RE: Notice of Change of Water Right Ownership (NCO) for 22-13245, 22-13247
and Notice of Completed Administrative Proceeding (NCAP)

Dear Sir or Madam:

On January 11, 2007, the Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

(B). TITLE COMPANY: The parties agree that Alliance Title Company located at Driggs, ID shall provide title policy and preliminary report of commitment.

(C) STANDARD COVERAGE OWNER'S POLICY: SELLER shall within a reasonable time after closing furnish to BUYER a title insurance policy in the amount of the purchase price of the premises showing marketable and insurable title subject to the liens, encumbrances and defects elsewhere set out in this Agreement to be discharged or assumed by BUYER. The risk assumed by the title company in the standard coverage policy is limited to matters of public record.

(D) EXTENDED COVERAGE LENDER'S POLICY (Mortgagee policy): The lender may require that BUYER (Borrower) furnish an Extended Coverage Lender's Policy. This extended coverage lender's policy considers matters of public record and additionally insures against certain matters not shown in the public record. This extended coverage lender's policy is solely for the benefit of the lender and only protects the lender.

(E) EXTENDED COVERAGE OWNER'S POLICY: A standard title policy does not cover certain potential problems or risks such as liens (i.e. a legal claim against premises for payment of some debt or obligation, boundary disputes, claims of easement and other matters of claims if they are not of public record at time of closing.) However, under Idaho law, such potential claims against the premises may have become legal obligations before the purchase of the home and yet may not be of public record until after the purchase. It is recommended that BUYER talk to a title company about what it offers in the way of extended coverage title policies and endorsements. This extended coverage owner's policy is for the benefit of the owner and provides similar coverage like provided by the extended coverage lender's policy.

RE: CHANGE IN WATER RIGHT OWNERSHIP FOR 22-13245,
22-13247

Dear Sir or Madam:

It has come to our attention that you may have recently purchased a tract of land in Teton County Idaho. The property to which I am referring was most recently owned by the McWethy family. The legal description is as follows:

T05N, R45E, S33, SE 1/4

This property was filed on in the Snake River Basin Adjudication (SRBA), and we recommend that if, in fact, you now own the property in question, you file a "Change in Ownership" with this department in order that we may send all further correspondence to the appropriate owner(s).

Enclosed is a Change in Ownership form. Please fill out the form completely, sign and date it and return it to my attention along with a "copy" of your Warranty Deed and legal description of the property you have purchased.

If you have questions regarding this matter, please call 525-7161.

Respectfully submitted,

To those concerned;

Please review this letter to set evidence of priority of beneficial use of water right claim no. 22-12081. After trying to gain history of my property by talking to family members of the previous owners / renters. The best source I have is Leslie Henrie. He is since deceased but his son Gary Henrie states that he and his family moved to town (Driggs) in 1948. His dad purchased the property next to mine, which then belonged to Edgar Cordon whose estate I bought it from. They milked a few head of cows and had some pasture on their place. They were able to run them at times on the Cordon property. The ditches were already established and the property was irrigated from this water source at that time, just as it is to this day. I'm not at all sure much longer it was before 1948.

The map I made and sent with the General Adjudication claim on my property filed in 09/1988 case # 39576 should show the areas on my place that I am able to irrigate with this water source. I owned this property since 1984. I hope this will provide the proof needed to set the priority date.

Thanks

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-13245

Dear Claimant (s):

The Idaho Department of Water Resources is beginning water rights review in Basin 22, the Teton Valley area. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of June 19, 1920, from TETON CREEK.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-13245

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 22, the Teton River drainage. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of JUN 19 1920, from TETON CREEK..

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.
