RE: Amended Notice of Claim for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-15603

Dear Mariah,

The Idaho Department of Water Resources has reviewed the Amended Notice of Claim to a Water Right for the above referenced claim. Pursuant to the additional information received, the Preliminary Recommendation for that water right claim has been revised. Please review the enclosed Preliminary Recommendation to ensure your agreement with the corrections made.

PLEASE NOTE: This claim is being recommended under subsection (1)(b) of § 42-111, Idaho Code, which limits the use to 2,500 gallons per day. 2,500 gallons is enough water to cover 8,000 square feet of land (slightly less than 0.2 acres) to 0.50 inches deep, sufficient for most lawn and landscape irrigation. In the Amended Notice of Claim submitted, the water use is described as domestic use for "nonprofit association and lawn irrigation ½ acre". If the daily water usage at the claimed location is in excess of 2,500 gallons per day, than an Application for Permit should be filed.

If you have any further questions or concerns, do not hesitate to contact our office and we will be happy to help. We can be reached by phone during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
