MEMORANDUM to FILE

Date: June 12, 2008
To: Claim File 22-13747
From: Joseph Larsen
Re: Transfer Evaluation

I recommended this right with all values being the proportionate rates of parent right 22-7088 for 78 acres, all photos that IDWR has show those acres as being irrigated. The accomplished change in POD was allowed based on the two field exams for rights 22-7088 and 22-2236 along with a note written by Bryce Contour on 6Nov2004 in the 22-2236A claim file. In this memo it states that the two mainlines were connected during 1987 and remained connected until the property was bought and split by B&B Farms. The change of ownership was filed by B&B Farms on 3Mar2006.

Note: I've attached the maps from both field exams that show that the mainline delivery system was in place around 1965 as a result of license 22-2236.

The map is a hand-drawn survey on a grid. It shows several land parcels and wells. Key features include:

- Top Left:** A shaded area labeled "OUT" with a "40" above it. Below this is a "40" and a "36". A "New Well" is indicated with an arrow pointing to a small circle.
- Top Center:** A "40" and a "32" are marked.
- Center:** A shaded area labeled "OUT" is shown. Below it, a row of parcels is labeled "L. #4", "L. #3", "L. #2", "L. #1", "L. #4", "L. #3", "L. #2", "L. #1". Below these are the numbers "39", "39", "39".
- Bottom Center:** A "40" and a "39" are marked. A "Well adjacent to T.M. 22-2236" is indicated with an arrow pointing to a small circle.
- Bottom Right:** A shaded area labeled "OUT" is shown.

Hand-drawn schematic diagram of a water distribution system. A horizontal line represents an 8-inch steel main. On the left, a 'Well' is connected to the main via a 'check valve'. Further right on the main is a 'meter'. The main extends to the right, where it intersects with a vertical line representing a 'north south buried main'. At this intersection, there are two 'gate valves'. A dimension line below the horizontal main indicates a distance of '16'' from the well to the intersection point.

Monica:

To confirm our telephone conversation this morning, there is a typographical error in the place of use description in the current claim (NESW (39 acres) and the NESW (39 acres), Section 4, Twp 5N, Rge 40E, Madison County). The client's consultant will prepare an amended claim identifying the correct place of use (NESW (39 acres) and the SESW (39 acres), Section 4, Twp 5N, Rge 40E, Madison County). I understand from you that we should submit the amended claim directly to you for processing. If my understanding is incorrect, please immediately let me know.

Thanks, Tiffany

Hi Tiffany,

I spoke with you on September 10 regarding the above claim. On the claim form, T05N R40E Sec 4 NESW is claimed twice for a total of 78 acres. In looking at the original license, it is difficult to determine the intent of the claim. Before we proceed with reviewing the claim, it is important we know the entire claimed place of use (POU). Per our conversation on the 10th, you were going to check on the POU. Can you give me an update? Thanks!
