RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-15532

Dear Claimant:

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested changes to the water right claim recommendation for the following reasons.

The Notice of Claim to a Water Right identified with the number shown above was filed for the domestic and stockwater use of groundwater with a claimed priority date of 1921. The Notice of Error Reply you submitted for the claim requested that the recommended quantity be revised to include additional water for irrigation and expanded business needs in the future. The North Idaho Adjudication includes an inventory of historic and current water uses and does not include the allocation of water for new uses in the future. If you would like to irrigate additional land beyond the ½ acre allowed with your domestic use, an "Application for Permit" form should be filed. The permit system for establishing a water right became mandatory for uses developed from groundwater sources after March 25, 1963 (except for small domestic and stockwater purposes). For your convenience, I have enclosed an Application for Permit with instructions.

If you have any questions or concerns, feel free to contact our staff at the Northern Regional Office during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region
