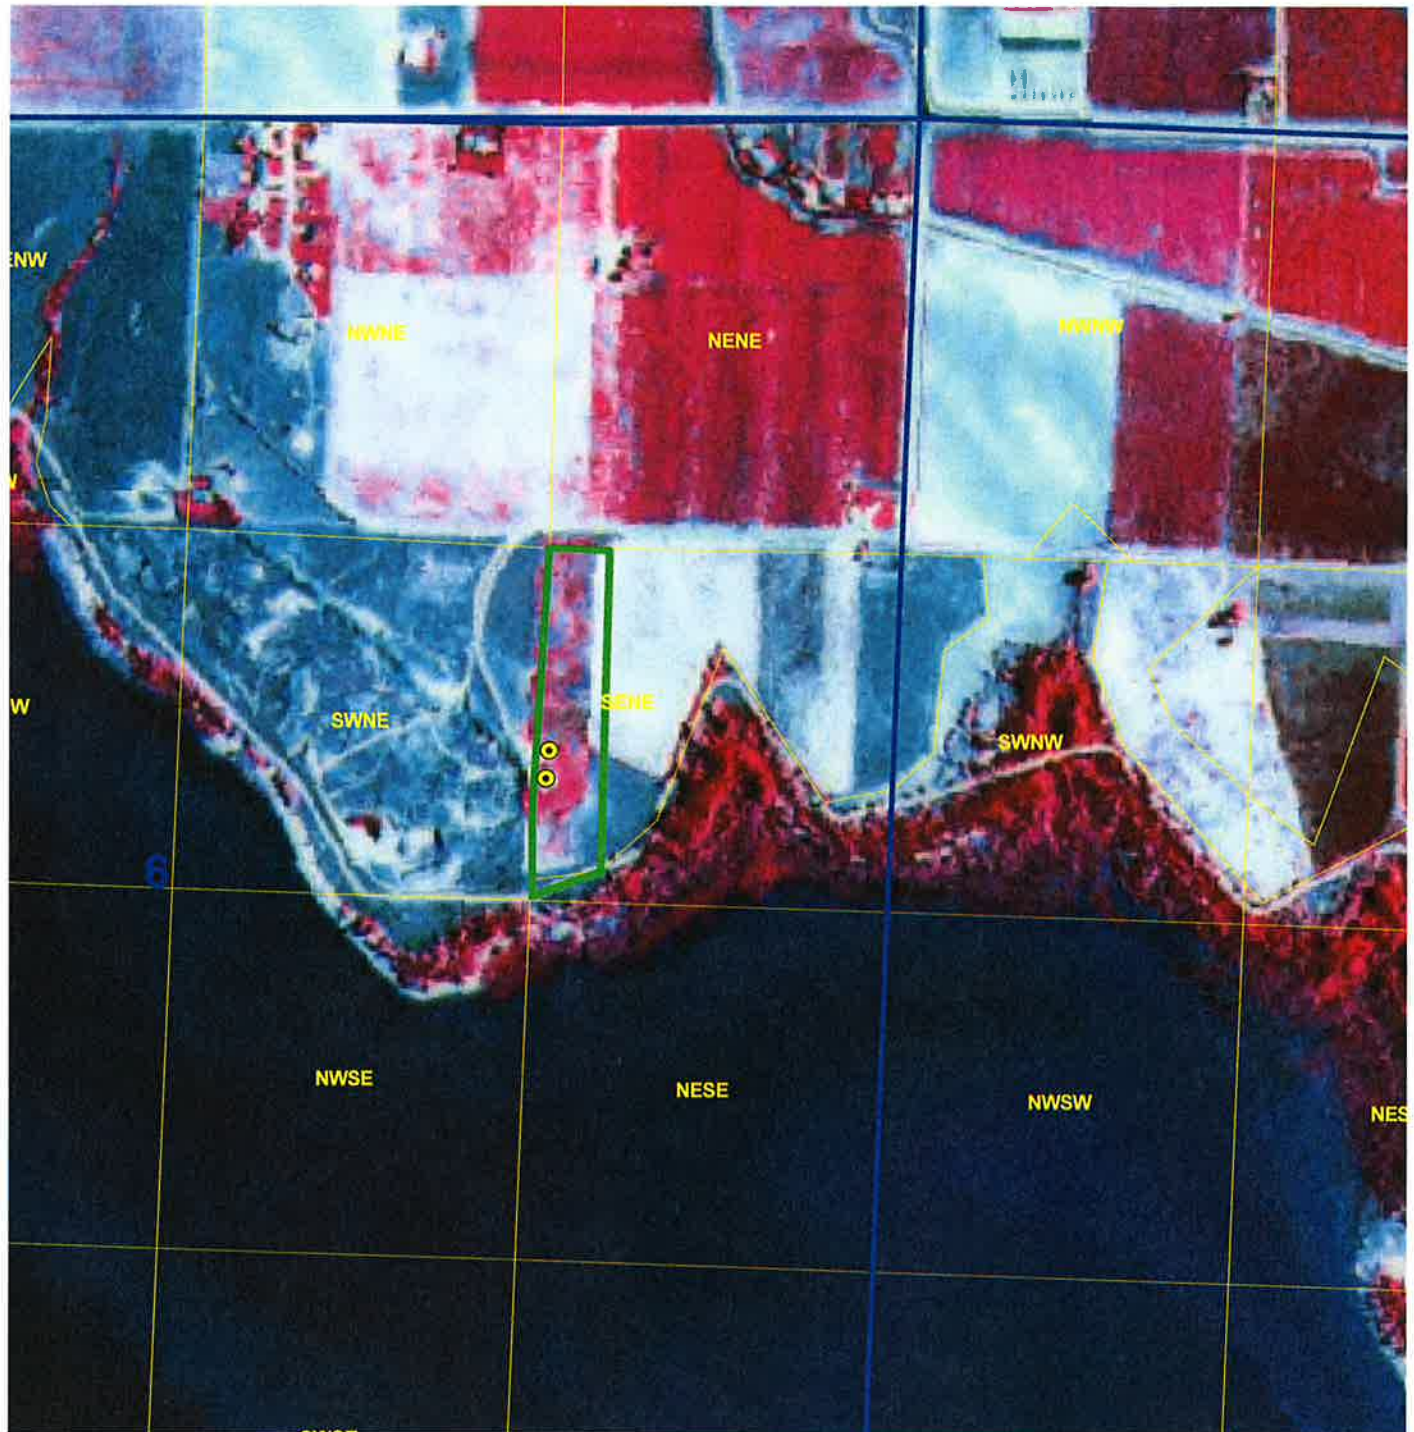

Failure of the right holder to comply with the conditions of Transfer 4329 is cause for the Director to rescind approval of the transfer.

Re: Notice of Claim to a Water Right No. 63-7319

Formerly numbered as 63-31939

Dear Claimant(s):

Enclosed is a copy of the above referenced claim, which reflects the correction for the change in ownership of the land and appurtenant water rights, covered under the original filing. This claim indicates your ownership of the entire water right.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

MEMORANDUM

To: File: 63-7319, 63-31938 & 63-31939
From: Denise Buffington
Date: June 15, 2004
Subj: Ownership Change information

We received an ownership change on 4/24/03 for claim number 63-7319 going from Richard Troyer to Marillyn Troyer. After review of the deed submitted, it appeared that this was a split resulting in Marillyn acquiring 2 of the 7 acres in Gov't Lot 8, Sec. 6, 2N 2W; and Richard keeping the remaining 5 acres in the same section, township and range.

Marillyn called after receiving her copy of her claim, and notified us that she owns ALL of the property, not only the 2 acres she was given.

She faxed in the "correction" deed for the remainder of the property on 6/14/04, to show her ownership of the entire property.

Claim numbers 63-31938 and 63-31939 were recombined to show that the property should not have been split.

NOTES: 10/31/1996: A second point of diversion was added w/Transfer No. 4329. The second well was drilled for application 63-11930 which was originally a "Nongravel" application and is not yet a permit. Second well will serve both water rights. Second well completed 01/20/1993 under permit 63-92-W-0999-000 (see IDWR well log files). Since 63-11930 has a priority later than 07/01/1992, processing has been delayed indefinitely by IDWR. rrr
