RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8503

Dear Claimants:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make all the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed on the basis of a previously issued water right license. When filing a water right claim based on a previously issued license, all aspects of the originally licensed water right must be carried over to the new claim, with exception to a reduction of use or changes accomplished through a water right transfer (Idaho Code § 42-222). In your Notice of Error Reply, you requested to move the recommended place of use to a different tax parcel. The place of use recommended for this claim is consistent with the license it was based upon and cannot be moved without the filing of an Application for Transfer of Water Right. That form as well as instructions for filing can be found on our website at <https://idwr.idaho.gov>. If you would like to add additional water uses beyond what is allowed under Water Right License 95-8503, an application for a new water use permit must be filed. For your convenience, I have enclosed an Application for Permit form with instructions. Your contact address has been updated as requested.

If you have any questions or concerns, feel free to contact the staff at our Northern Regional Office during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region
