Dear SIR/MADAM:

The Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for a portion of the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated with new water right numbers reflecting the division of the water right(s).

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of the water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

- B. An undivided one-fourth (1/4) interest (.60CFS) in State of Idaho Water Right License and Adjudication Claim No. 22-383, which right is for a total of 2.4CFS.
- C. An undivided one-fourth (1/4) interest (.50CFS) in State of Idaho Water Right License and Adjudication Claim No. 22-321, which right is for a total of 2.0CFS
- D. An undivided one-fourth (1/4) interest (.74CFS) in State of Idaho Water Right License and Adjudication Claim No. 22-7696, which right is for a total of 2.96 CFS. ($1/4 \times 2.96 \text{CFS} = .74 \text{CFS}$). The water from this right (No. 22-7696) is obtained from ground water by means of a deep well and pump located in the NE1/4SE1/4 of Section 30, Township 6N., Range 45 East Boise Meridian, in Teton County, Idaho, which well, motor, pump, and panel, (hereinafter called the "Water System") belong to Parties of the First Part herein and shall remain wholly owned by Parties of the First Part and subject to Parties of the First Part unrestricted use. Providing, however, Party of the Second Part shall have the non assignable right to the joint use with Parties of the First Part of said water system for its own water use purposes on the property above described being purchased by Party of the Second Part herein from Parties of the First Part herein which is part of the property designated as the places of use specified in said license and adjudication claim No. 22-07696, and subject to the limitations and specifications contained in said water right license and adjudication claim as "Conditions of Approval."

The parties shall pay when due, on a pro-rated basis according to the relative water rights diverted through said system by the parties, (3/4 thereof by Parties of the First Part and 1/4 thereof by Party of the Second Parts) all costs of any further installations used by both parties, as well as maintenance, major repairs and replacements, of said water system. Party of the Second Part shall pay all demand charges for the power charges to operate said system, and each of the parties shall pay its share of the costs of the power and oil and "day to day" ordinary minor repairs on a pro-rated basis determined by the parties from time to time, based on the relative uses by the parties. Party of the Second Part shall be responsible, since it will be the major user of the system, to pay the said bills for all of said charges, and to account for and bill the Parties of the First Part, for Parties of the First Part portion of said bills.

Party of the Second Part shall have the right to change, at its own total costs, its point of diversion of its water right herein granted to it, from said well and pump, for its own use, to any other point of diversion, but shall have no right to change

Parties of the First Part point of diversion, nor sell, lease or assign to any one any rights in said water system. If Parties of the First Part choose to sell said water system, it must sell same subject to Party of the Second Parts continued right to use said system to divert its own water right for so long as it chooses to. Further, if Parties of the First Part choose to sell said water system the Party of the Second Part has the first right of refusal to purchase the same, providing however, Parties of the First Part may elect to sell said water system as a part of the sale of their own real estate upon which Parties of the First Part portion of water right No. 22-7696 is used. Therefore Party of the Second Parts first right of refusal to purchase the water system, would have to also include the first right of refusal to purchase Parties of the First Part own said real estate which is also irrigated by the use of said water system.

And the said parties of the first part, and their heirs, hereby warrant and agree to forever defend the parties of the second part, their heirs and assigns, in the quiet and peaceable possession of said premises against all and every person lawfully claiming an interest therein.

IN WITNESS WHEREOF, the said parties of the first part have hereunto set their hands and seals the day and year first above written.
