1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

A limit of water use on agricultural land to be the same as non-agricultural land is somewhat puzzling. Between keeping agi-land free of invasive weeds, starting new crops or expanding existing crops is self-explaining.

2. Describe the changes you wish to make in the proposed recommendation:

Our land is a tree farm/timber property & during the summer & especially during dry/hot summers more watering is necessary. We honestly couldn't say how to access our needs except at times in

3. Give a brief explanation as to why you disagree with these portions:

TO SAY ACROSS THE BOARD, THAT ALL LAND IS USED EQUALLY ALL THE TIME YEAR ROUND, ISN'T SO BUT BETWEEN MAINTAINING AGI-LAND GROWING NEW CROP & LAST BUT NOT LEAST, FIRE PREVENTION, USAGE OF WATER CAN TRULY VARY, ESPECIALLY IN SUMMER.

I AGREE with this proposed recommendation: no changes need to be made.
