

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A63-04239
Date Received: 8/30/1989
Receipt No: C010660
Received By: DE JOL

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: STILLWELL 117 RANCH INC 208-286-7436
Address: 7830 NORTH STAR RD
MERIDIAN ID 83642

2. Date of Priority: JUN 1, 1928

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
04N	01W	20	NW	NE			ADA

5. Description of diverting works:
WELL, PUMP AND PIPELINE.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	04/01	10/01	0.140		
STOCKWATER	01/01	12/31	0.020		
DOMESTIC	01/01	12/31	0.020		

7. Total Quantity Appropriated is:
0.150 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:

DOMESTIC, 1 HOME; STOCKWATER, 400 COWS

10. Place of Use:

Township	Range	Section	1/4 of	1/4 of	Lot	Use	Acres
04N	01W	20	NW	NE		IRR	7.0
			NW	NE		DOMEST	

10. Place of Use: Continued

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
04N	01W	20	NW NE		STOCK	

Section Acres 7.0

Total Acres 7.0

11. Place of use in counties: ADA

12. Do you own the property listed above as place of use? YES

13. Other Water Rights Used:
NONE

14. Remarks:

CHARLES L AND/OR MARY E STILLWELL INCORPORATED AS STILLWELL

Required
Info?

1. Is the name and address complete with zip code? ✓ use 12-31-82 OK ✓ *
2. Is a priority date entered? ✓ *
- Is the priority date acceptable in view of mandatory filing dates?
See Adjudication Memos #1 and #4 to determine if a Permit is required. ✓ *
3. (a) Is a source entered? ✓ *
- (b) Is a tributary to entered? (if required) N/A ✓ *
4. Is the legal description of the p.d. sufficient? ✓ *
5. Is there a description of the diverting works? OK ✓ *
6. Are the water uses appropriate for the form? The short form is limited to domestic and stockwater uses with direct diversion. All claims that include storage or instream stockwater must use long form. ✓ *
- Is the period of use included? ✓ *
- Is a quantity claimed for each use? ✓ *
7. Is a total quantity claimed entered? ✓ *
8. If required is a consumptive use entered? 24.5 N/A ✓ *
- Is the consumptive use correct? N/A ✓ *
9. Are the non-irrigation uses listed properly? If this claim is on the short form, and more than one domestic use is listed, single ownership must be stated. If not under single ownership, see Adjudication Memo # 4. N/A ✓ *
10. Is (are) the place(s) of use and purpose(s) indicated? ✓ *
11. Is (are) the county(ies) entered? ✓ *
12. Is the ownership of p.u. checked? ✓ *
13. Are other water rights listed or "none" indicated? ✓ *
14. If required, are remarks correct? (If the claimant does not own the place of use, authority for filing the claim must be explained in the remarks.) N/A ✓ *
15. Is the basis of the claim indicated? ✓ *
16. If the claimant requested a monthly docket sheet, is payment enclosed? (If yes, describe payment status in "Comments" below.) N/A ✓ *
17. Is the claim signed by the claimant, and is the signature appropriate? Organizations must complete the organization block. ✓ *
18. Has the claim been signed, sealed, and dated by a notary? ✓ *
19. Was this claim filed on time, or was an extension granted? ✓ *
20. Is the fee enclosed correct? Exempt ✓ *
21. If this claim is based on an existing water right, has the identification number been entered? N/A ✓ *
22. Should this claim be data entered? ✓ *

5. N14 The quantity of water under this right for domestic and stockwater uses shall not exceed 13,000 gallons per day.
6. X01 Domestic use is for 1 home.

Remarks:Comments:

1. Igraves 11/24/2006 Field Exam

Comment: Claim recommendation is based on the SRBA field exam findings collected 11/10/2006. Diversion rate was measured at .11 cfs.

2. Igraves 11/24/2006 Overlaps

Comment: Eureka Water Co. rights 63-145 and 63-16383 from surface water appear to overlap the p/u, however, the claim indicated no other rights were used. The SRBA field exam report also did not indicate the use of surface water.

3. Igraves 11/24/2006 Flow Rates

Comment: The claim listed .02 cfs for stockwater and .14 cfs for irrigation. Flow rate for stockwater was recommended at .09 cfs, which is the department standard for 400 range cattle. This increase was possible without an amendment because the claimed flow rate for irrigation was decreased to .03 cfs (per Jan Shurte).

MEMORANDUM

TO: ADJUDICATION FILES 63-3205 & 63-4239

FROM: DANIEL A. NELSON

DATE: 11/10/06

SUBJECT: CLAIM FIELD EXAM

I was asked to re-examine the above claims, because of some concerns regarding the field exams done by the contractors who originally examined these rights. I performed a field exam on 11/6/2006 on this system and will speak to each below:

63-4239

This right was the only right that actually needed a field exam, even though it was below the department's requirement for performing a field exam. During my exam I found an artesian well that open flowed into a ditch system that irrigated 0.9 acres in the NWNE S20 and supplied water to approximately 400 head of cows in a nearby pasture. These cows are rotated in and out of the pasture and can vary in numbers. I used the standard 12 gallons per day for the 400 head of cattle for year round use to determine the annual volume of 5.4 afa ($400 \text{ head} \times 12 \times 365 / 32850 = 5.4 \text{ afa}$). There were no cows in this pasture during my visit. The well also supplies water to a single household. No one was living in the house at the time of my exam. I measured the flow of the well at 0.11 cfs. I would recommend this claim as follows:

0.02 cfs and 0.6 afa for domestic use from 1/1 to 11/15

0.09 cfs and 5.4 afa for stockwater use from 1/1 to 12/31

0.03 cfs and 4.1 afa for irrigation use from 3/1 to 11/15

Total = 0.11 cfs and 10.1 afa

The irrigation use is for 0.9 acres. The point of diversion and place of use are all located in the NW~~NW~~ S20.

NE

This claim is based on a licensed right, so my only objective in reviewing this right was determine that there sufficient water supply and the location of the place of use and points of diversion. Please see the attached maps for places of use and points of diversion. There are 3 wells associated with this right, 2 in the NWNW S20 and 1 in the SWSW S17. The wells supply more than enough water to supply the licensed amount under this claim. Please see the diversion rate calculation sheet. The place of use is clearly marked on the map and the only problem I found here is that the SESW S17 should be included in the stockwater place of use. The only other problem that I found was only 1.3 acres were being irrigated instead of 2 acres licensed. This is merely a mapping issue, and would remain with the licensed amounts.

I would recommend this claim as licensed except for the following changes.

Stockwater should be added in the SESW

Stockwater volume =

2000 hd X 12 gal/hd/day X 365 days / 325850 = 26.9 afa

3 homes X 0.6 afa per home = 1.8 afa

2 acres X 4.5 afa = 9.0 afa

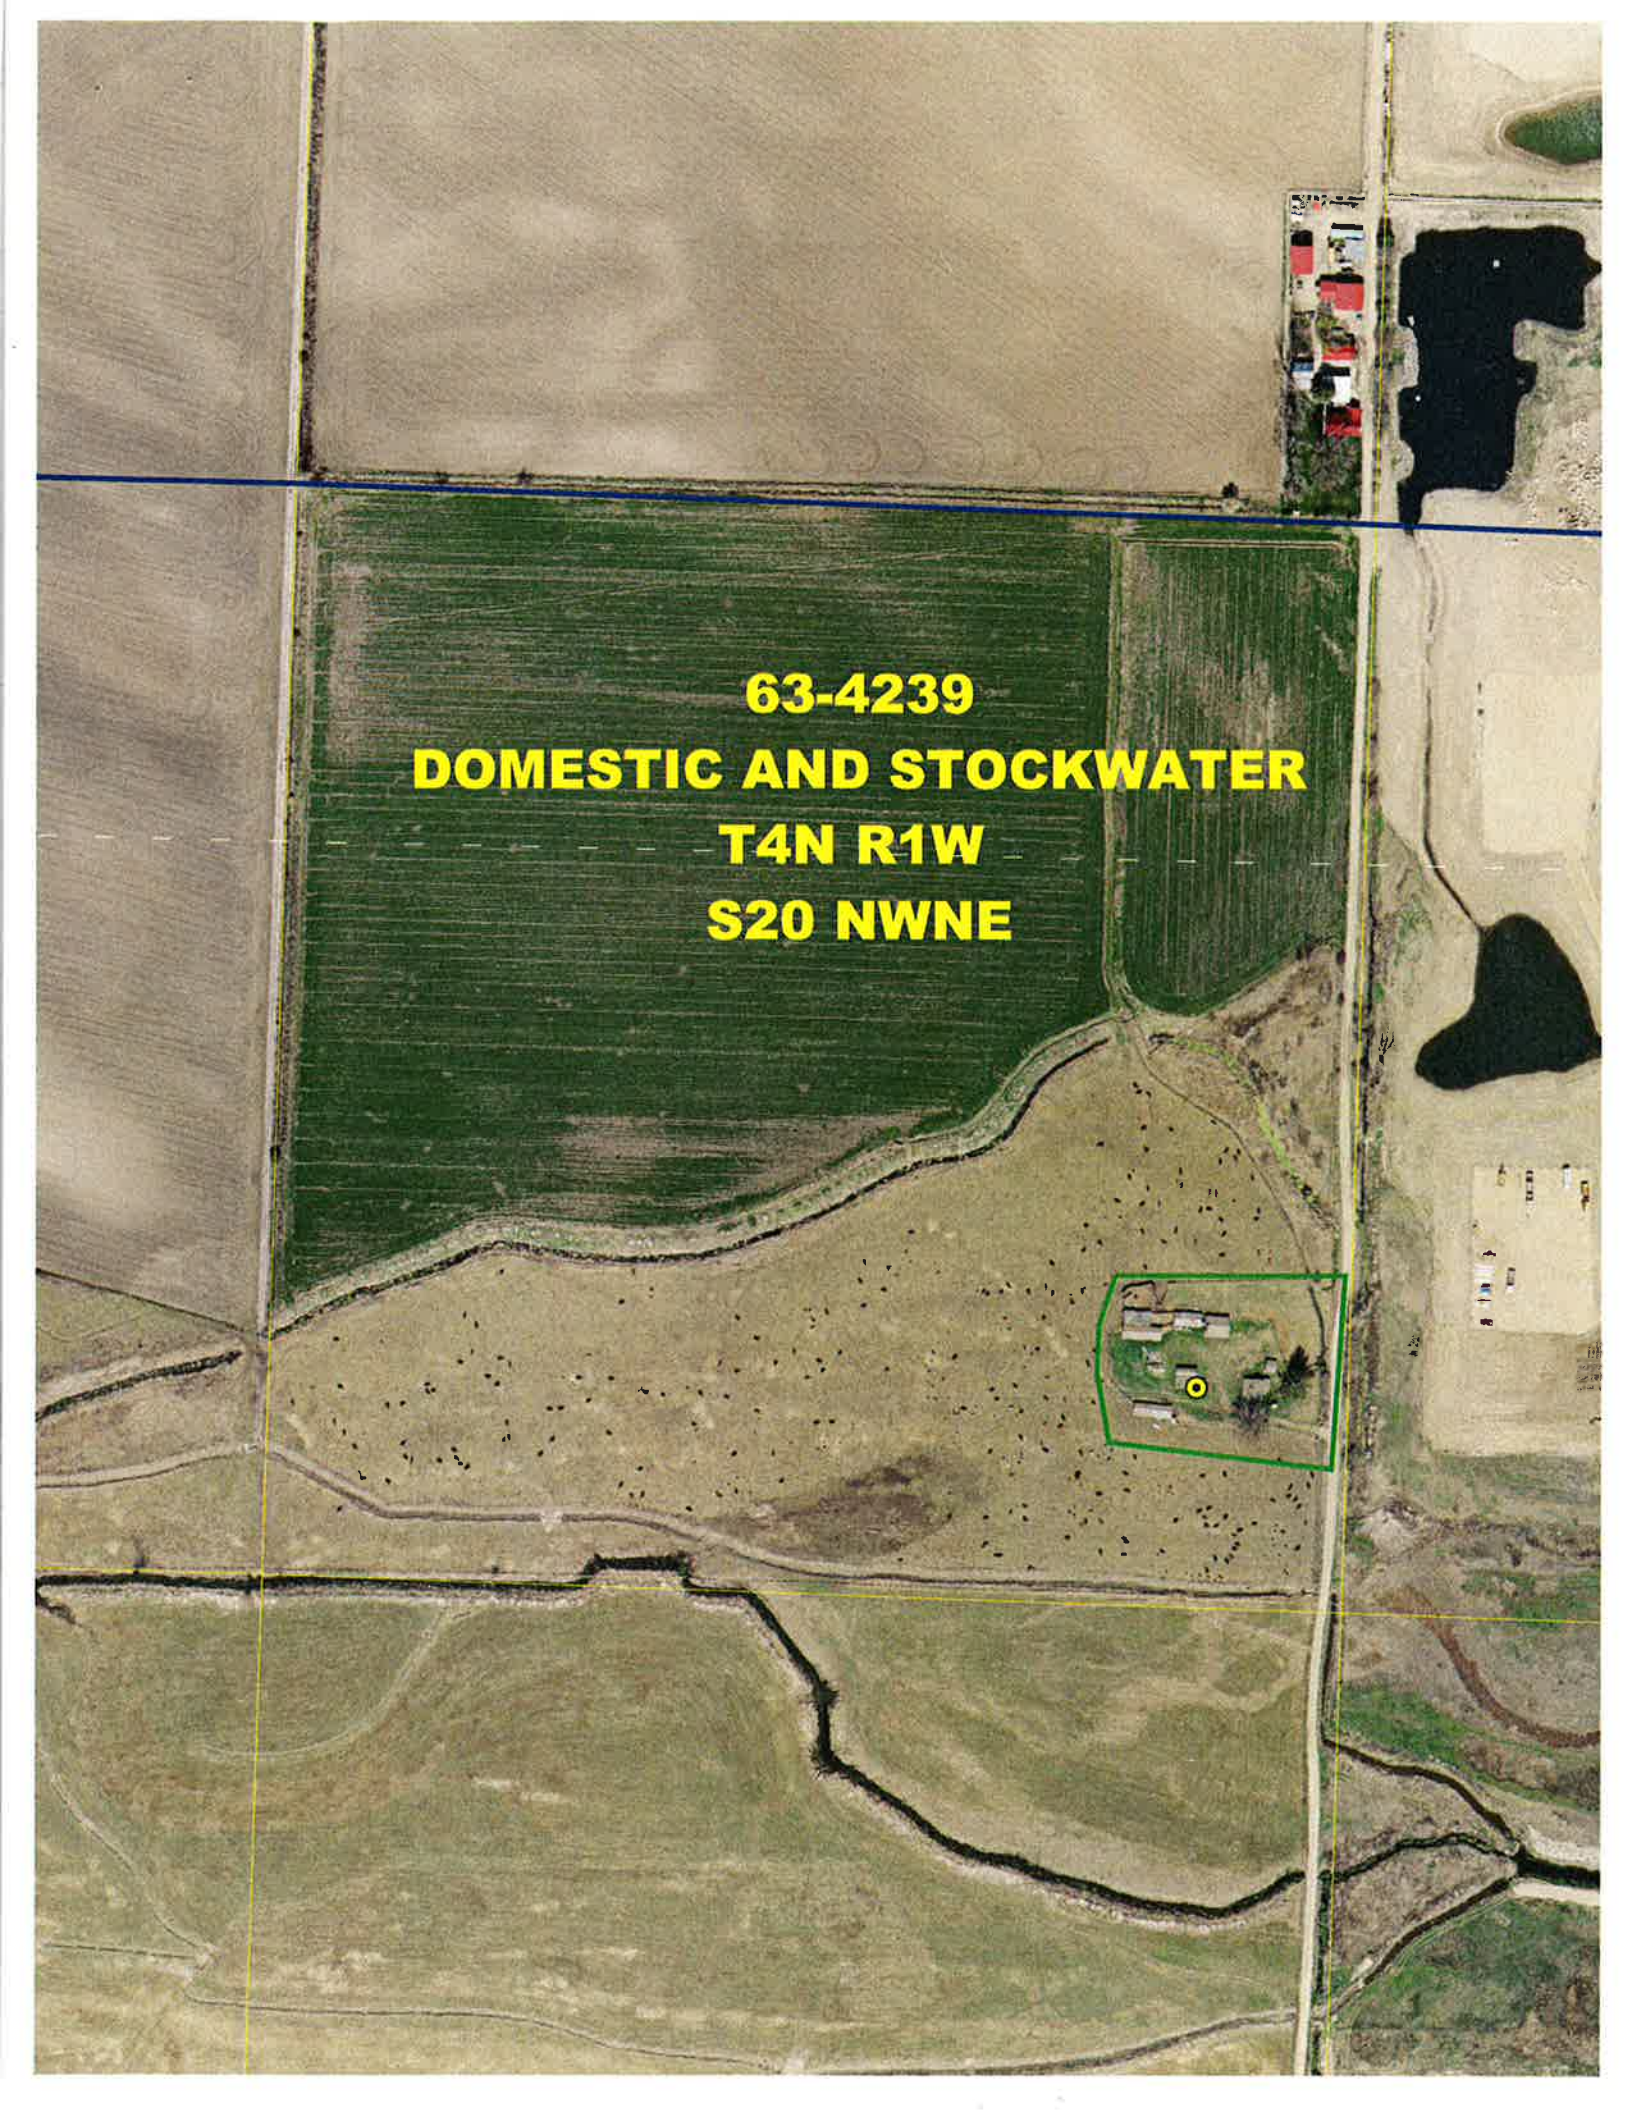

TOTAL VOLUME = 37.7 afa

PLEASE NOTE: 0.06 cfs X 1.9835 X 365 days = 43.4 afa total volume capacity
recommend as shown above.

FLOW RATE CALCULATIONS FOR STILLWELL RANCH WATER RIGHTS 63-3205 & 63-4239

During my field exam I was asked to determine the flow rate for the 4 Stillwell Ranch wells. The only well that actually requires a measurement is the well associated with water right 63-4239 in the NWNE S20, but I did check the other wells to determine if there was adequate water for the diversion rate given in the license.

During this field exam, I found that all of the wells are artesian wells. All of the wells are flowing wells except for the South House well in the NWNW S20. This well has been capped and is not allowed to free flow. The North House well in the NWNW S20 does provide artesian flows, but it does have a pump to supply pressure to the two homes associated with it. This well has an overflow pipe used for stockwater purposes. The overflow pipe flows continuously, and even flows while the pump is in operation. The stockwater well in the SWSW S17 doesn't have a pump, and it's free flow use runs continuously through the stockwater tanks in the feedlot. I did measure the well for 63-4239, which is the only unlicensed well. Please see below for my flow determinations for each right.

63-4249

This well is an artesian well that free flows out to stockwater tanks. The well also supplies minimal irrigation use around an old homestead. The old home is not currently being used, but this well is also used to supply water to the home. I used a 5-gallon bucket and a stopwatch to determine the flow rate. I timed the fill of the bucket three times with times of 6.0, 6.5, and 6.5 seconds. Below are my calculations showing the flow of the well.

$$6.0 + 6.5 + 6.5 = 19 / 3 = 6.3 \text{ second average fill time of the bucket}$$

$$(5 \text{ gal} \times 60 \text{ Sec}) / 6.3 \text{ sec} = 47.6 \text{ gpm} / 448.8 = 0.11 \text{ cfs diversion rate for the well.}$$

63-3205

I performed theoretical calculations on the pumps for the North House Well and the South House well. Please see the attached calculation sheets for the diversion rates calculated below:

North House well = 0.07 cfs

South House well = 0.07 cfs

Stillwell Ranch Flow Calculations

The South House well doesn't have open artesian flow, so 0.07 cfs would be the capacity of this well. The North House well does have artesian flow, and the owner stated that it rarely completely stops flowing even when the house pump is run for an extend time to irrigate the yard. This is important, because the open artesian flow is used for stockwater in the pens around the home. The North House well and the Stockwater well and the well for 63-4249 seem to have identical construction. Therefore, I would estimate that these two wells would have similar if not the same flow rate or 0.11 cfs. Therefore, the total capacity of all three wells would be as shown below:

South House well = 0.07 cfs

North House well = 0.11 cfs (includes pump capacity and artesian flow)

Stockwater well = 0.11 cfs

TOTAL CAPACITY = 0.29 cfs

This claim is based on a license that limited to the total water use to 0.06 cfs. Either of the pumps on the two house wells can supply this flow rate, so the capacity of the system is way above what has been licensed for this system.

TABLE 1, RECOMMENDED DIVERSION RATES FOR STOCKWATER

In cubic feet per second (cfs)

<u>No. of head</u>	<u>Dairy cows</u>	<u>Other cattle, horses & mules</u>	<u>Hogs</u>	<u>Sheep & goats</u>
0 - 25	0.02	0.02	0.02	0.02
26 - 50	0.04	0.02	0.02	0.02
51 - 100	0.07	0.03	0.02	0.02
101 - 200	0.13	0.05	0.02	0.02
201 - 300	0.20	0.07	0.02	0.02
301 - 400	0.26	0.09	0.03	0.02
401 - 500	0.33	0.12	0.04	0.02
501 - 600	0.39	0.14	0.05	0.03
601 - 700	0.46	0.16	0.05	0.03
701 - 800	0.52	0.19	0.06	0.03
801 - 900	0.58	0.20	0.07	0.04
901 - 1000	0.65	0.23	0.08	0.04

For chickens, round to the next highest 100 and multiply this number by 0.0000018.

For turkeys, round to the next highest 100 and multiply this number by 0.0000033.

If you have more than 1000 head of stock (other than poultry), round the number of head to the next highest 100, and multiply this number by one of the following factors:

For dairy cows, multiply by 0.00065

For other cattle, horses, or mules, multiply by 0.00022

For hogs, multiply by 0.000074

For sheep or goats, multiply by 0.000037

Round the amount you calculate to the nearest 0.01 cfs and enter this amount in the appropriate space on your claim. You may claim 0.01 cfs even if your calculated amount is less than 0.01 cfs.

VOLUME FACTORS

<u>STOCK</u>	<u>GPD/HEAD</u>
dairy cattle	35
range cattle	12
horses	12
mules	12
hogs	4
goats & sheep	2

Attn: K. L. Brown
Water Resource Agent, Adjudication Bureau

Re: Snake River Basin Claim No. A63-04239

Dear Ms. Brown:

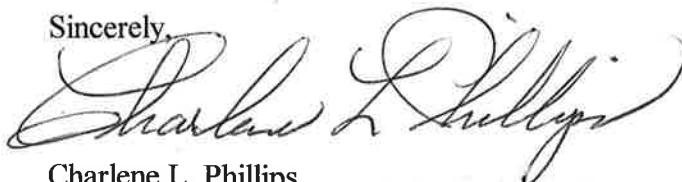

A patent was issued to Elijah Frost on April 21, 1873 for 160 acres. A series of deeds dated from 1896 to 1912 then parceled the property to his two heirs and established an easement to the two separate properties. Daughter Ida Dorman Harbert acquired title to the property on which the above claim is located on January 27, 1896. Due to a marriage settlement, she acquired sole title in 1912. I believe the priority date of June 1, 1928 for A63-04239 was the date that Thomas, Maude Harris purchased the property from her. Charles and Mary Stillwell purchased this same parcel from Thomas Harris in 1967. The Stillwells were adjoining neighbors to this particular parcel since 1924.

From my own memory of often visiting with our nearest neighbor, the Harrises, as a child (I was born in 1932), the house was not new and the well was always there. They had cattle, farmed and irrigated their property.

As I interpret the chain of title, the Daughter Ida Dorman Harbert who was married when she was inherited the property in 1896 lived on the property, built the house and drilled the well from at least 1896 until the disposal of the property on June 1, 1928. This would be the reason my father, Charles Stillwell used June 1, 1928 as the priority date of the claim, knowing that the Harrises had used the well beneficially from the time of their acquisition.

Trust that the foregoing statement will establish June 1, 1928 as priority date for Claim No. A63-04239. If I can be of further assistance, please do not hesitate to contact me.

Sincerely,

Charlene L. Phillips

STATE OF IDAHO

DEPARTMENT OF WATER ADMINISTRATION

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that CHARLES L. STILLWELL &/or MARY E. STILLWELL
(name of claimant)
of Rt. 1, Meridian, Idaho, claims a right to the diversion and beneficial use of
(mailing address)
ground water or surface water tributary to _____

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Groundwater

- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount _____	Use <u>Irrigation</u>	Period of Use: From <u>April 1</u> To <u>Oct. 31</u>
Amount _____	Use <u>Stockwater</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
Amount _____	Use <u>Domestic</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
(cfs, gpm or a/f)	(dom., irri., stock, etc.)	(both dates inclusive)

- (3) Total quantity of water claimed: .15 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

- (4) Priority claimed: (the date water was first applied to beneficial use) 1928

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)

NW ¼ NE ¼, Sec. 20 Twp. 4 N Rge. 1 W B. M. County of Ada

Additional points of diversion:

- B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. **well, pump, & pipeline**

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

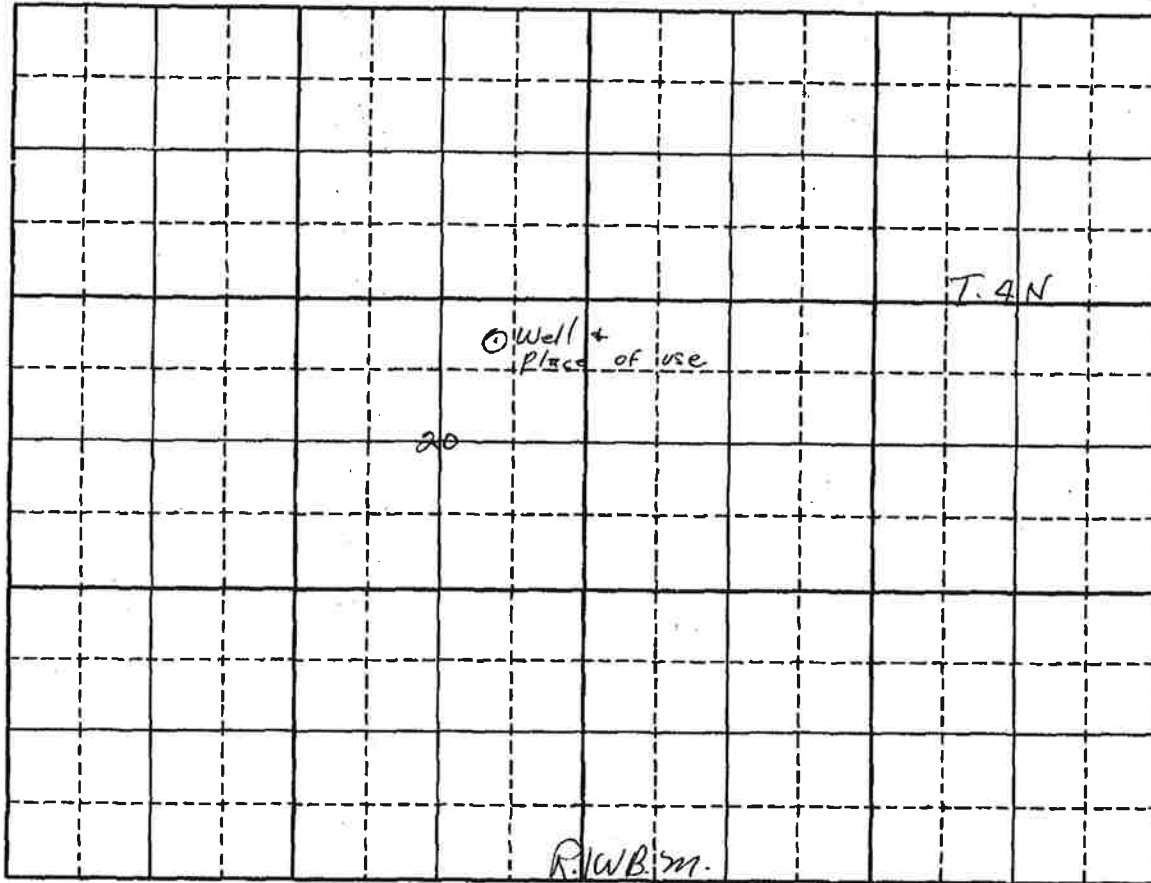

[illegible]

Total No. of acres 7

- B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: Domestic for one home and stockwater for 150 mixed cattle.

- (7) If you are claiming water as a member of an organization, list name of organization:

(8) Remarks

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho

ss.

County of Ada

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiants knowledge.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-04239

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 15, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that CHARLES L. STILLWELL &/or MARY E. STILLWELL
(name of claimant)
of Rt. 1, Meridian, Idaho, claims a right to the diversion and beneficial use of
(mailing address)
ground water or surface water tributary to _____;

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Groundwater

- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount Use Irrigation Period of Use: From April 1 To Oct. 31

Amount Use **Stockwater** Period of Use: From Jan. 1 To Dec. 31

Amount	<u> </u>	Use <u>Domestic</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
	(cfs, gpm or a/f)	(dom., irri., stock, etc.)	(both dates inclusive)

- (3) Total quantity of water claimed: .15 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

- (4) Priority claimed: (the date water was first applied to beneficial use) 1928

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)
 NW ¼ NE ¼, Sec. 20 Twp. 4 N Rge. 1 W B. M. County of Ada
 Additional points of diversion:

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. well, pump, & pipeline

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 7

B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: Domestic for one home and stockwater for 150 mixed cattle.

- (7) If you are claiming water as a member of an organization, list name of organization: _____

(8) Remarks
