**CONDITIONS OF APPROVAL**

1. Proof of application of water to beneficial use shall be submitted on or before **November 01, 2016**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
6. Stockwater use is for 75 head of mixed stock.
7. Water shall not be diverted from fire protection storage except to fight or repel an existing fire.
8. Recreation is for swimming and boating.
9. The pond established by the storage of water under this right shall not exceed a total capacity of 4.8 acre-feet.
10. This right authorizes the diversion of an annual total of 24.2 acre-feet to be used for the initial filling of the pond for the replacement of losses caused by seepage and evaporation from the pond and for the storage of water for stock, fire protection, irrigation, recreation and wildlife.
11. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 2 day of November, 2011.

RE: Permit No.95-15010

### Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.
