

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A63-04010
Date Received: 3/14/1990
Receipt No: W011049
Received By: _____

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: THE RIVERSIDE IRRIGATION DISTRICT LTD.
Address: PARMA, ID 83660-0000

2. Date of Priority: DEC 01, 1915

3. Source: WEST END DRAIN Trib. to: BOISE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
04N	04W	16	SE	NE			CANYON

5. Description of diverting works:
CHECK DAM COMPOSED OF CONCRETE

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	03/15	11/15	70.000		

7. Total Quantity Appropriated is:
70.000 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 42069.3 Acre Feet Per Annum.

9. Non-irrigation uses:
NONE

10. Place of Use:

Township	Range	Section	1/4 of	1/4 of	Lot	Use	Acres
04N	01W	1	NE	NW		IRR	10.0
			NW	NW		IRR	30.0

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	03/01 11/15	<u>8.600 CFS</u> ~~5.0 CFS~~

PLACE OF USE:

10158 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right when combined with Right Nos. 63-226, 63-277, 63-228, 63-229, 63-299, 63-300, 63-2279, 63-2374, 63-2389, 63-4008, 63-4009 and 63-4010 can be used to irrigate up to 10158 acres within the boundary of the Riverside Irrigation District.

Place of use includes the irrigation of 4252 acres within the State of Oregon.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

Subject: RE: SRBA Subcase Nos. 63-4007 & 63-4010 (Riverside)

I think AI's objections were only to the quantity, and it looks like that's resolved. Dana had the "ownership/title" objections that she w/drew. The only mention that I noticed to the waste water was in the e-mail. I don't see any proposals. It looks like we can go with the original language. I'll let AI know that we will proceed with the SF5s, unless either of you want me to hold up. I can let him know that there is a wastewater remark in the "other provisions" portion of the recs as well.

Subject: RE: SRBA Subcase Nos. 63-4007 & 63-4010 (Riverside)

I don't remember the status of these vis a vis wastewater. Did Riverside or Obendorf object to the original wastewater remark? Did we propose to AI (and Dana if Obendorf objected to wastewater) that we substitute the "new and improved" version of the remark? Unless somebody objected to the remark we originally recommended--or unless we subsequently proposed something different--I think we should just stick with the original version. NBS

Hi Ray,

I am attaching a copy of Nick's email concerning the wastewater issue. If you look at both rights they have the original wastewater language that we used for B63Prt3 on them. I have the measurements and have agreed to change the recommendations, however, due to the message attached I thought there was an outstanding issue with the wastewater language. After you respond to AI, please let me know and we can get these out.

Thanks,
Jan

Subject: RE: SRBA Subcase Nos. 63-4007 & 63-4010 (Riverside)

Our objection was to the volume on these two rights. We sent some measurements in taken by Lee Sisco. I understood that we had an agreement on the volume based on those measurements. I don't have any wastewater language issue that I remember. I don't see a waste water remark on the Riverside did object to the number of acres originally recommended and I thought we had that issue worked out, too? Did that get taken care of at the Notice of Error stage?

Al,

With the Obendorf objections withdrawn, we should be ready to complete SF5s on these two water rights. In looking back at the notes in the files, it looks like you were considering providing us with some alternative language for the wastewater remark. If you could let us know what you would like the remark to look like, we should be able to take care of these pretty quickly.

Thanks,

Ray Williams

Subject: RE: 63-4007 and 63-4010 (Riverside Irrigation District)

Yikes! I just got off the phone with Al Barker about the wastewater remark, and in passing I mentioned we were doing SF-5s for these two. He told me that after he had sent Lee Sisco's measurements over he had remembered that these two also have Dana Hofstetter's objection seeking the U.S. v. Pioneer Irrigation District split title language. I had forgotten that about these two having objections by Dana. He said he had too until just recently. So, we can't sign SF-5s for them yet. Al said he is going to call Dana to talk to her about her objections, so maybe, hope, hope, he'll be able to make some headway with her since she indicated at initial hearings that she was amenable to considering his arguments for why the language isn't necessary. Also, he told me he wants to do more thinking about our proposed wastewater remark. I told him to get back to us with alternative language if he had problems with the language we have proposed. NBS

Boise, Idaho 83702

Dear Al,

This letter is to confirm the measurement that I made on your behalf while still Watermaster of the Boise River. The measurement of the West End Drain was made on October 4th, 2007 and was done with a Double A Current Meter and the flow measured on that day was 92.83 cubic feet per second. Also, I looked at a measuring site for the Meadow Gulch Drain but there was insufficient water at the site to make a measurement. At the site there was a 24 inch culvert about twenty feet in length with evidence that at least one foot of head had regularly been against the concrete head wall above the pipe. In reviewing pipe capacity charts, I estimated that the pipe would carry about 8.6 cubic feet per second of flow under these conditions.

Should you need any additional information or help regarding these measurement, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lee Sisco".

Adjudication Memorandum

Date: 5/6/09

Right No.(s) 63-4007 & 63-4010

From: Jan Thunte

Re: the withdrawal of objections for Ray Obendorf ^{on 5/1/09} we can now proceed with the settlement of the cfd amounts.

On 8/25/08 we received measurements from Lee Trico while he was still watermaster for the Boise River showing that the Meadow Gulch Drain (63-4007) could flow through its system 8.6 cfd & the system for the West End Drain was measured with a Double AA current meter at 92.83 cfd.

Therefore, the settlements for 63-4007 will be to increase the cfd to ^{8.6} ~~8.6~~ cfd and 63-4010 will be increased to 20 cfd.

Re: Riverside Irrigation District Objections to Rights 63-4007 and 63-4010

Dear Nick:

At the initial hearing on these two water rights, I advised you and the Department that we had obtained additional measurements supporting the basis for the objections to these two rights. In 63-4007, the Meadows Gulch Drain, Riverside claimed a diversion rate of 10 cfs. The Department recommended 5 cfs. We asked Lee Sisco, the water master for District 63 to conduct measurements. He calculated flow at the entry to the canal from the Meadows Gulch Drain at 8.6 cfs. Riverside requests that the Department adjust its recommendation and Riverside would be willing to execute an SF5 for 8.6 cfs for the Meadows Gulch Drain right (63-4007).

The West End Drain was claimed in the rate of 70 cfs. The Department recommended 30 cfs. Last fall the water master for District 63, Lee Sisco, also measured the flow into the Canal from the West End Drain as described in his attached letter. The flow measurement was 92.83 cfs. Accordingly, the Riverside irrigation District requests that the right (63-4010) be decreed as claimed since the flow into the canal exceeds the amount of water claimed for this right.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Riverside Irrigation District, Ltd.
post office address Parma, Idaho
2. The point of diversion is in SE $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 16 Township 4N
Range 4W B.M. located on West End Drain
(name of source)
tributary to Boise River in Canyon County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
December 1, 1915 amount: 70 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 70 c.f.s. or _____ acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use irrigation and domestic period of use from March 15 to October 20 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; with at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known West End Drain enters the Riverside Canal without a structure; that water is carried in the Riverside Canal for about a mile before it is diverted into a slough that enters the Boise River in the non-irrigation season; otherwise it is used.
 - b. Underground water diverting works: is well flowing or pumped _____ ; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m.; name and address of well driller is _____ ;

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain _____

c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is 32 feet; width of bottom of ditch is 25 feet; depth of water is 3 feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is dirt and gravel; maximum length of pipe line to first place of use is 3 1/2 miles; diameter of pipe line is _____ inches; type of pipe _____; grade of pipe per 1000 feet is _____.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____

d. If water is stored: name of reservoir _____; total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet; year construction commenced _____; year completed _____; date first used _____; period of storage is from _____ to _____; is reservoir drained each year _____; is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

Total number of acres to be irrigated

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? No If yes, give the name of the ditch
_____. The other users and their respective
interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

Permit No. 11907 was filed with the Department of Reclamation. Proof
of Completion of works was submitted and fees paid. However, beneficial
use of water was never made. This claim is filed to replace this
permit in order to retain the original priority.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with
all attached information and certifies that all statements are true and accurate to the best of his knowledge.

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Roc P. Helms, age 53, Roswell, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Riverside Irrigation District, Limited, principal place of business, Roswell, Canyon County, Idaho, Superintendent.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 11907, dated Jan. 10, 1916, 70 cubic feet per second, source, West End Drain, Tributary to Boise River, Point of diversion is E 34827, W 24021 from NE corner Sec. 16, Twp. 4 N., R. 5 W., B. M.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation purposes, number of acres, 7097, see description of land attached hereto.

Ques. 5. State whether or not the works of diversion, and, if so, when and to what extent.

Ans. Yes, 70 cubic feet

Ques. 6. State whether or not the works of diversion, and, if so, when and to what extent.

Ans. Yes.

Ques. 7. If the works of diversion, and, if so, when and to what extent.

Ans. The works comply with

Ques. 8. Give description of work, same.

Ans. Headgate 32 feet wide at water line, depth of contract price for all was 4

I hereby certify that the foregoing that I believe him to be the person he r and sworn to before me, in

Canyon, State of I

January, A. D

My Commission expires Nov. 8,

6. The amount of lands for which said water is available is 7097 acres, particularly described as follows:

Lot 7, Sec. 6, T. 4 N., R. 4 W., B. M., 6 acres.

Lot 4, Sec. 1, T. 4 N., R. 5 W., B. M., 6 acres.

My Commission expires **Nov. 8, 1919.** Residence, **Caldwell, Idaho**, **Notary Public.**

REPORT OF ENGINEER

Complete

Permit No. 11907 and not for permit Riverside Irrig. District #11907
 To supply West End Drain 20 sec ft.
 Location of diversion S 1/4 Sec 16, T 1 N, R 4 E, B 1 E.
 Point of diversion is 234' 27" N, 2492' from N.E. cor. of said Sec 16.

Are the works of divers now fully completed and in accordance with terms of permit? *Fully Completed.*

5. Describe works as they exist, giving dimensions and capacities of same: *Government Drain ditch, 25' on bottom, 35' on water line, 7' deep - grade about 3' to mile - empties direct into Riverside Canal, which as present carries all the water that comes thru this drain. Pipe gulch drain #11822 - also empties into West End Drain - The Riverside District plans on building an overshot over their Canal, into Dixie Slough, in order to care for surplus waters.*

6. State whether or not water has been turned into works of diversion: *Yes - running about 30 sec ft. at time of exam.*

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): *Applied to lands in Riverside Irrig. District, as per filing.*

8. Submit map on enclosed plat, showing location and details of above description. *See Map on file.*

Remarks:

This examination was made on the *5th* day of *June*, 1916

(Signed)

Examiner.
