DESCRIPTIVE SUMMARY

This is a Director's Report of Deferred *De Minimis* Domestic and/or Stock Water Use submitted by the Director of the Idaho Department of Water Resources (IDWR).

INTRODUCTION

A Motion for Determination of Deferred *De Minimis* Domestic and/or Stock Water Use (Motion), as well as a Notice of Claim to Water Right, was submitted to the Court on June 6, 2018, for water right claim no. 63-34545. The claimants, Travis and Celeste Haase, published notice of the Motion, and the Director has now completed his examination of the water right claim. The examination was conducted by Craig Saxton, Analyst 3, Adjudication Section, on behalf of the Director. The materials used in and results of the examination of the elements of water right claim 63-34545 are discussed below.

DISCUSSION

Priority Date – The claimed priority date is September 14, 1984, which matches the well completion date provided on the well driller's report submitted with the claim. The well driller's report describes the location of the well as Spring Creek Estates #2, Block 1, Lot 9, which is consistent with available Ada County parcel records. Therefore the claimed priority date of September 14, 1984, was recommended. The basis of claim is beneficial use.

Point of Diversion – The identified location of the well is on the claimants' property, parcel no. R8079010047, and falls within Township 05 North, Range 01 East, Section 25, NWNE.

Source – The source for water diverted from a well is ground water.

Place of Use – Aerial photography confirms evidence of domestic use as claimed on the place of use, parcel no. R8079010047. Parcel no. R8079010047 falls within both the NWNE of Section 25 and the SWSE of Section 24, Township 05 North, Range 01 East. A home is located in the NWNE of Section 25, and available aerial photography shows that lawn and garden use extend north into the SWSE of Section 24. Therefore, the recommended place of use description includes both the NWNE of Section 25 and the SWSE of Section 24, Township 05 North, Range 01 East.

Purpose of Use and Period of Use – The domestic use was verified by the home, lawn and garden in the aerial photos. Water used for domestic purposes is generally recommended for year-round use if year-round use is claimed.

Quantity – The well driller's report indicates that, at the time of drilling, the well produced 40 gallons per minute or 0.09 cubic feet per second (cfs). The total quantity claimed of 0.06 cfs is within the typical range of diversion rates associated with private wells used for domestic purposes at one home.

CONCLUSION

There is sufficient evidence to recommend water right claim 63-34545 for domestic use.

Pursuant to Judge Wildman's *Order Amending Procedures in the SRBA for Adjudication of Deferred De Minimis Stockwater Claims*, dated October 17, 2017, the Director submits this Director's Report of Deferred *De Minimis* Domestic and/or Stock Water Use, Claim No. 63-34545, which includes the recommendation of deferred *de minimis* water right no. 63-34545.

Respectfully submitted this 30th day of October, 2018.
