RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-12090

Dear Claimants:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed for the use of groundwater for domestic, fish habitat, and irrigation purposes with a claimed priority date of September 1, 1997. The Notice of Error Reply you submitted for the claim requested that the recommended purpose of use be revised to include irrigation and fish habitat, as well as domestic use for 2 more residences. As your previous claim was filed for domestic use in only 1 home, an Amended Notice of Claim must be submitted reflecting that expanded domestic use before it can be recommended. If you would like to irrigate additional land beyond the ½ acre allowed with your domestic use, an "Application for Permit" form should be filed. The permit system for establishing a water right became mandatory for uses developed from groundwater sources after March 25, 1963 (except for small domestic and stockwater purposes). You also requested that your uses of water from Bellgrove Creek be added to this claim. If you wish to claim uses of surface water (creek), a new Notice of Claim to a Water Right must be submitted for those purposes. Depending on when that use began, a permit may also be required for those purposes. The permit system for establishing a water right became mandatory for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams). For your convenience, I have enclosed an Application for Permit with instructions.

If you have any questions or concerns, feel free to contact our staff at the Northern Regional Office during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region
