IDWR/NORTH

12 Dec 2018

I, Arlie W. Puckett, purchased the 22 acres on 18 Feb 1971.

The cistern and spring usage was currently available for continuous usage of $\frac{1}{2}$ acre of the orchard and garden area. On 1 April 1971, raspberries were the first items planted, followed by apple trees.

The 300 feet of pipe for irrigation was sufficient for my needs, as I attached fire hoses to extend to the edges of my orchard/garden.

Arlie W Puckett
