RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-12946

Dear Claimants,

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested revisions to your claim recommendation at this time for the following reason.

In your Notice of Error Reply you requested that additional water be allocated to you for use by the East Side Fire District as well as additional water for the development of a heating and cooling system for the home in the future. A water right is not required for the diversion of water to repel or extinguish an existing fire on the property as defined by Idaho Code § 42-201(3)(a). The use of water in your home for heating and cooling falls within the current claim recommendation of domestic use. If additional water is needed beyond what is currently recommended, an Application for Permit should be filed. For your convenience, I have enclosed an Application for Permit form with instructions.

If you have any further questions or concerns, do not hesitate to contact our office and we will be happy to help. We can be reached by phone during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region

Enclosure(s): Application for Permit with Instructions
