Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

Form 42-248/42-1409(6) July, 2000

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESINSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter the number(s) at Item 1. Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at Item 3.
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

Form 42-248/42-1408(6) July, 2000

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at Item 6. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at Item 7. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

Re: Snake River Basin Adjudication Subcase No. 63-7674A

Dear Andrea:

I am pleased to enclose the **original executed** Standard Form 5 in the above-referenced subcase. I would like to bring to your attention that I have interlined two changes to the Standard Form 5 document that the Idaho Department of Water Resources ("IDWR") provided to me. One change involves the revision of the word "commercial" to the word "domestic" in the quantity remark. The second change concerns the addition of the word "domestic" to a remark in the purpose and period of use section. Please let me know immediately if these changes are not acceptable to IDWR. As you will note, my client has approved and initialed the Standard Form 5 with these changes.

Thank you for arranging for filing and service of the enclosed Standard Form 5.

Sincerely,

HOFSTETTER LAW OFFICE, LLC

Lori,

The two remarks she has crossed out under General don't appear to have been on the DR. I think Vicky had added them once before and Dana struck through them. It's ok to cross through the Commercial use is for 180 mobile home units and Use of the right is combined with water from NMID on the original DR. There is a note concerning the irrigation district not delivering there. The rest looks like it makes sense (meaning the crossing out and underlining), not the content.

Thanks for listening and helping me,
Jan

Dana has to receive word from her client concerning the season of use - whether to file an enlargement claim to enlarge the season of use or go with the shoulder remark. SM Both mentioned that it was six of one & 1/2 doz. of another since the enlargement claim is subordinated to 1994 as is the shoulder remark subordinated to other rts that do not have that ~~same~~ shoulder remark.

Gameplan - Status Conf. set for 6/29 at which time Dana should have word from her client on the season of use & hopefully change the purpose of use from commercial back to the domestic use it was licensed for on the record at the next status conf. Then, we can proceed w/ SFS.

Hi Dana,

I have inherited this file and cannot determine what is needed at this point – except for a signed SF5. I am attaching the latest SF5 that was completed by Vicky. Would you take a look at it and get back to me on what you think?

There are some emails in the file, however, I am having a hard time telling if this SF5 is the final product. There is a status conference coming up on this one 2-23-2010. It got lost in the shuffle for about a year now without anything happening.

It would be nice to get this done before the status conference.

Thanks,
Jan

Ray – I have this pulled and will review. It looks like we sent her an SF5 on 10-28-08 which in the status conference last spring Dana said she was circulating. I need to look at Dana's remarks below and see what she is talking about and get back to you. I'll do that this week. Thanks, Jan

I don't recall that we ever agreed to Dana's requested changes. If they are acceptable, we can try again with the SF5.

Let me know what you think.

Ray:

I attach the alternate SF5 version for 63-7674A that I found floating around in my file. I'm actually not sure when I received it or who sent it to me. It seems quite similar to the version that Renae Ridgeway sent me by letter of October 30, 2008. Upon further review I prefer the October 30, 2008 version. However, I actually prefer one provision in the attached version - I prefer the wording in the quantity remark on the attached version to the quantity remark language in the October 30, 2008 version. So I would request that IDWR modify the October 30, 2008 SF5 version to use the quantity remark per the attached. Also, I would request that the words "or late" in the season of use shoulder remark be deleted in the October 30, 2008 version. Also, it appears, that certain letters are cut off on the right margin of the October 30, 2008 version and that this formatting issue should be corrected. I am obtaining information about who will be signing the SF5 for the claimant and I will forward that information to you within a couple of days. With these changes, I will recommend to my client that it sign the October 30, 2008 version of the SF5.

Thank you for your help with this,

Thanks Dana. It might be helpful to know whether it is physically possible to get the Nampa-meridian water to the property if you can find that out without having to invest a lot of time and effort in it. (I know you are as busy as I am.) I don't think it is worth a lot of effort because I am pretty confident that even if the surface water were available it would be a plumber's nightmare [gold mine?] to have to split the delivery system and reconfigure everything to use the surface water. Nick:

I think you understand the situation. I'm not sure whether this is a trailer park or more of manufactured home type development (or some combination thereof). In any event, the homes are fairly permanent - not the kind with wheels on them. The park's sole supply of water (domestic and otherwise) is from the well on the property under this water right. I'm not sure whether Nampa and Meridian water physically can be delivered to the property at this point (I suspect not); but I'm quite certain it has not been delivered to the property since the trailer park was developed as the well system is designed to provide all the water needed for the development. The property continues to be in the Nampa and Meridian boundaries and is assessed by N-M but the N-M water is not delivered and has not been for quite a while. If someone wanted to buy the shares from the park owner, I'm quite certain they would sell them to avoid being assessed for something they don't need or use. Please let me know if you'd like me to confirm whether the N-M water is even deliverable to the property at this point.

Thank you,
Dana

Spencer, Nick wrote:

Hi Dana.

Another matter that I see is coming up soon is Hometown West Meadows trailer park. I need to have more follow-up discussion with the administrators here regarding your objection to the effect

8/5/2008

that the right should be designated the "primary" right. I have looked at the Branchflower decision that Norm referred me to. It does indeed stand for the proposition that IDWR will determine when necessary in a transfer proceedings whether a particular groundwater right should be designated as a primary rather than a supplemental right. However, I do not understand why it is necessary that it be done in this case, now, since it is not something that I am aware of that has been addressed in the SRBA before. I think what I am going to hear from the administrators is that such determination is not made until it is necessary to make it, and it is not necessary to make it in the SRBA.

To better discuss it with the administrators I need some more information, particularly a better understanding of why it is important to your client to have the right designated as "primary". I presume the concern is that, since the land was presumably irrigated with irrigation district water before the well was drilled and the land was converted to a trailer park, your client fears that at some time of groundwater crunch in the future, this fact may be the basis upon which IDWR could force the trailer park to shut off its well, and instead resume use of irrigation district surface water, notwithstanding the fact the surface water has never been used since the trailer park was build. I also presume that the nature of the park is such, i.e. chopped up into tiny little individual lawns as well as some common area, that it would be costly and impractical to replace the existing ground water system with a new system to use surface water. I also presume the well provides in-house potable water as well as water for watering all the teeny-tiny lawns, and it would be a nightmare to reconfigure the system into an outside surface water system and an inside ground water system. Are my presumptions correct? Are there additional concerns that I have not thought of?

Also, why is it not sufficient to simply delete the explanatory remark that use of the groundwater right is combined with water from Nampa-Meridian Irrigation District? If that reference is removed, which I suspect my client could be amenable to because of your assertion that irrigation district water cannot now be used--and has not been used since the well was drilled and the trailer park developed--does not such removal have the effect of making this by default the "primary" right on the property because it is the only right on the property? I would very much appreciate your thoughts on this.

Thanks. NBS

Hi Vicky. Dana has agreed to drop her insistance on a "primary source" remark. She has decided she is okay with the simply deletion of the "water combined with Nampa-Meridian" remark, and will trust IDWR to do the right thing should the issue come up in a future administrative proceeding. She has to get her client's approval, but she is pleased with all the other language we have included. So, it looks like as soon as she hears back from Wacker Drive in Chicage we will be able to do an SF-5. However, Eagle Eye Booth spotted an inconsistency in the irrigation season of use and shoulder remark. The irrigation season of use ends on November 15, but the shoulder remark says the right can be used as late as November 15th. He wonders (1) if we recommended the license SOU incorrectly (e.g. the SOU is supposed to end on November 1) or (2) if the shoulder remark language needs tweaking. Could you check that out? Thanks. Hi -

Attached is an SF5 for the above. Dana H sent one to us but it included changes the department can not agree to. She deleted the licensed annual volume and added a quantity remark re fire protection not being subject to it. We cannot delete the annual volume and I changed her remark to be more concise.

She deleted the 3 ACRES TOTAL under place of use and added a remark under other provisions that the department can not agree to. The database always places the total there, but I added a remark that explains the pou.

She changed the commercial purpose of use remark but we cannot make that change re without limitation etc, so the recommended purpose remark remains under purpose.

I deleted the Nampa meridian irr dis remark but did not include her remark about this being a primary right. I discussed all with Jan. The department does not always know if the right is a primary right - It is not something that is determined during licensing. Whether this is a primary right or not would be determined at the time of a transfer.

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

Liberty Gagnon

License of Water Right No. 63-7674A Priority October 4, 1972 Amount 1.23 cfs

THIS IS TO CERTIFY, that JOE E. BERNASCONI
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 63-7674A issued pursuant to Application for Permit dated October 4, 1972,
and has submitted proof to the Department of Water Resources on November 28, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.23 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic (180 units)	from <u>January 1</u> to <u>December 31</u>	at <u>1.23</u> cfs and	<u>216</u> acre feet
Irrigation	from <u>May 15</u> to <u>November 15</u>	at <u>0.06</u> cfs and	<u>13.5</u> acre feet

Amount 1 cfs for irrigation purpose from May 15 to Nov. 15 (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 6.2 cubic feet per second and/or
b. none acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. 50 HP deep well pumps, minimum 12" dia. well casing, estimated depth 300 feet, 8" & 6" dia. water mains to serve 370 to 400 residential lots initially, and more lots possibly to be added in the future.
b. Height of storage dam none feet, active reservoir capacity _____ acre feet; total reservoir capacity _____ acre feet, materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is 12 inches; proposed depth of well is 300 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years.
b. Estimated construction cost is \$ 21,000.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: SW & SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 10 Township 3N Range 1E B.M.
(2) Amount of power to be generated: none hp under _____ feet of head.
(3) List number of each kind of livestock to be watered none presently contemplated
(4) Name of municipality to be served none, or number of families to be supplied with domestic water West Meadow Mobile Estates, 370 lots for mobile homes in a Mobile Home Park
(5) If water is to be used for other purposes describe: Water to be used for household, irrigation lawn sprinkling, fire protection, etc.

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

c. Describe any other water rights used for the same purposes none - no further ditch irrigation to be used.

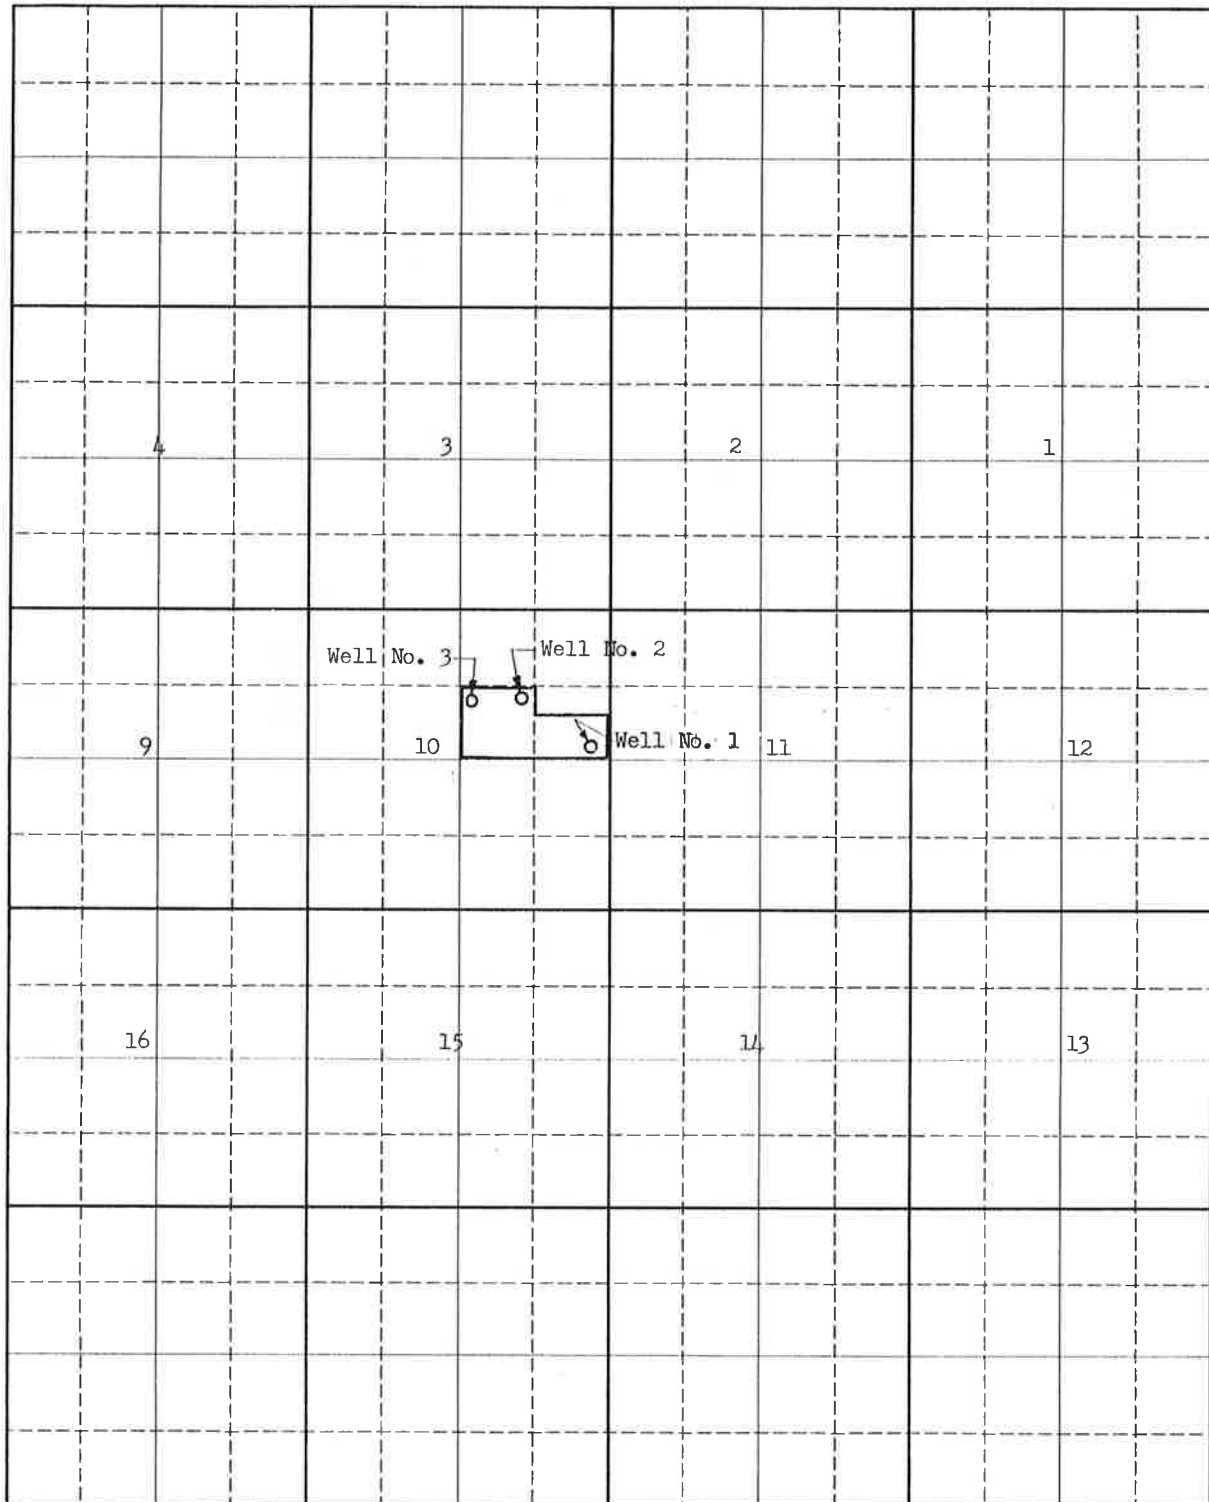

9. a. Who owns the property at the point of diversion Joe E. Bernasconi

b. Who owns the land to be irrigated or place of use Joe E. Bernasconi

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Property owned by applicant

10. Remarks The West Meadow Mobile Estates Mobile Home Court will be provided with central sewers and a lagoon type treatment plant, which will be self contained and will depend on evaporation to dispose of liquid effluent. Sprinkling of lawns will not produce any appreciable amount of waste water run-off. Street drainage will discharge into a local drain, which has received drainage from the land in the past. The second and third wells will provide stand-by service and additional water for fire protection through the water system and standard fire hydrants. Shallow stratas of water will be cased through to prevent the possibility of affecting neighboring shallow wells.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 63-7674A Priority October 4, 1972 Amount 1.23 cfs

THIS IS TO CERTIFY, that JOE E. BERNASCONI
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 63-7674A issued pursuant to Application for Permit dated October 4, 1972,
and has submitted proof to the Department of Water Resources on November 28, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.23 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic (180 units)	from January 1 to December 31	at 1.23 cfs	and 216 acre feet
Irrigation	from May 15 to November 15	at 0.06 cfs	and 13.5 acre feet
Fire Protection	from January 1 to December 31	at 1.07 cfs	and N/A

(both dates inclusive)

Subject, however, to the condition that no more than 1.23 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
229.5 acre feet per year, said waters to be diverted within the SE 1/4 NE 1/4, Sec. 10, Twp. 3N,
