STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

MEMORANDUM

Date: November 16, 2009

To: Water Right No. 63-4053, Evelyn Loveless

From: Jan Shurte, Water Rights Supervisor

Subject: Explanation of Water Rights Pertaining to Above Right

During the resolution of the objection for the above water right, research was conducted into overlapping water rights for the land covered by this right.

The water right holder, Evelyn Loveless, has the following irrigation rights for this land:

Water Right No. 63-4053 – 95 acres of irrigation and 95 inches of water from the Isham Drain.

Water Right No. 63-4828 – 13 acres of irrigation and 13 inches of water in the southeast corner of the property from a spring source.

Wilder Irrigation District – 86 acres of irrigation. Per phone conversation with the Wilder Irrigation District they do not have shares and could not give me the amount of water, only that the water right holder pays for 86 acres of irrigation from the Wilder irrigation district.

In my conversation with the Wilder Irrigation District I was also informed that their water is in addition to that diverted by the water right holder from the Isham Drain or any other source.

I will place a copy of this memo in the above water right from Isham Drain and in Water Right No. 63-4828 which covers the spring source.

Hi Renea,

I screwed this one up. Just read the email below. I know that Paul wanted to talk with her about it or show it to her, but I complicated matters. Would you please send the attached SF5 to Ms. Loveless with a coverpage? In the status conference it sounded like Bruce's office was going to have the SF5 signed for Severn that day.

How about if we just send it with the cover page to her. It appeared that Bruce Smith's office almost has Severn's signature, so we'll wait and see on that one. Sound ok?

Attached are the SF5s we spoke of this morning. These reflect the wastewater condition agreed upon. Please look them over and let me know if any other changes need to be made.

Paul, I know you would like to send the Loveless's SF5 out to explain it and if you could then send it on to Renea for the coverage and signatures after speaking with Ms. Loveless that would work.

The SF5 for Severn just needs approvals sent back to Renea and she can send it out with the cover page and keep tracking on it.

If anyone has any questions concerning these SF5s, please let me know. Renea, these were done a little differently because Ms. Loveless needed someone to explain the situation to her as she has no representation.

Hi Paul

My notes reflect that the ww remark has been agreed upon but that Mr. Severn contends that his diversion structure is more than a pump in a drain. As such Bruce wanted to inspect it to see if he needed some type of language that would accommodate the agreement better and that BOR wanted to accompany him on that inspection. And that you were also waiting on Wilder Irrigation to look at the pump. Has this all been done? I would rather wait and ask Jan to draft a recommendation when we are sure we have all our ducks in a row rather than ask her to do something that might possibly have to be revised again. I would be glad to contact Bruce's office to see what the status is and we can go from there.

Name & Address of Attorney, if any:

Albert P. Barker

Barker Rosholt & Simpson, LLP

1010 W. Jefferson, Ste. 102, Boise ID 83702

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Evelyn Loveless

Address: 120 Horizon Dr.

Boise, ID 83702

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be: _____

2. ☒ **Source**

Should be: The source should be described as waste waters, and waste waters belong to the Wilder Irrigation District. Wilder Irrigation District Delivery.

3. ☐ **Quantity**

Should be: _____

4. ☐ **Priority Date**

Should be: _____

5. ☐ **Point of Diversion**

Should be: _____

6. ☐ **Instream Flow Beginning and Ending Point**

Should be: _____

7. ☐ **Purpose(s) of Use**

Should be: _____

8. ☐ **Period of Year**

Should be: _____

9. ☐ **Place of Use**

Should be: _____

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. Proposed wastewater remark does not sufficiently protect original appropriator. Claimant diverts from drain as delivery point for Wilder Irrigation District deliveries.

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant J. L. Horrace
post office address Route 6, Caldwell, Idaho 83605
2. The point of diversion is in SW $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 21 Township 3N
Range 4W B.M. located on Isham Drain
(name of source)
tributary to SNAKE RIVER in Canyon County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
April 1930 amount: 2.0 c.f.s. or acre feet
amount: c.f.s. or acre feet
amount: c.f.s. or acre feet
Total claimed c.f.s. or acre feet.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8</u> c.f.s. or	_____	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4</u> c.f.s. or	_____	acre feet
		Total claimed:	<u>1.2</u> c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Re: Notice of Claim to a Water Right No. 63-4828 & 63-4053

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

MEMORANDUM

TO: File
From: Liberty Gagnon
Date: November 9, 2004
Subj: 63-4828, 63-4053 & 63-2726

We received this C/O and it was sent to Karilynn to do the 63-2726 portion of it. The Deed and legal description that was originally sent was incorrect. It was for T7N R1W SEC 1 and the water rights are T3N R4W Sec21. Karilynn got the Tax notice and faxed a copy to us and we did the change of ownership with that information.

Thank you.

The United States of America
To all to whom these presents shall come, Greeting:

IDI-34003 3F

WHEREAS

Evelyn Loveless

is entitled to a land patent pursuant to Section 206, Act of October 21, 1976, as amended (43 U.S.C. 1716) for the following described land:

Boise Meridian, Idaho
T. 7 N., R. 1 W.,
Section 12, SW $\frac{1}{4}$ NW $\frac{1}{4}$.

Containing 40 acres.

NOW KNOW YE, that there is, therefore, granted by the **UNITED STATES** unto Evelyn Loveless, the land described above; **TO HAVE AND TO HOLD** the said land with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, there unto belonging, unto Evelyn Loveless, and to her heirs and assigns, forever; and

EXCEPTING AND RESERVING TO THE UNITED STATES a right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat.476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

GIVEN under my hand, in Boise, Idaho, the thirtieth day of April in the year of our Lord two thousand and three and of the Independence of the United States the two hundred and TWENTY-SEVENTH.

CECIL HORRACE

SUBJECT: TRANSFER TO ADD P/D

1. Called back Cecil after doing field exam on Isham drain. I found that a pump was being used to divert water from Isham Drain that was added in 1993.
2. He had thought this water in Isham Drain was his own waste water from what he was told to him by Ken Henley of the Boise Board of Control.
3. I told Cecil I would double check with our Regional Manager, Dave Tuthill to see if he agreed with me that Cecil needed a Transfer to add a P/D. Then, I would call him back.
4. Other issues we talked about was related to some possible illegal alteration of Isham Drain by his neighbor. I told Cecil I would talk to our Stream Protection agent to see if anything could be done now or if it was ever brought to his attention when it happened.

Permit No. 17680

This proof is for BEN USE

In Water District No.

1. Name of applicant Floyd F. Hubler
2. Source of water supply: Isham Drain
3. Location of point of diversion: Is in the Lot 3 of Section 21
T. 3 N R. 4 W County of Canyon
4. Describe works as they exist, giving dimensions and capacities of same: Diversion is by dirt dam 30' long and 7' high across drain, and a small ditch 2 ft wide x 1 ft deep
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): Lots 2, 3, and 4, Section 21, T. 3 N., R. 4 W. B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River
- Remarks: This land is within the boundary of the Boise Irrigation Project which claims "All water, seepage, spring and percolating water arising within the project"
Interception and use of this water is made by the individual interested therein

SUBJECT: A63-02476, -4053, -4828

Cecil originally called to re-schedule our 09:00 appointment on the 16th of August.

After a long talk about the use of water from Isham drain, we kept the regular FX scheduled.

He said that he might have Ken Henley meet with us during the exam, he has worked for the Boise Board of Control and can put a lot of in put for info on this drain.

I told Cecil that at this point I really was interested in performing the exam and not to get into the controversial stuff at this time, but I had no objection to talking to Ken Henley.

being first duly sworn,

deposes and says: The property at 21733 Apricot Lane, Caldwell, Idaho, 83605 was homesteaded by my grandmother, Nora M. (Wheeler) Wright, Billingsley, in 1906.

~~My father and mother, Floyd F. Hubler and Laura F. (Wright) Hubler bought this property in 1930. Than sold it to J. L. Horrace and Ruby A. Horrace in 1949.~~

Ruby A. Horrace still owns $\frac{1}{2}$ and J.L.Horrace's $\frac{1}{2}$ is in a living Trust.

I was born Feb. 3, 1930, my parents, Floyd F. and Laura F. Hubler were living on this property at that time. My father farmed this property, and I helped him irrigate it until I was 19 years old in 1949. We took water from the Isham Drain in two places and irrigated the rest from the springs that were on the place.

Space is provided in the next 6 pages for reporting almost all the crops grown in any part of the United States. Similar crops such as small grains, hay crops, vegetables, etc., are grouped in sections. If you did not harvest any of the crops in a section, you can mark (X) the "No" box for the first question and skip to the next section. Please report only whole acres and whole units of production except where space is provided for reporting tenths. Leaflet "Section 8-23," provides additional information and an example showing how to enter your answers.

Re: Claim No(s). A63-04053

A63-04828

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
