Dear Mr. Weber:

Our records show this unit has 240 feet of 8" x 2 x 1-1/8 column, and a 7 stage 10WHL bowl unit with porcelain lined impellers and an 8" short suction nipple.

Under original normal conditions, this unit would produce approximately 800GPM from 224 ft. less friction losses of about 5 feet, depending upon condition of the 8" column pipe which our records indicate was used pipe.

By copy of this letter we are requesting our representative in Twin Falls, Layne Pumps Incorporated to call on you.

Thanking you for your inquiry, we remain

Very truly yours,
