1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

purpose of use - states currently as use for 2 homes.
There are actually 3 homes on the property

2. Describe the changes you wish to make in the proposed recommendation:

Quantity adjustment for 3 homes vs 2.

3. Give a brief explanation as to why you disagree with these portions:

The state holds us to a higher level of homes/people for permitting & building standards for water treatment. The water flowing to property should also account for the higher number of homes & people served.

☐ I AGREE with this proposed recommendation: no changes need to be made.
