

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number 63-3603
Date Received: 8/21/1989
Receipt No: W004759
Received By:

AMENDED

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

1. Name of Claimant(s)

THE TERTELING CO INC Phone: (208)338-5200
3823 N 36TH ST
BOISE ID USA 83703

2. Date of Priority: 04/26/1967

3. Source: GROUND WATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 Lot	County	Type
04N	02E	22	NW	SW		ADA	
04N	02E	22	SW	NW		ADA	
04N	02E	22	NE	NW		ADA	

5. Description of diverting works:

ELECTRIC PUMPS, WELL, WATER DISTRIBUTION SYSTEM

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
IRRIGATION	03/15	11/15	1.03	351

7. Total Quantity Appropriated is:
1.03 C.F.S.

8. Total consumptive use:

SCANNED
OCT 05 2006

9. Non-irrigation uses:

10. Place of use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
04N	02E	22	NE	NW	IRRIGATION	3
			NE	SW	IRRIGATION	20
			SE	SW	IRRIGATION	12
			NW	NW	IRRIGATION	5
			NW	SW	IRRIGATION	22
			NW	SE	IRRIGATION	13
			SW	NW	IRRIGATION	3
					Section Acres	78
					Total Acres	78

11. Place of use in counties: ADA

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

Attorney name added per notification from Charlie Honsinger. DB 3/1/2004

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.

CLAIM AMENDED PER TRANSFER NO. 3990 APPROVED 9/5/1992.

USE OF WATER WITH A TEMPERATURE GREATER THAN 85 DEGREES FAHRENHEIT IS NOT AUTHORIZED UNDER THIS RIGHT.

USE OF LOW TEMPERATURE GEOTHERMAL WATER FOR IRRIGATION PURPOSES IS PROHIBITED, UNLESS THE HEAT IS FIRST REMOVED THROUGH ANOTHER BENEFICIAL USE.

APPROVAL OF THIS TRANSFER AUTHORIZES THE DIVERSION OF WATER FROM ONE PRODUCING WELL ONLY.

SEE ALSO ADDITIONAL CONDITIONS OF APPROVAL AS LISTED ON THE COPY OF APPROVED TRANSFER NO. 3990 APPROVED 9/5/1992.

THIS WATER RIGHT WAS LICENSED WITH THREE WELLS AS ALTERNATE POINTS OF DIVERSION, SWNW SEC. 22, COMMONLY REFERRED TO AS THE "POOL WELL"; THE NENW SEC. 22, KNOWN AS THE TERTELING ARTESIAN HOT WELL; AND THE NWSW SEC. 22, KNOWN AS THE WINDSOCK WELL.

HOWEVER, THE "MOTORCYCLE WELL" IN NWNE SEC. 22, WAS CONNECTED TO THE WINDSOCK WELL IN 1978 AND HAS BEEN AN ALTERNATE POINT OF DIVERSION FOR WINDSOCK SINCE THEN. IN 1997 THE CHAMPAGNE WELL WAS SUCCESSFULLY DRILLED UNDER AN APPROVED TRANSFER AND HAS BEEN ADDED AS AN ALTERNATE POINT OF DIVERSION FOR THE WINDSOCK AND MOTORCYCLE WELL ON RIGHT NO. 63-07595.

Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Govt. Lot, _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____
_____ 1/4, Govt. Lot, _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc), including the date of any changes or enlargements in use, the dimensions of the diversion works as constructed and as enlarged and the depth of each well.
See Attachments A, B, & C
6. Water is claimed for the following purposes:

	(both dates are inclusive)	(cfs)	(acre feet)
For <u>Irrigation</u>	purposes from <u>3/15</u> to <u>11/15</u>	amount <u>1.03</u>	or _____
For <u>stockwater</u>	purposes from <u>1/1</u> to <u>12/31</u>	amount _____	or _____
For _____	purposes from _____ to _____	amount _____	or _____
7. Total quantity claimed (a) 1.03 (cfs) and/or (b) _____ (acre feet)
8. Total consumptive use claimed is _____ acre feet per annum.

Last Name Terteling Ident No. 63-03603

6/99 Revision

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.)

Stockwater: 100 head.

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic)

in the corresponding place of use below. See instructions for standard symbols.

T W P	R N G	S E C	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE	NW	SE	SW	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	2E	22					3	3			20	20		12		10			68
							S	S				S							

Total number of acres irrigated 68

11. In which county(ies) are lands listed above as place of use located? Ada

12. Do you own the property listed above as place of use? Yes X No

If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above. 63-07595

or None () See Attachment D for measurements of these rights.

14. Remarks:

This water right was licensed with three wells as alternate points of diversion—the SW NW §22, commonly referred to as the "Pool well"; the NE NW §22, known as the Terteling Artesian Hot Well; and the NW SW §22, known as the Windsock well. However, the "Motorcycle well" in the NW NE, § 22, was connected to, the Windsock well in 1978 and has been an alternate point of diversion for Windsock since then. In 1997 the Champagne well was successfully drilled under an approved transfer and has been added as an alternate point of diversion for the Windsock and Motorcycle well on Right # 63-07595.

July 22, 1987

Mr. Rich Gemperle
State of Idaho
Department of Water Resources
2705 Airport Way
Boise, ID 83705

Dear Rich:

I want to thank you for taking a little extra time on July 21, 1987 to measure the flow of water from some of my springs and artesian wells and also to verify that it is being put to beneficial use on my property. I took some notes of most of your measurements and, for my records, I would appreciate it if you would verify whether or not these are correct.

In Ada County 4N 2E Section 22

Spring by the motorcycle gate	GPM 46
Artesian well " (restricted through a 1/2 in. pipe)	12.5
1 HP pump by the railroad trestle	23
1 HP pump " " (installed but not working)	-0-
10 and 7.5 HP pumps by the wind sock	166
75 HP pump " " " (hot water)	647

In Ada County 4N 2E Section 15

20 and 20 HP pumps by motorcycle club house (cold water)	300
40 HP " " " " (hot water)	344

Again I would like to thank you for measuring these flows of water and if I can be of any further assistance please let me know.

Very truly yours,

J. L. Terteling

Dear Mr. Terteling

This letter is in response to your inquiries about my discharge measurements obtained while conducted the field examination: for water right 63-7595. The following is a list of discharge measurements from my notes during the visit. In addition to this, the list also contains information on water rights pertinent to each well or spring.

Well or Spring	Water rights	Discharge (gpm)
----------------	--------------	-----------------

4N 2E Section 22

75 HP Pump	63-7595	646
	63-3604	
Spring by inverted Locust Trees	63-3603	46
Artesian Well	63-3604	12.5
1 HP Pump by Railroad Trestle	-	23
1 HP Pump (non functional)	-	-
7.5 and 10 HP Pump	not licensed (reused water)	166

GEO THERMAL

PART GEO THERMAL

4N 2E Section 15

20 HP submersible pump	63-7595	300
40 HP " "	"	344

GEO THERMAL

Please note that these discharge values from this field exam are still "unofficial" since the State Office of the Department of Water Resources has not reviewed the field report. If you have any questions please contact me before 8-20-87 or Jan Shurte after that date. Thank you for your time and assistance.

Sincerely

Richard J. Gemperle

Mr. J.L. Terteling
The Terteling Company
1755 Westgate Drive
P.O. Box 4127
Boise, ID 83704

Dear Mr. Terteling:

Enclosed is an internal memo report concerning my recent visit to your property to inspect the irrigation and "pool" wells. The memo is largely self-explanatory, but I did want to be sure you knew that, during an attempt to measure the water level in the pool well, I broke off about 80 feet of two-conductor coaxial wire when the probe became hung up. In my experience, this has caused no problems with pumps, and I don't expect it in your case. In future, when you next remove the pump for maintenance, please notify me and I will attempt to remove it from the well for you. I had much better luck with your other two wells.

In addition, I have recently written for information and specifications for flowmeters which are suitable for your installations and will send you copies as soon as they arrive.

I appreciate your cooperation in this matter and your willingness to instrument your wells. We, in turn, are interested in not requiring anything more than we need or the user can reasonably supply. If you should have any comments or questions, please feel free to call me at 334-7894 anytime between 7:30 and 4:00.

Sincerely,

Paul M. Castelin
Senior Hydrogeologist

Enclosure

cc: John Beal

MEMORANDUM

To: John Beal

September 19, 1988

From: Paul Castelin ^{PNC}

Subject: Field inspection of J.L. Terteling wells

I made a field visit to the Terteling property on 9/16/88 with the express purpose of determining whether the wells on the property were capable of depth to water measurement and to determine where and how flow meters and temperature probes should be installed. I was accompanied by Roy, the senior maintenance man for the property.

Pool well - this well is equipped with a 5-h.p. motor and an Aurora vertical lineshaft pump. It's used to supply warm water to the swimming pool and to the house for space heating. After the pool is filled, virtually all the flow of the pump is diverted to the house, with the return water cycled back to the pool, and then to a drain which eventually discharges to Sand Creek. Due to a very complex valving and plumbing arrangement immediately downstream of the pump base, the only decent location for a flow meter without extensive replumbing is on the 2" PVC house line.

Since the house line carries all the flow once the pool is filled, all that needs to be done to calculate total discharge is to determine the capacity of the pool, then add the metered flow to the house. The capacity of the pool to the level of the drains amounts to about 76,698 gallons. Roy indicated that it took about 24 hours to fill the pool, which would require a discharge of about 53 gpm, which seems to be reasonable for the pump and motor. Water from the well measured 44° C. (111° F.). An attempt to measure water level in the well failed when the probe hung up and eventually broke, leaving about 80 feet of cable in the well. Mr. Terteling will be notified of the cable, so that it can be removed the next time the pump is pulled for maintenance.

Lower irrigation well - Water level in this well could be measured through a space between the pump base and the top of the casing on the south side of the well. Water level was found to be about 82.57 feet below land surface at 1130 MST. Roy indicated that this well is very infrequently used, that the upper irrigation well was capable of supplying the needs of the farmer leasing the land. This well is incapable of being equipped with a flow meter, due to the branching of pipes and valving immediately downstream of the discharge head of the pump. I would suggest that we require an appropriate access port for water level measurement and appropriate flow meter piping and valving be installed as the well is modified or maintained in future. As it is, periodic water level measurements by the owner is about all that we can reasonably require on this well at this

time; however, in the event that the well is put into more consistent production in the future, we should be notified, so that required monitoring can be done.

Upper irrigation well - This well is doubly-completed, in that it has two casing strings, one (8-inch diameter) obtaining water from a cooler, shallower aquifer system, the other (14-inch diameter) from the deeper, warmer thermal aquifer system. The casing strings are not concentric, but were placed side-by-side in an oversized hole drilled to the completion depth of the shallower well. I confirmed this with a telephone call to the driller, Pete Cope. At the time of this visit only the cooler well was being pumped, flow rate unknown, with a temperature of 73.0° F.

Access to the smaller casing was impossible without an access hole being drilled either through the steel plate supporting the pump column or through the casing wall. Access to the larger casing, however, was possible through a space between the steel plate supporting the pump column and the casing wall on the south side of the well. The static water level in the thermal well was found to be 275.50 feet below land surface at 1230 MST. It is not known whether the pumpage of the cooler well has any effect on the water level in the warmer well. Access to both wells could be obtained simply by drilling and tapping holes in the 3/4 inch steel plates supporting the pumps. This should be done in conjunction with installation of the flow meter and temperature probe.

Discharge from the two wells ultimately "Y" together into a common steel mainline, 6" in diameter. Several feet downstream of the "Y" the composition of the mainline changes to Schedule 80 PVC, in which an Annubar tap required for licensing by the Department was installed. It is in this general location that an approved flow meter be installed. A temperature thermistor installed in a thermometer well just downstream of the "Y" will provide the information we would need to know: when each well was turned on and off as well as any temperature changes with short-term pumpage or from year to year.

Summary Mr. Terteling seems to be willing to equip his wells with data loggers to monitor the parameters we are interested in. If such be the case, two data loggers would be required; one at the "pool" well, one at the upper irrigation well. Each logger would monitor flow and temperature; water levels would have to be obtained through periodic water level measurement with an electric sounder or steel tape. In addition, periodic water level measurements through an improved access on the lower irrigation well needs to be started. Notification to the Department should be required if the lower irrigation well resumes production.

RE: Preliminary Order Rescinding a Transfer Approval
Transfer No. 3990 of Water Right No. 63-3603

Dear Water Right Holder:

Pursuant to your Petition to Rescind Transfer received on June 8th enclosed is the order. The accompany order is a "preliminary order" issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as described in the enclosed information sheet.

If you have any questions regarding this matter, please call me at 208-287-4947.

Sincerely,

Shelley W Keen, Manager
Water Right Permits Section

Enclosures

Cc: Vicky Music, IDWR Western Region

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF TRANSFER NO.)
3990 OF WATER RIGHT NO. 63-3603)
IN THE NAME OF TERTELING TRUST NO. 7)
_____)

**PRELIMINARY ORDER
RESCINDING A TRANSFER
APPROVAL**

This matter having come before the Department of Water Resources ("Department") as a result of a water right transfer application, the Department finds, concludes, and orders:

FINDINGS OF FACT

1. On October 5, 1992, the Department approved Application for Transfer No. 3990 ("transfer") submitted in the name of Terteling Trust No. 7 ("applicant"). The transfer authorized an additional point(s) of diversion under water right no. 63-3603.
2. The transfer was approved with conditions, including the following:

The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
3. On September 29, 1993 the applicant submitted a request to the Department to extend the time provided to accomplish the transfer.
4. On October 4, 1993, the Department granted an extension of time to accomplish the transfer to October 5, 1994.
5. On June 18, 2010, T-7, LLC, the successor in interest to Terteling Trust No. 7, together with the Terteling Company, Inc., the owner of water right no. 63-3603 as recommended in the Snake River Basin Adjudication, filed a Petition to Rescind Transfer with the Department. The petition asked the Department to rescind the approval of the transfer because the proposed new point(s) of diversion was never constructed and because the existing points of diversion listed by the applicant erroneously failed to include all existing points of diversion.

CONCLUSIONS OF LAW

1. The transfer to add point(s) of diversion was not accomplished as required in the condition approving the transfer.
2. The Department should rescind approval of the transfer as requested in the Petition to Rescind Transfer.

ORDER

IT IS THEREFORE HEREBY ORDERED that the approval for Transfer No. 3990, approved on October 5, 1992, is **RESCINDED** and that right 63-3603 shall revert to the right as it existed prior to the transfer approval.

Dated this 22nd day of June, 2010.

Jeff Peppersack, P.E.
Chief, Water Allocation Bureau

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Jeff Peppersack
Bureau Chief
Water Allocation Bureau
Idaho Department of Water Resources

Re: Transfer No. 3990/Water Right no. 63-3603

Dear Jeff:

Enclosed herewith, please find a Petition to Rescind the above referenced approved Transfer of Water Right no. 63-3603. As you and I discussed earlier today, the proposed points of diversion approved under the Transfer were never constructed, and the Transfer Application itself did not properly represent all points of diversion of water right no. 63-3603 at the time.

As we also discussed, we are working with Vicky Music of IDWR's Adjudication Bureau in an effort to resolve issues with this and other water rights claimed in the SRBA by my client. It is at her suggestion that I am submitting this petition. I invite you to contact myself, Ms. Music, or Nick Spencer should you need additional information or analysis to resolve the issues raised by this Petition. Finally, I request that, to the extent possible, IDWR expedite the processing of this Petition so that we can resolve the issues in the SRBA with Ms. Music and Mr. Spencer prior to upcoming deadlines. I am sorry to request this expedition as I am sure it further burdens your already busy schedule, but I simply must do so.

Thank you for your help earlier today, and for your expected cooperation with this matter. As mentioned above, please contact me with any questions or concerns you may have.

Sincerely,

Charles L. Honsinger

_____)

PETITION TO RESCIND TRANSFER

COMES NOW, T-7, LLC, the successor in interest to Terteling Trust No. 7, together with The Terteling Company, Inc., the recommended owner of water right no. 63-3603 in the Snake River Basin Adjudication, by and through their attorneys Ringert Law, Chartered, and hereby Petition the Idaho Department of Water Resources to rescind Transfer No. 3990, approved on October 5, 1992. This Petition is made for the reason that the proposed new point(s) of diversion approved under Transfer no. 3990 were never constructed, and for the reason that the existing points of diversion listed by the applicant for Transfer no. 3990 erroneously failed to include all existing points of diversion.

Dated this 18th day of June, 2010.

INSTRUCTIONS FOR MAILING

You must mail the response, including all attachments, to the Clerk of the Court. **FAX filings will not be accepted.** You must also send a copy to all the parties listed below in the Certificate of Mailing.

F. CERTIFICATE OF MAILING

I certify that on June 23, 2006, I caused to be hand delivered the original and caused to be mailed copies of this response, including all attachments, to the following persons:

1. Original to:

Clerk of the District Court
Snake River Basin Adjudication
253 Third Avenue North
P. O. Box 2707
Twin Falls, ID 83303-2707

2. One copy to the claimant of the water right at the following address:

Name: The Terteling Co. Inc.
Address: 3823 North 36th Street
Boise, Idaho 83703

3. One copy to the party who filed the objection. at the following address:

Name: Charles L. Honsinger
Address: Ringert Clark Chartered
P.O. Box 2773
Boise, Idaho 83701

4. Copies to:

IDWR Document Depository
P. O. Box 83720
Boise, ID 83720-0098

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: The Terteling Co Inc

Address: 3823 N. 36th Street

Boise, Idaho 83703

D. I object to the following elements as recommended in the Director's Report.
(Please check the appropriate box(es)):

1. ☐ **Name and Address**
Should be: _____
2. ☒ **Source**
Should be: See Section E
3. ☐ **Quantity**
Should be: _____
4. ☐ **Priority Date**
Should be: _____
5. ☒ **Point of Diversion**
Should be: T4N R2E S22 NWNE (Motorcycle Club Cold Well);
T4N R02E S22 NWNE (Champagne Cold Well)
6. ☐ **Instream Flow Beginning and Ending Point**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☐ **Place of Use**
Should be: _____
10. **I object because:**
 - ☒ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. **REASONS SUPPORTING OBJECTION(S):** To the extent that this water right authorizes the diversion of water from the Stewart Gulch Geothermal Aquifer it should not exist pursuant to *Silkey v. Tiegs*. In the alternative, consistent with the change in use of this right accomplished under Transfer No. 3990, the following provisions should be listed under "Other Provisions Necessary for Definition or Administration of this Water Right:" a) Diversion and use of geothermal water is not authorized under this right; b) The Motorcycle Club Well described as a point of diversion is a dual source tapping cold water and low-temperature geothermal water. Diversion under this right from that well is authorized only from the cold water source; and c) Right No. 63-7595 is also diverted from the two points of diversion described above. Some of the provisions listed under "Explanatory Material" should be deleted or corrected.

-not true
-already there
-no

Name: THE TERTELING CO INC.

Address: 3823 North 36th Street
Boise, Idaho 83703

COPY

D. I object to the following elements as recommended in the Director's Report. (Please check the Appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☒ **Source**
Should be: General Provision should state that the source of this water right is separate from any other source in Basin 63.
3. ☒ **Quantity**
Should be: Combined use remarks should either be deleted, or listed as combined diversion rate of 3.03 CFS and a total combined annual diversion volume of 817.7 AFY.
4. ☐ **Priority Date**
Should be: _____
5. ☐ **Point(s) of Diversion**
Should be: _____
6. ☐ **Instream Flow Description**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☒ **Place of Use**
Should be: The combined acreage remark should be deleted or listed as 181 acres rather than 171 acres.
10. ☐ **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION (S): Total irrigated acres for water right no. 63-7595 is 103 acres. Therefore the combined total acres of the two water rights should be 181 acres. There appears to be no valid legal basis for reducing the combined acreage from 181 acres to 171 acres or the quantity of the water right.

VERIFICATION (must be completed)

**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: November 29, 2005

Water Right Number: 63-3603

THE TERTELING CO. INC.
3823 N. 36TH ST
BOISE, ID 83703
Telephone Number: (208)338-5200

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Combined use limitations upon place of use, quantity and volume.

2. Describe the changes you wish to make in the proposed recommendation:

The combined use limitation should be deleted, or should be listed as 181 acres rather than 171 acres, 3.03 cfs rather than 2.83 cfs, and 817.7 afa rather than 771.5 afa.

3. Give a brief explanation as to why you disagree with these portions:

There appears to be no valid basis for reducing the acreage or the quantity of the water right.

____ I AGREE with this proposed recommendation; no changes need to be made.

11/28/2005

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

delete

Approval of transfer no. 3990 authorizes the diversion of water from one producing well only.

delete

The right holder shall accomplish the change authorized by transfer no. 3990 within one (1) year of the date of its approval.

"

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Water is 120 degrees F geothermal water.

delete

Transfer 3990 does not authorize the use of water with a temperature greater than 85 degrees F.

OK

Right No. 63-7595 is also diverted through two of the points of diversion described above.

delete

Failure of the right holder to comply with the conditions of transfer no. 3990 is cause for the Director to issue an order, cause why the approval of the transfer should not be rescinded.

to show

This right is subject to regulation by the watermaster of Water District 63S.

Charlie and Tom -

I am very sorry about the short timeline, however, the sheer number of claims filed by your client, including late claims filed only a few weeks ago and the confusion regarding the licenses 63-3603 and 63-7595 that resulted in amended claims being submitted just 3 weeks ago, have caused these preliminary DRs to be sent with a short NOE period. My deadline for having recommendations done is Dec 2 and the Basin 63 Part 2 DR is due to be submitted around Dec 13. Submitting a notice of error will most likely not affect my recommendations because I really don't think there are errors in the preliminary DRs that can be corrected by the NOE process, such as typos or changes in ownership, but you may submit them when you can through December 9. We will have to let the objection procedure handle the substantive issues as is usual.

8 of the 12 preliminaries sent this week [63-31056 is listed twice in your email] are associated with 3 of the 4 residences on the property and I attempted to group those together so they could be reviewed together. They are small domestic and stock.

Lastly, I will be adding to the recommendations for 63-12, 63-13, 63-15 and 63-308 the combined use POU remark for 171 acres. For 63-12, 63-13, 63-15, 63-3603 and 63-7595, I will be adding the temperature of the water. I will not send out an new preliminary on these.

Hope this helps -

Subject: Preliminary Recommendations/Notices of Error

Vicky: Preliminary recommendations for the following water rights have been sent via e-mail to Tom Terteling and I over the past two days:

11/23/2005

63-27649, 63-27671, 63-31054, 63-31055, 63-31053, 63-31050, 63-31052, 63-31062, 63-31056, 63-31057, 63-31056, 63-31058, 63-31060.

I did not receive one of these e-mails until I came into the office this morning. The instructions attached to the Preliminary Recommendations provide that the Notices of Error are due on Tuesday, November 29 - six days from today. My client has been out of town for several days, and the Thanksgiving holiday is tomorrow - I plan on leaving my office this afternoon at 2:00 to travel out of town, and will not be back until Monday. I do not know my client's plans, but I know he has been extremely busy and was expecting to be so for some time.

Given all of these factors, together with the facts that I have many other pressing matters I must address over the next several business days and that I believe my client's situation to be similar to mine, it is simply unrealistic to expect the Terteling Company to respond to 14 Preliminary Recommendations within a six-day period with an intervening four-day holiday weekend. We will attempt to review and respond to the Preliminary Recommendations as soon as possible, but it is simply impossible for us to get to them as quickly as provided.

Please respond with an extended timeline. Thank you.

Charlie Honsinger

Subject: preliminary director's reports 63-3603 and 63-7595

Charlie and Tom -

Attached are the preliminary DRs and Notice of Error [NOE] instructions for the licenses referenced above. As you know, the issuance of a preliminary DR is not a statutory requirement for IDWR but is an effort to identify errors and correct them before the DR is filed with the SRBA Court. You will see that the deadline for these NOEs is Nov 29 as the DR will be filed about 2 weeks later.

I reduced the acres, Q and afa for 63-7595 by the 10 acres in the SESE Sec 21 that was conveyed to Boise Parks and Rec and Medicine Cr Subdivision. Although I see that the most recent transfer filed in June 2005 attempts to transfer these acres to a PPU, I need deeds that substantiate that the water right was retained by claimant and the date of the conveyance to see if it qualifies as an accomplished transfer in POU, and if so, where it was transferred to at that time. I also deleted the domestic use and reduced the afa accordingly per your instructions during our meeting that claimant wanted the earlier priority date for as claimed in 63-31053. Hence, the domestic use for the main house and caretaker house will be recommended as 63-31053. The GIS layout is for illustrative purposes only.

Due to the short timeline for the DR, this is the most expeditious way to handle these prelim DRs. The remainder will hopefully follow this week.

Vicky: We have been searching through our files (including those given us by previous attorneys) and have spoken with client; we cannot figure out why the acreage was changed for 3603 and 7595. We would have addressed it at the time that we filed the transfer, but nothing in the files even indicates they were amended - and IDWR's website shows them as previously claimed. So, we are baffled. I'll be submitting Second Amended Claims to return the claims back to their original configuration as identified in our recently filed transfer application.

Thanks.

Charlie

Subject: 63-3603 and 63-7595

Hello Charlie and Tom -

After our meeting, I reviewed the new transfer application for the licenses referenced above, filed in June 2005 and currently on hold [no #. has been assigned]. During our meeting, Charlie, you indicated the map filed with the transfer app would answer questions re where the historically irrigated acres are. Unfortunately, it did not. Here is the problem.

The claims for the licenses were amended in 1999 by Joe Terteling, signed by him and Jeff Fereday as his attorney. 63-3903 was amended and claimed for 68 acres [originally licensed for 78]. 63-7965 was amended and claimed for 88 acres [originally licensed for 103 acres].

Total claimed per the amended claims is 156 acres instead of 178. The newest transfer is for 181 acres but there were 3 acres overlap when 63-7595 was licensed so we start with 178 total acres under these 2 licenses, not 181. There is no information in the claims or claim files to indicate why the 156 acres was claimed. One of the reasons the acreage was decreased was probably the 10 acres sold to and developed by Arrowhead Sub in the SESE S 22. These have to be subtracted from the total acres irrigated because no transfer was filed which would indicate that the claimant retained the water rights when the property was conveyed.

Maybe Joe remembers why these claims were amended. Anyway, I am bound by the amended claims to recommend not more than 156 acres for the licenses and reduce the quantity accordingly.

Subject: Terteling Company and TT-7, LLC SRBA claims

Dear Vicky:

Based upon the conversation between yourself, myself, Tom Terteling and Jan Shurte of earlier today, this e-mail will notify you that water right nos. 63-27649, 63-27671, 63-31054 and 63-31055 are all diverted into the same system and consequently irrigate the same place of use. Therefore, I hereby request that these water rights be recommended as irrigating the same permissible place of use.

thank you.

Sincerely,

Charlie Honsinger

Charlie and Tom -

The Director's Report for Basin 63 Part 2 will be submitted to the SRBA Court the week of December 12. Internal IDWR deadlines in preparation for the Director's Report require that I have all of the supporting documentation for claims to be recommended in this Director's report by October 31, 2005.

Please submit all supporting documentation for the Terteling claims, including the amended claims, by October 31, 2005. If I do not have the information by that time, I will recommend the claims based on the information I have.

Re: Terteling Company and T-7, LLC water rights

Dear Mr. Westra:

This correspondence will notify you that my clients, the Terteling Company and T-7, LLC, have requested that I be designated as the attorney of record for all matters involving any water rights that they own. Such matters include SRBA claims filed by my clients, as well as any other water right proceedings in which they are currently involved. Please ensure that such changes are made to IDWR's records as are appropriate.

Thank you for your assistance, and please feel free to contact me with questions or concerns.

Sincerely,

Charles L. Honsinger

IDAHO DEPARTMENT OF WATER RESOURCES
Adjudication Claim Report 63-3603

Conditions of Approval:

1. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
2. R32 This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.
3. CLAIM AMENDED PER TRANSFER NO. 3990 APPROVED 9/5/1992.
USE OF WATER WITH A TEMPERATURE GREATER THAN 85 DEGREES FAHRENHEIT IS NOT AUTHORIZED UNDER THIS RIGHT.
USE OF LOW TEMPERATURE GEOTHERMAL WATER FOR IRRIGATION PURPOSES IS PROHIBITED, UNLESS THE HEAT IS FIRST REMOVED THROUGH ANOTHER BENEFICIAL USE.
APPROVAL OF THIS TRANSFER AUTHORIZES THE DIVERSION OF WATER FROM ONE PRODUCING WELL ONLY.
SEE ALSO ADDITIONAL CONDITIONS OF APPROVAL AS LISTED ON THE COPY OF APPROVED TRANSFER NO. 3990 APPROVED 9/5/1992.
THIS WATER RIGHT WAS LICENSED WITH THREE WELLS AS ALTERNATE POINTS OF DIVERSION, SWNW SEC. 22, COMMONLY REFERRED TO AS THE "POOL WELL"; THE NENW SEC. 22, KNOWN AS THE TERTELING ARTESIAN HOT WELL; AND THE NWSW SEC. 22, KNOWN AS THE WINDSOCK WELL.
HOWEVER, THE "MOTORCYCLE WELL" IN NWNE SEC. 22, WAS CONNECTED TO THE WINDSOCK WELL IN 1978 AND HAS BEEN AN ALTERNATE POINT OF DIVERSION FOR WINDSOCK SINCE THEN. IN 1997 THE CHAMPAGNE WELL WAS SUCCESSFULLY DRILLED UNDER AN APPROVED TRANSFER AND HAS BEEN ADDED AS AN ALTERNATE POINT OF DIVERSION FOR THE WINDSOCK AND MOTORCYCLE WELL ON RIGHT NO. 63-07595.
4. T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
7. Attorney name added per notification from Charlie Honsinger. DB 3/1/2004

9. Irrigation costs: Describe the lands irrigated by giving the acreages irrigated within each 40 acre sub-division.

[illegible]

10. Remarks: Water from springs goes into same reservoir as water from artesian well in NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 22. Well in NW $\frac{1}{4}$ of SW $\frac{1}{4}$ will irrigate most of the above land and water from springs and artesian wells will supplement for remainder. Well in SW $\frac{1}{4}$ of NW $\frac{1}{4}$ was drilled in 1948, and artesian well in NE $\frac{1}{4}$ of NW $\frac{1}{4}$ was drilled prior to 1940, and water has been put to beneficial use since that time.

Dear Mr. Terteling:

Modification Order
Permit for Water Rights

We have received a request from the State Reclamation Engineer regarding the points of diversion for the water rights on your Peaceful Cove property. Accordingly, the following information is submitted:

<u>SOURCE</u>	<u>FLOW</u>	<u>LOCATION</u>
Flowing well	.055 CFS	Northeast quarter of the northwest quarter of Section 22, T4N, R2E, BM
Springs	.066 CFS	Northwest quarter of the northwest quarter of Section 22, T4N, R2E, BM
Cold Artesian Well	.092 CFS	Southwest quarter of the northwest quarter of Section 22, T4N, R2E, BM
Pumped Hot Water Well	.122 CFS	Southwest quarter of the northwest quarter of Section 22, T4N, R2E, BM

5460M 1979

We hope this information will be useful in obtaining your water right.
If we can be of further help in this matter, please call upon us.

Yours very truly,

CORNELL, HOWLAND, HAYES & MERRYFIELD

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder J. L. TERTELING
- b) Post Office Address Post Office Box 1428, Boise, Idaho 83701
2. Permit Number G 33602/63-3603
3. Date of Priority that you are prepared to establish April 26, 1967
4. a) Source from which water was appropriated Wells
- b) Location of the point of diversion: NE 1/4 NW 1/4 Section 22
Township 4N Range 2E Boise Meridian, Other points of diversion: SW 1/4 of NW 1/4 & NW 1/4 of SW 1/4 Sec. 22 T. 4 N., R. 2 E., B.M.
5. a) The amount of water and use to which the water has been applied:
amount .055 cfs for Irrigation and Stock Water purposes from Jan 1st to Dec. 31 incl.
(cfs and/or acre foot per annum) (Month-Day) (Month-Day)
amount .214 cfs for Irrigation and Stock Water purposes from Jan 1st to Dec. 31 incl.
(cfs and/or acre foot per annum) (Month-Day) (Month-Day)
amount 0.90 cfs for Irrigation and Stock Water purposes from Jan 1st to Dec. 31 incl.
(cfs and/or acre foot per annum) (Month-Day) (Month-Day)
b) Total amount appropriated 2.8 cfs and/or acre foot per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: See letter of CH2M dated Feb. 24, 1970 for 2 Small Wells - Well in NW 1/4 SW 1/4 measured at time well tested.
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: _____
b) Describe the agreement or understanding by which you take water from the works: _____
7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Artesian Well in NE 1/4 NW 1/4 flows into reservoir and goes into Sprinkler system
Well in NW 1/4 SW 1/4 pumps into sprinkler system. 600 well-16" & 10" casing. Pump 50 hp 6" Discharge
b) Describe the type and size of measuring device which you have installed at your point of diversion: _____
c) Give well drillers name and address and date the well was completed Two Old wells Driller unknown, Well in NW 1/4 SW 1/4 Sec. 22, Kenneth Witt, Caldwell, Idaho April 1969.

RE: Snake River Basin Adjudication
 Request for Notices of Claim to a Water

Dear Teresa:

On Friday, March 10, you requested that I send you claims for eight water rights, whose numbers you provided to me. I have been able to print out the claim forms for the following five water right numbers:

63-03603
 63-07395A

63-03604
 63-07720
 08561

63-07595

Please be sure to verify all information contained in the forms, as well as completing Items 5, 8, and 13 where necessary

Two of the water right numbers have lapsed. Water Right 63-09288 lapsed in 1984. The original application listed the source as groundwater, with 3.0 cfs to be used on 150 acres of irrigation.

Water right 63-07720 lapsed in 1983. The application listed irrigation, domestic and stockwater uses. This was for use in the Seaman Gulch area and proof of beneficial use was originally due in 1978. An extension of time to 1983 was granted. Another extension was denied, and the permit lapsed. This development appears to be related to the Boise landfill; according to the first extension of time form, 2 wells had been drilled, however, they did not produce as expected.

MICROFILMED

JUL 25 1994

Teresa
The Terteling Company, Inc.
March 14, 1989

The last number you gave me, 65-04040, was disallowed during the Payette Basin Adjudication in 1977. The original claim was for stockwater use, however, during the adjudication process, the use was disallowed due to either abandonment or forfeiture.

Please let me know if I can assist you in any way.

Sincerely,

Helen Harrington
Water Rights Agent
